California	Val		Mid-December	These initial doses will be provided to healthcare workers and long-term care residents in accordance with the Allocation Framework for Phase 1A. State divided into 7 regions for distribution - each allocated some doses.	https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/COVID-19-Vaccine-Regional-Distribution-First-Shipment.aspx
Colorado	Nicole		1/6/2021	<p>In Phase 1A: People with direct contact with COVID-19 patients for 15 minutes or more over a 24-hour period. Long Term care facility staff and residents. Administered 33, 934 so far.</p> <p>Phase 1A: Highest-risk health care workers and individuals</p> <p>People who have direct contact with COVID-19 patients for 15 minutes or more over a 24-hour period.</p> <p>• Long-term care facility staff and residents.</p>	<p>https://covid19.colorado.gov/vaccine</p> <p>colorado - Vaccination Phases timeline for web.pdf</p>
Connecticut	Becca		1/4/2021	<ul style="list-style-type: none"> • Still in phase 1a vaccinating. Healthcare personal with direct or indirect exposure, long term care residents, and first responders at risk of exposure (firefighters, police, EMTs), no decisions about prioritizing individuals beyond 1a yet. o Should fill out survey here (one rep) from each organization that employs populations eligible to receive vaccines in early access 	https://portal.ct.gov/Coronavirus/COVID-19-Vaccinations-4-employers
Delaware	Diane		Mid-December	<p>Phase 1a: Health care personnel, emergency medical services agencies, and long-term care staff and residents will receive the vaccine first.</p> <p>Remainder of Phase 1: In early 2021, those who work in high-risk and critical infrastructure industries such as food processing, utilities, education, police and fire, those who work and live in congregate settings such as correctional facilities and homeless shelters, those with certain underlying health conditions and those who are aged 65 and older are likely to receive the vaccine.</p> <p>Phase 2: (March 2021) Those with more moderate risk for getting COVID-19 are eligible for receiving the vaccine. More details about specific groups in this phase will be provided as we get closer.</p> <p>Phase 3: (Spring/Summer 2021) The general public can expect to receive vaccines through their primary health care providers, health centers and pharmacies as the vaccine becomes more widely available.</p>	https://news.delaware.gov/2020/12/19/dph-announces-plans-to-distribute-moderna-vaccine/
District of Columbia	Nicole			<p>For the initial wave of vaccines, D.C. will receive 6,825 doses, according to D.C. Health Director Dr. LaQuandra Nesbitt. Seven boxes that carry 975 shots each – will be sent to six sites "that have the necessary equipment to store the Pfizer vaccine," most located in Northwest D.C.</p> <ul style="list-style-type: none"> • MedStar Washington Hospital Center • Howard University Hospital • The George Washington University Hospital • Children's National Hospital • Kaiser Permanente • MedStar Georgetown University Hospital <p>6,825 doses cover less than 10% of front line healthcare workers. In phase 1 A: Phase 1A primarily being health care workers and first responders; Phase 1B being essential workers and at-risk residents; Phase 2, the rest of the Phase 1 populations and the general public, and then Phase 3, "which is the general public."</p>	https://wtop.com/coronavirus/2020/12/how-the-pfizer-vaccine-will-be-distributed-in-the-dc-area/
Florida	Ruth		12/14/2020	<p>(12/14) Distributed to hospitals and healthcare workers. Received first Pfizer vaccinations in LTC facilities</p> <p>• (12/16) Florida is preparing to receive 367,000 doses of the Moderna vaccine next week, pending Emergency Use Authorization by the U.S. Food and Drug Administration (FDA). Doses of the Moderna vaccine will be distributed to 173 hospital locations that did not receive doses in the first allocation of the Pfizer COVID-19 vaccine. These hospital locations span 43 counties. Find the full list HERE.</p> <p>• (12/14) The CDC has launched a smartphone based tool that uses text messaging and web surveys to provide personalized health check-ins after you receive a COVID-19 vaccination. Learn more about V-safe here.</p> <p>Phase 1: Health care personnel b. Essential workers c. Persons with medical conditions that place them at high-risk for COVID-19 complications. d. Older adults (65 years of age)</p> <p>Phase 1b: pediatricians, primary care providers, CHDs will open Public Mass Vaccination Clinics.</p> <p>Phase 1b: Through mass vaccination clinics</p>	<p>https://floridhealthcovid19.gov/covid-19-vaccines-in-florida/</p> <p>https://www11.doh.state.fl.us/covid19/partners/covid19_report_archive/vaccination-plan/vaccination_plan_1216.pdf</p>
Georgia	Justin		Mid-December	<p>Phase 1-A will include paid and unpaid persons serving in a healthcare setting who have the potential for direct or indirect exposure to patients or infectious materials. Hospital staff, public health clinical staff, EMS, and other first responders, long term care facility (LTCF) staff, and urgent care facility staff are examples of people who will be included in this phase. Additional examples include: Staff in clinical settings (e.g., physicians, nurses, pharmacists, EMS, laboratory staff, environmental services, LTCF staff etc.) LTCF Residents</p> <p>Phase 1-B will include other essential workers and people at higher risk of severe COVID-19 illness. Police and fire personnel not covered under Phase 1-A. Critical workforce employees (e.g., pharmacy staff, educational facility and staff, correctional facility staff, court employees, food processors, grocery store workers, transportation staff, nuclear power plant employees, air traffic controllers, etc.) All adults 75 and older and those 65 and older with significant comorbidities and their caregivers</p> <p>Phase 1-C will include people at higher risk of severe COVID-19 illness, not vaccinated during Phase 1-A or Phase 1-B. Other essential workers. Adults below age 65 with significant comorbidities</p> <p>Providers Can Register for Vaccine at a Local Public Health Department</p> <p>GA Providers and Healthcare Professionals</p>	<p>https://dph.georgia.gov/covid-vaccine</p> <p>https://dph.georgia.gov/document/document/georgia-covid-19-vaccine-plan/download</p> <p>https://dph.georgia.gov/provider-vaccine-registration-08-2020-by</p> <p>https://dph.georgia.gov/covid-vaccine-information-providers</p>
Illinois	Berenice		12/14/2020	<p>Phase 1a: Healthcare Personnel and LTC residents</p> <p>Phase 1b: Essential frontline workers</p> <p>Phase 1c: adults with high-risk medical conditions or 65+ yrs</p> <p>o Phase 2: workers with occupations impart to function in society</p> <p>o Phase 3: Young adults (18-30) and children</p> <p>o Phase: Available for the entire population</p>	http://www.dph.illinois.gov/covid19/vaccination-plan
Indiana	Nicole			<p>Only those who received a link directly from their employers or the Indiana Department of Health can register for vaccination at this time – that includes frontline healthcare staff associated with a hospital, long-term care staff, emergency medical services providers, specified local health department staff, and dialysis center staff who have physical or close contact with patients or infectious material.</p> <p>If you answer yes to any of these questions, you are among the first group of healthcare workers who will be eligible to receive the COVID-19 vaccine. Please make sure that your email address is current with the Indiana Professional Licensing Agency so that you will receive updates when registration is open.</p> <ul style="list-style-type: none"> • Do you work or volunteer in healthcare and have (physical or close) contact or face to face interactions with patients? Examples include: <ul style="list-style-type: none"> • inpatient, outpatient, provider office setting, nursing homes, residential care facilities, assisted living facilities, in-home services • This includes all clinical and non-clinical positions: clinicians, dietary, environmental services, administrators who have direct contact with patients, clergy who see patients in the healthcare setting, non-clinicians who assist in procedures, transportation staff, etc. • This also includes local health department staff who interact with patients at test sites, health clinics or provide direct patient care • Do you have exposure to COVID-19-infectious material? (Examples include cleaning of rooms or material from COVID-19 patients, performing COVID-19 testing, other exposure to infected tissue, performing autopsies or other post-mortem examinations of COVID-19 patients). <p>The timeline for additional phases of vaccine administration is yet to be determined.</p>	https://www.coronavirus.in.gov/vaccine/index.htm
Iowa	Val G.		12/13/2020	The Advisory Committee on Immunization Practices (ACIP) announced their recommendations for the initial phase of the COVID-19 vaccination program (Phase 1a) vaccination should be offered to both: 1) Health care personnel (HCP) and, 2) Residents of long-term care facilities (LTC)	Iowa Vaccine Brief Vaccine Dec3 2020 Fin 11.pdf
			1/6/2021	IDPH is working through the distribution details with the revised vaccine allocation from CDC. Vaccine distribution will continue to follow the Advisory Council on Immunization Practices (ACIP) recommendations that health care personnel and long-term care (including assisted living) residents and staff remain the first priority for vaccination. Despite these revisions, IDPH is committed to initiating the national pharmacy program for long-term care facilities the week of December 28 as planned, though the original timeline for completion will be impacted. The Infectious Disease Advisory Council (IDAC), will convene within the next 48 hours to discuss how changes in allocation numbers will affect the prioritization of and timeline for healthcare personnel receiving the vaccine.	
				Expected Approximate Vaccine Allocation, for Planning Purposes Only. These numbers are subject to change:	
				Allocation Date Pfizer Moderna Total	
				12/13/20 26,000 0 26,000	
				12/20/20 19,500 53,800 73,300	
				12/27/20 19,500 15,500 35,000	
				Total 65,000 73,300 138,300	
Kansas	Becca				
Kentucky	Sheri				
Louisiana	Diane		12/13/2020	<p>Phase 1a: Hospital staff with direct exposure risk, congregate care settings residents & staff</p> <p>Phase 1b: Hospital personnel with potential for direct exposure; congregate care setting personnel; EMS personnel; ESRD personnel, urgent care personnel; outpatient facility personnel, non-public primary care; firefighters, first responders, inpatient behavioral health, congregate care facility residents, home care personnel, other outpatient health care personnel; law enforcement, pharmacists, food processors, 65 years + with comorbidities.</p> <p>Phase 2: K-12 School and daycare personnel; grocers and food distributors; adults 18-64 with comorbidities, + + +</p> <p>Phase 3: General public.</p>	<p>https://dhs.la.gov/assets/cshh/Center-PH/CU/Center-PH/immunizations/COVID-19VaccinePaBook.pdf</p> <p>https://dhs.la.gov/newsroom/fac/categories/138</p>
Maine	Diane		12/15/2020	Phase 1 will thus be divided into two sub-phases: 1a) and 1b). Phase 1a) will likely be healthcare workers providing direct patient care in high risk settings and others who work in critical infrastructure as well as those working and living in long-term care facilities. Vaccination plan is still in draft - no new information	https://www.maine.gov/dhs/mecdc/infectious-disease/immunization/documents/covid-19-vaccination-plan-maine-interim-draft.pdf
Maryland	Diane		Mid-December	<p>Phase 1A: Health care workers; Residents and staff of long-term care facilities; First responders*</p> <p>Phase 1B: People at significantly higher risk of severe COVID-19 illness</p>	https://covidlink.maryland.gov/content/vaccine/

			<p>Phase 2: People in critical, essential infrastructure roles, People at moderately higher risk of severe COVID-19 illness</p> <p>Phase 3: General population</p>	
Massachusetts	Berenice		<p>Phase 1: Dec 2020-Feb 2021: Healthcare workers with direct patient contact, LTC, Medical and Police Services, Congregate care settings, Home base healthcare workers</p> <p>Phase 2: Feb-April 2021: high-risk patients (min 2 comorbidities), early education (grades K-12), Adults 65+ yrs</p> <p>Phase 3: General public</p>	https://www.mass.gov/covid-19-vaccine-in-massachusetts
Michigan	Berenice			
Minnesota	Berenice		<p>No phases or dates for administration</p> <p>1st dose will be available for healthcare workers in a medical setting and LTC care facilities, followed by first responders, essential workers, adults with high-risk medical conditions, and older adults.</p>	https://www.health.state.mn.us/diseases/coronavirus/vaccine.html
Mississippi	Jason		All providers must sign the CDC Enrollment agreement	https://msdh.ms.gov/msdhsite/_state/14,0,71,975.html#enrollment
Missouri	Jason			
Montana	Jason			
Nebraska	Sarah		<p>Long-term Care Staff and residents are included in Phase 1A Tier II (Week 2 and 3 of Moderna and week 3 of Pfizer); all other therapists included in Phase 1A Tier IV (dates TBD - see attached outline)</p>	Nebraska - COVID-19 Vaccine Phase-1A Allocation Recommendations Nebraska.pdf
New Hampshire	Ruth		<p>Currently only has Phase 1. Additional phases will be added as future vaccine allocation is determined.</p> <p>Phase Ia: High At-risk health workers, first responders, residents of long-term care facilities and first responders.</p> <p>Phase Ib: Those with comorbid and underlying conditions that put them at risk, older adults living in congregate settings.</p> <p>Phase II: teachers, school staff, childcare workers, critical workers high risk situations, people with comorbid conditions, homeless shelters, prisons, other adults not already mentioned.</p> <p>Phase III: Homeless adults, children, workers at increased risk for exposure.</p> <p>Phase IV: anyone else residing in US</p>	https://www.dhhs.nh.gov/dhhs/cdcs/covid19/documents/phase-1a-technical-assistance.pdf https://www.dhhs.nh.gov/dhhs/cdcs/covid19/documents/covid19-vac-plan-draft.pdf
New Jersey	Sarah		<p>Phase 1: Healthcare workers who may have contact with infected patients or infectious materials; Other essential workers; People at higher risk of severe COVID-19 illness (over age 65, underlying health conditions, etc.)</p> <p>Phase 2: Remainder of those from Phase 1: Critical populations: General population</p> <p>Phase 3: Remainder of those from Phase 2: Critical populations: General population</p>	New Jersey - vaccine plans.pdf
New Mexico	Sarah	First doses have been received (small amount)	<p>Phase 1a ("kick-start") will focus on personnel of key "vaccinator" entities throughout the state, including hospitals. Phase 1b (expanded but still very limited supplies) will expand to first responders, EMS and other healthcare providers and staff and service providers who have direct contact with people with COVID-19 or work in congregate care settings (such as long-term care facilities) where the risk of spread to vulnerable populations is high. During Phase 1a, vaccine will also be provided to residents of long-term care facilities. Later Phase 1 will include residents of other congregate care facilities and other healthcare workers. As we transition from Phase 1 to Phase 2, when supply significantly increases, DOH anticipates offering vaccine to other older patients, those with underlying conditions, and multiple groups of vulnerable populations and essential workers; more expansive vaccine clinics may be used to include multiple groups of vulnerable populations and essential workers, especially in smaller communities.</p>	New Mexico Executive Summary Jurisdictional COVID-19 Vaccination Plan 10-26-20.pdf
New York	Diane	Mid-December	<p>Phase 1: The first New Yorkers to receive the vaccine as part of Phase 1 will be high-risk hospital workers (emergency room workers, ICU staff and Pulmonary department staff), nursing home residents, nursing home staff, followed by all long-term and congregate care residents and staff, EMS workers, other health care workers, coroners and medical examiners.</p>	https://covid19vaccine.health.ny.gov/phased-distribution-vaccine
North Carolina	Justin		<p>Phase 1a: Health care workers at high risk for exposure to COVID-19—doctors, nurses, and all who interact and care for patients with COVID-19, including those who clean areas used by patients, and those giving vaccines to these workers. Long-Term Care staff and residents—people in skilled nursing facilities and in adult, family and group homes.</p> <p>Phase 1b: Adults with two or more chronic conditions that put them at risk of severe illness as defined by the CDC, including conditions like cancer, COPD, serious heart conditions, sickle cell disease and Type 2 diabetes, among others. Adults at high risk of exposure including essential frontline workers (police, food processing, teachers, child care), health care workers, and those living in prisons, homeless shelters, migrant and fishery housing with 2+ chronic conditions. Those working in prisons, jails and homeless shelters (no chronic conditions requirement).</p> <p>Phase 2: Essential frontline workers, health care workers, and those living in prisons, homeless shelters or migrant and fishery housing. Adults 65+. Adults under 65 with one chronic condition that puts them at risk of severe illness as defined by the CDC.</p> <p>Phase 3: College and university students. K-12 students when there is an approved vaccine for children. Those employed in jobs that are critical to society and at lower risk of exposure.</p> <p>Phase 4: Everyone who wants a safe and effective COVID-19 vaccination.</p>	
		12/29/2020	<p>On December 22, 2020 an independent advisory committee to the federal government shared new recommendations on who to vaccinate next as supplies increase. North Carolina is reviewing the recommendations from the Centers for Disease Control and Prevention (CDC)'s Advisory Committee on Immunization Practices (ACIP) and is updating its vaccination rollout plan.</p> <p>North Carolina is currently vaccinating health care workers caring for patients with COVID-19 and long-term care residents and staff.</p>	
		1/6/2021	<p>NC is currently providing vaccinations to individuals in Phase 1a: Health care workers fighting COVID-19 & Long-Term Care staff and residents. Starting this week, some providers will also begin vaccinating individuals in Phase 1b, Group 1: individuals who are 75 years of age and older.</p>	
Ohio	Sheri			
Oklahoma	Val G.	1/6/2021	<p>OSDH announced the launch of an online COVID-19 Vaccine Scheduler Portal on Thursday, January 7, to notify Oklahomans when they're eligible to receive the vaccine and provide more information on how to schedule an appointment.</p> <p>pre-registration is open for all Oklahomans to enter their personal information to determine their eligibility to receive the vaccine within Oklahoma's priority phases plan and receive notifications when the vaccine is available to them.</p> <p>Remember, beginning Jan. 7 only Oklahomans who are 65+, healthcare workers and/or first responders will be able to schedule appointments. As our state advances in our phased approach to vaccine distribution, the system will notify and allow individuals in additional priority groups and phases the opportunity to schedule their appointment.</p> <p>If you're not currently eligible to receive the vaccine or if there are no appointments available in your area based on vaccine supply, registering in advance will ensure you are notified by email when your appointment is available.</p> <p>Oklahomans can begin the pre-registration process today.</p>	https://vaccinate.oklahoma.gov/ https://vaccinate.oklahoma.gov/
Oregon	Val G.			
Pennsylvania	Val G.		<p>Phase 1: There may be limited supply of COVID-19 vaccine doses available in the first phase. Initial efforts will focus on reaching the following populations: Healthcare personnel; Emergency Medical Services first responders, and Residents and staff of congregate care settings</p> <p>The first populations to be offered the COVID-19 vaccine in the initial phase of the vaccination program will be health care workers, skilled nursing facilities residents and staff and other eligible facilities. These eligible facilities include assisted living, Continuing Care Retirement Communities, personal care homes, residential care, adult family home, adult foster home, Intellectual and Developmental Disability, Housing and Urban Development Section 202 and Veteran's homes.</p> <p>Phase 2: We anticipate a large number of vaccine doses available. Efforts will focus on ensuring access to vaccine for:</p> <p>Phase 1 critical populations who were not yet vaccinated; and</p> <p>General population.</p> <p>Phase 3: In this phase, there should be a sufficient supply of vaccine doses for entire population. Efforts will focus on ensuring the entire population will have access to the vaccine.</p>	https://www.health.pa.gov/topics/diseases/coronavirus/Pages/Vaccine.aspx https://www.health.pa.gov/topics/documents/diseases/20and%20and%20conditions/COVID-19%20vaccine_Provider%20Locations%20Week%201-4.xlsx https://www.health.pa.gov/topics/documents/diseases/20and%20and%20conditions/Week%202%20PPH%20spreadsheet.xlsx
Rhode Island	Ruth		<p>The Rhode Island Department of Health (RIDOH) is planning for the distribution of a safe and effective COVID-19 vaccine when it becomes available.</p> <p>Phase note: Final decisions have not yet been made about who can get vaccinated in each phase of Rhode Island's COVID-19 vaccination program. RIDOH will share information on this page when those decisions are made. We will also describe how different groups can get vaccinated.</p>	https://covid.rj.gov/vaccination
South Carolina	Justin		<p>Phase 1 - Potentially limited supply of COVID-19 vaccine doses is available. Efforts will focus on rapidly reaching targeted populations (e.g., healthcare personnel, people at high risk, and critical infrastructure workers), high throughput, and stringent storage and handling requirements for the vaccine. Inventory, distribution, and any vaccine repositioning will be closely monitored through reporting to ensure end-to-end viability of vaccine doses.</p> <p>Phase 2 - A large number of vaccine doses is available. The focus is on ensuring access to vaccines for Phase 1, equitable distribution to targeted groups who were not yet vaccinated and expanding efforts to the general population, utilizing an expanded provider network.</p> <p>Phase 3 - Sufficient supply of vaccine doses for the entire population and a surplus of doses are available. Efforts will focus on ensuring equitable vaccination access in the whole population, monitoring vaccine uptake and coverage, and reassessing strategy to increase population uptake in communities with low coverage.</p>	https://scthec.gov/sites/default/files/media/documents/COVID-19%20vaccine%20Plan%20updated%2012%2020_0.pdf https://scthec.gov/covid19/covid-19-vaccine
