

HUMANITY'S GREAT Awakening

*Must Pass through the Valley of
Truth and Conspiracy Fact!*

Dwight Eisenhower warned of a looming “military industrial complex.” John F. Kennedy called it a “monolithic and ruthless conspiracy” and “no war ever posed a greater threat.” Some call this the Deep State, others prefer the 1% or elite. Here are ten conspiracy facts to challenge your world view of coincidence that says we are NOT in a war of information and compliance.

Genghis Khan, Alexander, Adolf Hitler and others attempted to conquer our world with the sword.

In an age of information the probability is near 100% today's elite have the same goal, but are using a different means to achieve it!

You've been programmed to believe a massive conspiracy is not possible. To reassess this position look at these ten conspiracy facts with an open mind. We are in the middle of a war of information, world view, and compliance toward our own defeat. The good news is that you are on the precipice of realizing your true power. Read on.

If you can't control yourself, control others.

The parable of the blind men and the elephant teaches you to be flexible with your world view because we rarely see the big picture. We touch isolated pieces of the puzzle so the image of the world we put together is slanted to look like a tusk, leg or tail; as if it's unrelated to other things.

Someone close to you is asking you to read this document with an open mind, as if it matters what happens next. It does.

You have the option of proceeding with a healthy skepticism, yet an open mind.

The facts in this document urge you to put on the hat of a detective, to see the emerging pattern, and then to wear the hat of a scientist, so that nothing is outside the realm of possibility.

You are being challenged to spend two weeks with this document, and its supporting material, without connecting with standard media outlets.

Test the following facts with logic, reason, and intuition. You are being asked to find truth beyond what you have been told.

Conspiracy Fact #1:

Antitrust Laws

Here is what *Investopia* (the first hit on Google) has to say about Antitrust laws: “Antitrust laws, also referred to as **competition laws**. . . protect consumers from predatory business practices.”

But do they? Bid rigging, price fixing, and restraint of trade are **blatantly conspiratorial acts**. Colluding in secret to defraud the public is a well-established characteristic of big business.

How can we know the depth of deception we are dealing with?

Antitrust laws are evidence conspiracies exist on a massive scale. Yet most people are convinced “conspiracy theorists” are woefully misdirected.

Seeding attitudes and ideas into the populace is well within the capabilities of the super wealthy. If you were an “elite” it would be in your financial interests to promote such a narrative.

The attitude that conspiracies are not possible pervades. The very idea of a grand conspiracy is radio active. What if this idea is planted? As you rethink this look at the **facts** of antitrust law.

In detective school people are taught to follow the *modus operandi* (MO) to catch the bad guy. A significant part of the MO of big business is conspiratorial. It is therefore terrible detective work to ignore conspiracies as go-to strategies for the elite.

Capitalism's Inherent Problem

Free markets start on a level playing field. Over time weaker companies drop out as competition and innovation self-select. This serves buyers well.

Eventually an industry is left with one or two big suppliers leading to a reduction in competition, innovation and an open door for predatory business practices.

Creativity in the marketplace is replaced with innovative tactics for conspiracy. This serves sellers well and leads to cartel-ism, which is exactly what we are seeing today. This 1873 illustration by J. S. Pughe (above) depicts the impact that the “Big Dog” has on an industry.

If you were a “Big Dog” today would you leave money on the table or act boldly?

More than 130 years of antitrust law proves conspiracies are a well-established characteristic of big business.

Today we are witnessing the greatest transfer of wealth from the lower classes to the super rich in history. This is either a very fortunate happenstance in favor of the elite or it's part of a plan. The **fact** Antitrust Laws exist is a clue.

Put your detective hat on and cultivate your curiosity. You may have a hard time conceiving of legalized theft on this scale. Allow for the possibility that this attitude has been planted inside you. A skeptical yet open mind holds great power.

The fact that we have Antitrust Laws on the books is incontestable.

Conspiracy Fact #2:

Lawless Government Surveillance

Spying on enemies is expected in war. In an information war surveillance and intelligence become even more imperative. You need to know what drives people, where their buttons are, and who is mounting resistance.

Edward Snowden was not the first NSA operative to blow the whistle on the agency but he was the only one to prove his case with documentation. His predecessors tried to do things "the right way," working within the system. It did not go well.

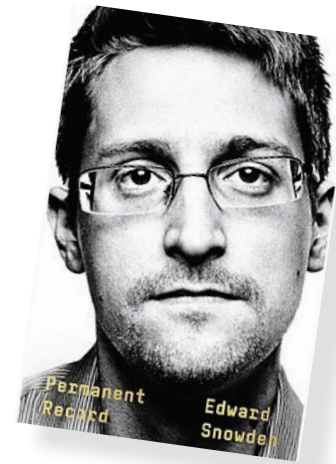

Computer expert Thomas Drake tried to protect the constitution. In his words: "The only person investigated, prosecuted, charged in secret, then was indicted, then ended up facing trial and 35 years in prison was myself."

Bill Binney was an NSA *cryptomathematician* before he blew the whistle. He said: "They were subverting the Constitution."

Binney recalls when a dozen FBI agents burst into his home. He said: "I first knew that they were in there when they were pointing a gun at me as I was coming out of the shower,"

Snowden says the government broke the law more than 2700 times in one year, then they banish him and arrest Drake and Binney for speaking truth. The message is clear: the system is rigged. We live in a lawless state.

Whistleblower advocate Danielle Brian said: "The intelligence community has been increasingly privatizing its activities." This does not bode well for freedom. An interesting article by David Welna is [HERE](#).

Is this the military industrial complex coming to fruition as Dwight Eisenhower warned?

The dampening effect on whistle blowers is twofold: you burn down your life and they get away scot-free.

Companies like Jones Group International, Dynology, The Analysis Group, Clearforce, Atlantic Council, and Global Strategies Group are just some of the companies spying on us. Would you call it an act of war?

John F. Kennedy's "conspiracy" speech was 60 years ago. In it he said: "Our way of life is under attack." When you put your detective hat on do you see the emerging pattern?

If you are having trouble seeing the big picture an interesting article by *Project Unspeakable* is [HERE](#). Liberty doesn't look like the government doing unlawful surveillance on its own people and breaking laws with impunity.

Watch the Snowden interview. See for yourself what you think of this man who some call traitor, others a patriot.

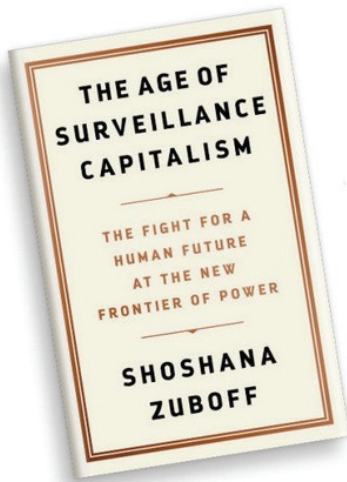

<https://www.youtube.com/watch?v=e9yK1QndJSM>

The fact that Snowden, Drake and Binney blew the whistle on the NSA is incontestable.

Conspiracy Fact #3:

Surveillance is Big Business

In her groundbreaking book *The Age of Surveillance Capitalism* Harvard Professor Shoshana Zuboff confirms what you already suspect: not only does our government lie to us about surveillance, business does too.

The Facebook experiment proved they can influence offline behavior without people knowing about it.

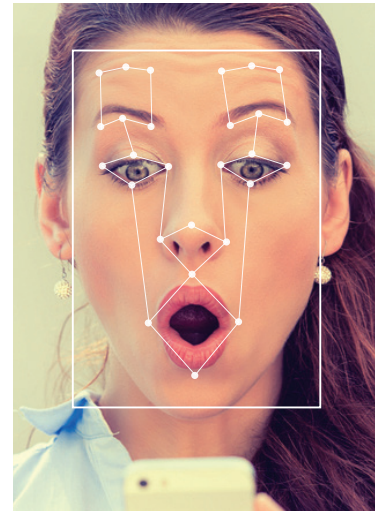

Behavioral data is the prize. Informed consent has **not** been granted. The injury to human rights is staggering. Consider two stories. The first is from Dr. Zuboff and describes Google's smart thermostat called *Nest*. *Nest* comes with a microphone to pick up sound so they can track data like what people watch on TV, if they are arguing at breakfast, who is coming over and *what people are saying*. All this is unknown to buyers.

The other story is from a friend of mine who went to see a buddy with a distinctive taste in music. Not long after the visit began Alexa, the AI (Artificial Intelligence) virtual assistant from Amazon, played songs from my friends playlist, not the owners.

Watch the documentary. See for yourself what you think of this woman who some revile while others think she is a hero.

<https://www.youtube.com/watch?v=hIXhnWUmMvw>

AI reads faces on Social Media

This was totally unexpected. Rather than being pleased and amazed they were both rattled. It was a potent message big brother is listening.

The "surveillance dividend" is why so many investment dollars have piled up in Silicon Valley.

Deceit is in their business plan. Signing a *Nest* consent form can activate over 1,000 downstream user consents. Dr. Zuboff refers to this as: **engineered ignorance**.

Behavioral information includes facial expressions, what we say and how we say it (tonality).

Facebook proved they can influence offline behavior without people knowing! What if several big data sources were combined? What are the limits of behavioral control? How long has this been going on?

Do you see the pattern?

The fact that Shoshana Zuboff calls out our surveillance society is incontestable.

Conspiracy Fact #4:

Genetically Modified Organisms (GMOs)

The story of GMOs is emblematic of how we've been tricked to accept harm into our lives.

In 1999 James Maryanski, Ph.D, Biotechnology Coordinator for the Food & Drug Administration (FDA), testified before Congress about GMOs. The transcript of his talk has been removed from FDA's site. See my 2014 Blog [HERE](#).

His speech to congress makes it clear FDA policies are rife with lies and flawed logic.

Dr. Maryanski said "genetic modification is a **revolutionary breakthrough** that yields the power to cross biological boundaries that could not be crossed by traditional breeding. For example, they enable the transfer of traits from bacteria or animals into plants."

Later in the same speech he said GMOs will be: "Generally Recognized As Safe (GRAS) because they are **no different** than other fruits, vegetables,

and grains that have never been subject to premarket approval. This is because they have been **used as food for a long time.**"

Somehow in Dr. Maryanski's mind "used as food for a long time" is the same as "revolutionary breakthrough." Congress signed off on it.

These foods are sold to farmers as new and different. They were

created to perform differently in the field. **The science to test how GMOs perform in our gut was deemed not necessary.**

GMO science was circumvented by the same tricks of hidden science that put Teflon (C8) and 600 toxic "forever chemicals" into our bodies. The movie *Dark Waters* is an accurate account of the Teflon story. Parallel stories exist for DDT and other toxic

DDT did not fool tribal Africans

Google "DDT African video" and watch the one called: *So safe you can eat it*. In the video scientists tried to persuade the locals DDT is safe by spraying it in porridge and eating it. Tribal elders were not buying it. They reasoned if DDT can kill small living creatures it is none too good for them; a simple piece of logic that escaped the scientists.

chemicals. Is it all a coincidence? The story of Bt corn (supposedly safe for humans) is illuminating.

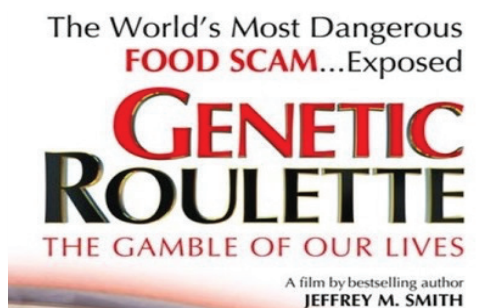

Bt (*Bacillus thuringiensis*) corn is genetically engineered to make its own insecticide designed to kill insects that eat it by exploding the gut of the creature.

Independent studies show GMO products are linked with a large range of gut ailments, including leaky gut syndrome, and IBS irritable bowel syndrome. Gut ailments have been on the rise since GMOs were introduced.

The documentary *Genetic Roulette* (left) is eye opening. It shows what you intuitively know: your gut is of prime important to health, and GMOs inhibit healthy gut function.

Read on to see how poisoned food is connected to drug profits.

If you want the story of the all-important money trail behind vaccine toxicity Robert Kennedy Jr. is spellbinding. (below)

Three of the most important videos in this document are on this page: 1) any interview by Dr. Tenpenny, 2) Robert Kennedy's LondonReal interview (below). 3) Vaxxed II is a must-see.

Put your detective hat on, you'll see why Mr. Kennedy has been discredited widely. He's a threat to people that profit from the death and suffering of millions.

His interview will have an effect on you. It will detail nefarious crimes and the all-important money trail. You'll see why *they* don't want people to see it. Here are a few highlights.

Conspiracy Fact #5: Vaccines (Level 1)

Amazon Has Removed a Misleading Documentary ...

each year from drugs they are supposed to be regulating.

The reason vaccines contain toxic heavy metals like mercury and aluminum comes into perspective in the following bullet point.

Allow this next point to sink in.

• The biggest selling drugs on the market: Adderall, Ritalin, Concerta etc., treat diseases listed as side effects on vaccine insert pamphlets.

This is not a coincidence. Vaccines fuel drug industry revenues to the tune of \$500 Billion per year.

Conspiracy Fact #6:

Legalized Theft Seems to Have No Limit

Legalized theft is unlawful but it happens every second of every day. All of this goes on right under our collective noses without you knowing about it because the mass media (see next page) is in the business of deceiving us.

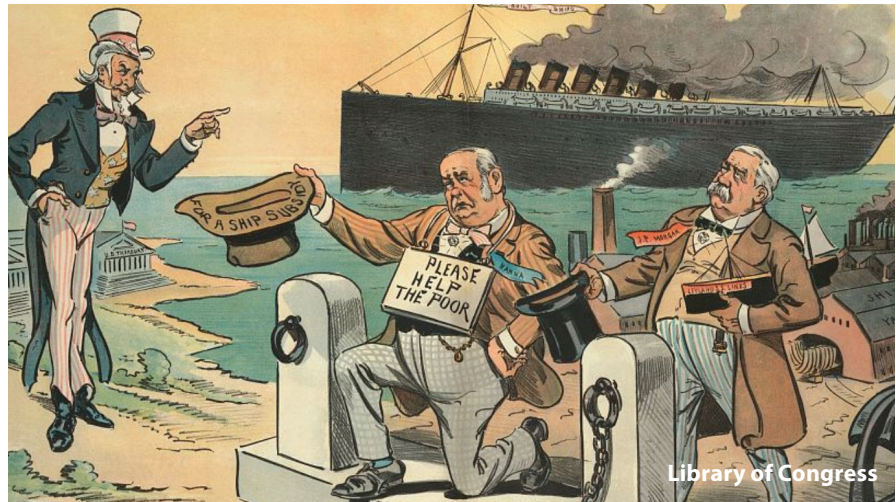

Which is worse: the looting of the American treasury to the tune of \$20 to 90 Trillion; the *Fractional Reserve Lending* farce of conjuring a number in a computer and then charging interest on made-up money; or the fact that corporate welfare and tax rates combine to make the super wealthy ever richer, and us poorer, every single day?

Let's start with the looting of the American treasury. This story begins with a woman named Catherine Austin Fitts, who in the late 80's was an assistant secretary to HUD, the Department of Housing and Urban Development.

Catherine's job was to get to the bottom of the S&L (Saving and Loan) scandal at that time. She was smart, determined and did her job well; apparently too well. When she reported to her superiors in the first Bush administration it made the higher-ups uneasy.

She was ordered to shut up. She wouldn't. Push came to shove and she was fired, blacklisted and then harassed with two

\$21 Trillion stolen from just two government agencies. How much more is gone?

dozen tax audits over 3 years, shady characters snooping about her property and of course a character assassination campaign.

This set her on a journey to found the *Solari Report* and she's alive, well and uncovering facts like the \$21 Trillion in confirmed stolen money from two federal agencies and an estimated \$70 Trillion more that is likely missing.

Listen to her speak [HERE](#).

Fractional lending is a scam to make up numbers on a computer and then charge interest to the borrower. It's all insured, until the system needs a reset, and then the banks who made money out of thin air get bailed out with even more money from us. It's immoral genius.

As an assistant secretary to HUD Kathryn Austin Fitts blew the whistle on the S&L scam.

Ordinary people are turning mass media into a media of the masses!

Theft on a scale that dwarfs all precedent, mass murder and bodily harm to an extent that's hard to fathom, high treason through unlawful surveillance that cannot be reigned in by multiple whistleblowers.

These facts are more than a few juicy stories worthy of a couple of news cycles. Stories like this should be treated like the reports of WWII: updates given everyday, blow by blow accounts of the struggle, an analysis of the enemy, the emotional and psychological toll on people, and what you can do to protect yourself and be of assistance. This is what one would expect from a responsible and free press.

Conspiracy Fact #8: Covid, ID 2020 (Vaccines Level 2)

Eustace Mullins, the author of **Murder by Injection, The Story of the Medical Conspiracy Against America** does not mince words.

His book description is also direct: "I documented cold-blooded tycoons who not only plan and carry out famines, depressions, revolutions and wars, but who find their **greatest profits in their manipulations of our medical care.** The cynicism and malice of these conspirators is beyond the imagination of most Americans."

This 1988 book was well before Covid. Like Mr. Kennedy, Mr. Mullins has been discredited. Wikipedia calls him a hate monger. I saw something else on [this video](#).

500 German Doctors smell a rat. They have "a lot of evidence" Covid is a fake story all around the world and are setting up a commission to look into it.

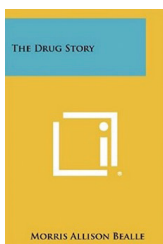

The point of Covid is to set the stage for acts two and three of the biggest criminal endeavor attempted in human history.

Step One: Covid. Instill fear with social distancing (aka divide and conquer) protocols and push compliance with masking.

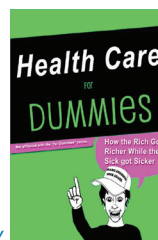

Step Two: activate 5G. 5G was deemed an *essential lockdown activity*. Why? Research indicates WiFi affects blood (see next page) oxygenation. This will set the stage for an explosion of fake statistics as 5G is turned on and will lead to panic and a call for mandatory vaccinations.

Big pharma is getting way with murder and we are asking for more.

Facebook's behavior control (on pg 5), is a link in a chain. 5G will broadcast frequencies of control to the nano-tech in each of us.

This has been going on for more than 100 years. In 1941 an MD by the name of Emanuel Josephson wrote a book called: **Your Life Is Their Toy: Merchants of Medicine**. You can read it online [HERE](#):

The fact that the ID 2020 plan is underway is incontestable.

Conspiracy Fact #9:

5G, AI and the Internet of Bodies

Confirmed virus deaths follow 5G installations.
See documentation [HERE](#).

Do you see where this is going? The endgame is total control of every human on the planet like Genghis Khan, Alexander, or Adolf Hitler would have wanted.

The plan for minimal force relies on our *compliance*. Masks and distancing are becoming the new normal largely because the media allows no contrary views.

Just like in Hitler's Germany manufactured incidents lead to contrived news that guide people to act out of fear. People are policing neighbors and strangers. Some say you should be shot for not wearing a mask.

The government and media lies are at a fevered pitch. Any who resist are shamed. No debate is allowed even though a discussion of a grand conspiracy is vital.

Conspiracy Fact #10:

The Buddha, Wetiko, Physics & Jerry Marzinsky

If you believe the Buddha was describing reality when he told his story of awakening you will see what may be a key element in our current situation.

On his journey to enlightenment Siddhartha encountered extra dimensional beings (EDBs) who tried many times to instill fear in him and tempt him with desire.

The writings of shamans and the lore of traditional cultures are filled with such accounts.

Jerry Marzinsky is a licensed mental health counselor who has spent 35 years in the mental health field in Georgia and Arizona. What he has found matches what the Buddha and shamans have described.

Mr. Marzinsky found that “crazy people” who hear voices are not actually crazy, they are really hearing voices — from EDBs.

Jerry found that the voices were actually entities and they feed on the negative emotions of humans, which is why they try and stir up so much angst.

A study by Nathan Brooks, a forensic psychologist, will help connect the dots. He found 21% of CEOs to be psychopaths; the same percent as prison inmates.

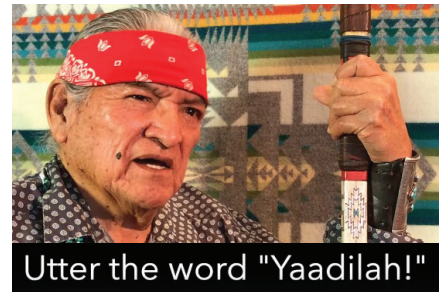

Jerry works with prison and psych ward inmates. Psychopathic behavior in the public is one in a 100. People at the top of society (executives) and bottom (inmates) seem to be either the most targeted for this effect, the most vulnerable, or both.

His findings may be significant because eventually he was able to help people fend off the

entities, who apparently have trouble with uplifting thoughts. Psalm 23 is their Achilles heel.

Jerry’s findings and the Buddha’s story parallel a Navajo tradition Wally Brown says helped his people for centuries. Uttering the word “Yaadilah” allows Navajo people to ward off evil in order to make wise decisions.

*How does all this make sense?
It goes way past mere greed!*

<https://www.facebook.com/navajotraditionalteachings/videos/a-native-american-word-to-ward-off-evil/2757421417629654/>

The word has cultural specificity. The intention of fending off evil spirits (EDBs) is worldwide.

Science says our senses connect with a very small portion of reality. We are essentially blind to 99% of the universe. To conclude that other life forms don’t exist because we can’t see them is not based in fact. There is considerable evidence to support the notion we are not alone. The question then becomes: who is out there, and what do they want?

Watch the interview.

Come to your own conclusions about Jerry Marzinsky’s story.

<https://www.youtube.com/watch?v=6MVdffOh8ZA>

The fact that The Buddha said he was describing aspects of actual reality is incontestable.

The Buddha's Winning Formula

The Buddha met fear, intimidation, and temptation with love, courage, acceptance, and a hunger for truth. If we are facing a similar challenge then we have the winning game plan in front of us: simply choose to say no to the former, yes to the latter.

This is not a shooting war; it is a battle of heart, mind, and spirit. A psy-op (psychological operation) is where the enemy tries to get you to make bad choices. Fear, anger, and division cripple us. Love, clarity, unity and a penchant for "Yaadilah" is our strength.

Fungal infections like Candida cause reactions in host organisms on a subconscious level. Candida is a parasite that feeds on sugar. It creates cravings for sweet foods in people and is destructive to the host. If the entities described on the previous page are energetic parasites that feed on fear and negative thoughts they are having a field day now and have probably instigated this situation. This could take the shape of the Wetiko or Ocular Block described below. Please draw conclusions with your science hat on.

Ocular Block (Psychology)

To the degree we are not present, alive and engaged with what is in front of us, we will replace actual reality with a projection of our traumas, belief systems and programmed messages we've received. One of the hallmarks of this is a knee-jerk reaction that a particular notion is true or false on a black and white basis. This takes place without an open thought process taking into account gray areas. Conspiracy theories are bad, vaccines are good are two common knee-jerk reactions. The facts of this document say otherwise. Are you present enough to question these ideas, to see both sides and the gray area in the middle?

Wetiko (Native American)

Ocular blockage has been known in traditional societies throughout recorded time. As David Icke told Brian Rose Wetiko is a mind blindness emanating from the subconscious. It takes over people's minds and convinces them that they are seeing the world clearly even though they are projecting a false reality through their minds and believing the lies to be real.

Mr. Icke calls it a mind virus. He likens it to a computer that has been taken over by a virus and does not function properly. Possession is another term that applies. One outcome is when people parrot a narrative without applying critical thinking.

Wetiko is like mass hypnosis.

The cure is acknowledging that it exists, and that you have been subject to it. Once you see truth you cannot go back to lies. The remedy can take hold quickly; under two weeks if done right.

Psalm 23: King James Version

A Psalm of David. The LORD is my shepherd; I shall not want.

He maketh me to lie down in green pastures: he leadeth me beside the still waters.
He restoreth my soul: he leadeth me in the paths of righteousness for his name's sake.

Yea, though I walk through the valley of the shadow of death, I will fear no evil:
for thou art with me; thy rod and thy staff they comfort me.

Thou preparest a table before me in the presence of mine enemies: thou anointest my head with oil; my cup runneth over.
Surely goodness and mercy shall follow me all the days of my life: and I will dwell in the house of the LORD for ever.

SUMMARY

- Antitrust laws prove conspiracies are a significant aspect of big business yet the notion persists “conspiracy theories” can’t be.
- Multiple whistleblowers haven’t stopped the lawless NSA surveillance of Americans and people all over the world.
- The spying tactics of big business are now at industrial strength and are shielded from view by “engineered ignorance.”
- Your world view has been subjected to a mass hypnosis campaign probably as the result of energetic parasites. This hypothesis fits our quantum world and an avalanche of evidence from traditional societies, the world’s great spiritual traditions and ancient texts. You are being challenged to do your own research into this valid line of reasoning. Our government lies, big business and media lies. Seek your own truth.
- Toxins in food are accepted as “conventional” by a farce of logic Congress approved. This shows our government is bought-off.
- The FDA is a “captured” agency by facilitating vaccines coming to market with metals like mercury and aluminum that fuel a \$500 billion drug industry.
- Lawlessness extends to financial markets. An estimated \$90 Trillion has been stolen from US Treasury.
- The media is beyond complicit, it’s the vanguard of our collective deception and mass hypnosis.
- 5G is a weapon pointed at us with virus deaths following a pattern of installations, 5G symptoms look like Covid-19, this makes statistics easy to distort.
- More poisons in vaccines and a new element: nanotechnology with the goal of higher levels of behavior control through AI.

If you skimmed your way to the summary *Plandemic* (below) will give you an overview of the warped world view we are living in. Here are a few highlights:

- GMO mosquitoes were approved in April 2020 for release & testing. The goal is to carry vaccines.
- In 2003 the CDC patented the Corona virus and all testing for it, a move that’s reaped huge profits.

CONCLUSIONS

On page two of this document you were challenged to spend two weeks with this pamphlet, and its supporting material, to offset a lifetime of lies.

*Two weeks of truth will win you over from a system rigged to rob you or truth. The movie *Dark Waters* is one example.*

“We think the system protects us, but it doesn’t, we have to protect ourselves.”

Robert Bilot from *Dark Waters*

In this real life story Robert Bilot, a lawyer who sues DuPont for polluting every drop of water and all life on planet earth with “C8” from Teflon, comes away with a \$671 million judgment.

If that seems like a lot compare it with the fact that DuPont was making a billion a year in profits for 40 years. The penalty was 2% of profits. Nobody went to jail. Many were **knowingly** maimed and murdered.

Do you see the world view warp? Murder is a capital crime. Mass murder is a Nuremberg event. \$671 million is a speeding ticket.

Drugs Vioxx, Thalidomide & Bextra have similar profiles. Pesticides like paraquat, glyphosate, neonics and DDT were all said to be safe. Add untested GMOs & 5G to the list.

Lies about food, drugs, money, surveillance and a supposedly free media tell a story. Connect the dots and you find a monolithic and ruthless conspiracy.

5G, vaccinations and AI are mass casualty events that are coming. **This is known!** Break out of your hypnosis and change your world view before its too late!

We Have a Plan

Gather a critical mass of people who see beyond the lies that the system is here to help us. It is here to keep you from seeing the power you have within. Seeing this will engage the 100th Monkey Effect.

The central problem of our time is a form of mass hypnosis that paints a world view at odds with the fact that you have enormous power to create the world you live in. Suspend belief in everything except the idea that all you need is inside you — and that you have compatriots walking the same path.

When the number of monkeys who knew how to get food out of a jar reached a certain level all of a sudden all monkeys everywhere could do it. This is the power of connection that has been kept from us for good reason: we have the power to choose.

“Distancing” puts our relationships under attack and undermines our ability to operate in a war of information. The reason for this assault is that our relationships are their Achilles heel. When you sincerely ask a friend to read this document and talk afterwards, the truth will eventually go viral. When this happens in sufficient numbers the insanity we’ve been experiencing will end quickly. We will then need to clean up the mess we’ve allowed to take place. Below are six steps to keep in mind.

1 Find your Truth

If you go back to traditional news outlets too soon any realizations gained here may get fuzzy. Give yourself the gift of a deep dive into this material for at least two weeks.

4 Engage Your Community
Once you are confident in your ability to speak truth go beyond friends and family to engage your community on a wider basis in ways that work for you. Experimentation is key.

2 Stay Relational

We are social creatures and are susceptible to the divide and conquer tactics of “distancing.” Do not allow labels like liberal or conservative, or love or hate of Trump to divide you from people.

5 Speak Truth to Power
Speak with your local Sheriff, Mayor, County Supervisors, District Attorney and business leaders to see where they stand. Bring friends along to show you are not alone. Numbers count.

3 Speak Your Truth

As you become more confident slowly work your new world view into conversations with friends. When the time is right use this document for a deeper chat. We’re in an information war.

6 Use an NoL As Needed
Imagine 10, 100, 1,000 people engaging local officials. This booklet was made for this. If they don’t see the light with the “carrot” you have a stick: the Notice of Liability (see next page).

Please note: This edition is for beginners. Next up: the 1% plan for “full spectrum dominance” of the human race, how mass hypnosis works and a section on ETs — for a preview see the talk by Erich Von Daniken [HERE](#) or watch the series “Ancient Aliens.”

About the Author

I'm a left-wing tree hugging liberal and a right-wing gun toting

conservative who knows that "divide and conquer" is the go-to strategy for the elites. My weapon against this is **words** because they are mightier than the sword.

When people ask how I can be both right and left wing at the same time I say: "if you want to fly past problems you need two wings."

I do my best to treat people, and all living creatures, with the respect they deserve even though they may have different ideas than me. I have often made mistakes in this regard.

I run two communications firms; seek to embody and speak truth; and am one of the latest bloomers I know. Some think of me as a rebel, others an annoying individual, and some people like and love me.

The latest findings of quantum physics, the wisdom of traditional societies, and the great spiritual traditions of the world all say the same thing: we are connected; we share a bond; *we are individuals and yet we are one with all that is*. Realizing this is our great awakening.

To do this it is helpful to remove the veil that has been covering your eyes. When this happens you will never go back to believing lies.

A Course in Trusting Inner Wisdom

This class is not overtly political, yet thinking for one's self is one of the most radical acts imaginable.

The benefits of this class can be likened to programs resident on a computer vs. having internet access. If you have program suites like Microsoft or Adobe on your computer you have a powerhouse. Most people barely use 20% of the capability of these programs.

These programs are like your logical and reasoning mind; it's powerful but compared to being connected to the internet it can only scratch the surface of what is possible.

The power of your inner wisdom emerges when you learn how to connect to what physicists call the *Zero Point Field*. All of a sudden you're receiving information you never had access to and a new world opens up. \$20 buys a lot! Check out this intro class [HERE](#).
