

CYBERSECURITY FORUM

SAFER. SMARTER. TOGETHER.

THE RANSOMWARE ROLLER COASTER: ARE YOU READY TO RIDE?

EVENT AGENDA

10:00 A.M. WELCOME & INTRODUCTIONS

Meet your peers and our team of experts as we introduce the risk-based topics that are facing the financial industry today.

INTERACTIVE SESSION, PHASE 1 - OFF THE RAILS

In this four-phase, highly interactive session, we're going to simulate a cyber incident at a fictitious financial institution (FI). You'll be assigned a role on a team charged with responding to and resolving the incident.

YOU MUST BE THIS TALL TO RIDE - GRC

This session will take you into the inner workings of a governance, risk, and compliance framework, and how it provides the key ingredients of proper response and recovery plans for your information security program.

INTERACTIVE SESSION, PHASE 2 - MANAGING THE DERAILMENT

12:15 P.M. LUNCH

KILL THE THRILL OF MFA

Our business partner, Rebyc Security, will provide a live demonstration of how attackers can bypass multi-factor authentication (MFA) to access your FI's sensitive information.

INTERACTIVE SESSION, PHASE 3 - REBUILDING THE TRACK

YOU MUST BE THIS TALL TO RIDE - CRYPTO CURRENCY

What is crypto currency and why do cyber criminals rely on crypto to get paid? If you paid the ransom, how do the perpetrators move the money? Is there an opportunity to track it and recover it? This session will give you the critical education to know what to do next.

INTERACTIVE SESSION, PHASE 4 - BACK ON TRACK

YOU MUST BE THIS TALL TO RIDE - SOLUTIONS

This session will explore technology solutions to prevent, detect, and alert when a breach happens.

SESSION WRAP-UP AND QUESTIONS
