How did we do it?

@irenapila_

We used CrowdRiff to:

Track hashtags and other travel accounts to build a library

Pull in images and videos we loved using sidekick

Build galleries for destinations, types of travel, and soon individual tours.

The technical bits

@travelwithhuna

We have a team of developers in house that made things happen.

The challenging bits

@twoguysvanlife

We needed A LOT of content!

Tips for using CrowdRiff

@notclerigojosh

CrowdRiff made our vision for TourHub achievable.

Finding content, requesting rights and seamlessly integrating it into TourHub.
