ST9815

SECURE MICR CHECK PRINTER

The ST 9815 is a price-performer for even the most sensitive budgets.

Let's face it, in today's accelerated pace of technology and business change, selecting a secure solution for your secure check printing needs isn't tipping the innovation meter. However, for decades our printers remain a steadfast and critical tool for business people who need to print checks on-demand, securely, and reliably in serving their customers.

The ST9815 Secure MICR Check Printer is the ideal, affordable solution for on-demand check printing. It has a small footprint; prints up to 38 pages per minute; fast first page to print at 6.5 seconds; prints on both sides of the page with integrated duplex capability; offers easy access to front-load supplies.

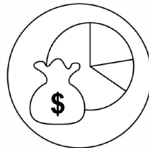

Why Pay More To Do It The Hard Way?

Businesses that disburse checks and secure documents as an important part of serving their customers have found increased security, less cost, and a true lift in productivity through the automation of their on-demand check printing process. The key to these efficiencies and improved customer service are simply realized with the utilization of secure MICR laser printers that print all the essentials of a secure check on blank check stock.

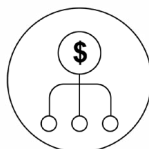

Our customers who serve others by printing checks in these business environments love the trifecta gains - *increased security, less cost, and a true lift in productivity* - from the ST9815 MICR Check Printer:

Bank Teller

Wealth Management Agent

Treasury Services Agent

Payday Lending Agent
