

GLOBAL CITIZENSHIP

High Net Worth Immigration helps clients plan for a brighter, more secure, more flexible future via citizenship by investment

In uncertain times, it is natural to reassess your options and make sure that you and your family have a Plan B – or even Plan C. Increasingly, high net worth individuals are realising the benefits of having a second passport through citizenship by investment.

High Net Worth Immigration assists wealthy individuals and their families with securing permanent residency and citizenship around the world through a variety of investment programs. Founder and CEO Vicky Katsarova is an expert in citizenship by investment and has promoted

economic programs in 15 countries for more than 10 years.

A dual citizenship is not a luxury, but a necessity. When it comes to ensuring your family's safety and quality of life, safeguarding your assets, and gaining access to world-class healthcare, the best educational opportunities, tax benefits, greater banking privacy and visa-free travel, an alternate passport is an invaluable investment for the future.

High Net Worth Immigration specialises in investment programs in Europe (UK, Ireland, Bulgaria, Greece, and Cyprus), North America (US and

Canada), and the Caribbean (St Kitts & Nevis, St Lucia, Grenada, Antigua & Barbuda, Dominica, and Belize).

Having a second passport can provide a safe haven in troubled times, especially when they affect your home country. This include conflicts, political unrest, or natural disasters.

A second passport can also open up your opportunities for business and for visa-free travel. There are also potential tax benefits, access to better healthcare and education, and the opportunity to enjoy another culture while contributing to society.

UNITED KINGDOM AND IRELAND

As one of the top global economies and most influential finance and commerce centres, the UK is a highly desirable destination for high-net-worth investors when it comes to business and lifestyle opportunities.

The UK is known for having a stable democratic government and a respected legal system, as well as some of the best educational institutions in the world. The UK has an attractive tax regime that offers wealthy individuals and their families special tax allowances exclusively available to those not domiciled in the UK.

The UK's Tier 1 immigration programs have been created to attract investors, entrepreneurs, and other highlytalented individuals that will drive business and prosperity in the UK.

In order to qualify, within three months of entry into the UK the applicant is required to invest a minimum of £2 million that must be maintained until permanent residence is granted. After

ALTERNATIVE INVESTMENTS

If you are looking for a solid investment opportunity with low risk and high returns then a tailored investment design from High Net Worth Immigration could be the perfect fit.

Global Index-based investment designs are constructed from deep research of a country's economic fundamentals. Each design is created with pre-set conditions in terms of returns, time frame, high levels of protection to capital and built-in early maturity dates. These designs contain buffers of protection to average a return of 8-12% per year, without taking the typical or equivalent level of risk.

five years of continuous lawful residence, the main applicant and family members may apply to be granted settlement – Indefinite Leave to Remain (ILR) in the UK.

An applicant who increases their qualifying investment to £5 million may apply for settlement after three years, while £10 million provides an accelerated route to settlement in just two years.

High Net Worth Immigration's bespoke investment immigration solution provides all the assistance you may need to ensure your transition to the UK is seamless. Their London-based lawyer will help ensure a successful application.

Your corporate bond investment has a 100% capital guarantee which protects your investment and pays you a potential return on your capital of 6-8%. High Net Worth Immigration do not charge management or discretionary fees on your investment.

You will receive exclusive access to off-market properties and real estate deals in the UK to help you find the perfect residence. High Net Worth Immigration can introduce you to the best education consultants and tax planners to provide you with the best options for your unique needs.

The Ireland Investor Visa Program is becoming increasingly popular. The Common Travel Area (CTA) agreement for Irish citizens provides

an advantageous channel for joint Irish/UK residency. Plus, the Ireland residency program is less than half the cost of the UK Tier 1 Investor Program.

The Ireland Investor Visa offers high net worth investors and their families four different investment pathways to secure a Stamp 4 residency visa. One of the most secure options is The Irish Diaspora Loan Fund (IDLF), which requires an investment of €1 million and is authorised by the Central Bank of Ireland.

After five years of residence, investors can apply for citizenship. And once they become an Irish citizen, they're then eligible for permanent residency in both Ireland and the UK due to the CTA agreement.

The company's index designs work well with the current economic situation whether you are a private investor, a pension fund or a family office.

High Net Worth Immigration can also assist with arranging liquidity and cash loans for HNW individuals based on their stock portfolio holdings. You can borrow against your portfolio without any recourse, personal financials or guarantees. The only collateral are the stocks themselves. This is a great way for a HNW individual to free-up cash quickly and at a low interest rate.

International stock loans and share loans are offered for global clients in North America, Asia, Europe Share Financing, Middle East, Central America, South America and Africa.
