Hilary G. Forman, PT, RAC-CT

Chief Clinical Strategies Officer

Hilary is an experienced, sought-after health care reform expert with a dynamic approach to advising providers within the post-acute care industry.

As a solutions-oriented leader and consultant, she meets the challenges of a rapidly changing health care environment with innovative clinical and financial strategies. With more than 15 years of experience in rehab management, Hilary has worked with hundreds of clients to optimize marketplace strategy, clinical program development, and compliance integrity.

Hilary has presented at several association meetings to share up-to-date information and insights as well as her thought-provoking approach to meeting the challenges of health care reform initiatives. She has established a reputation for facilitating meaningful partnerships between post-acute care (PAC) providers and upstream and downstream cohorts. Hilary's philosophy encourages open collaboration, proactive communication, and honest dialogue regarding outcomes, safe care transitions, and financial opportunities/pitfalls.

With a keen sense of humor and a no-nonsense approach to solving problems, Hilary has the ability to assist groups in thinking strategically, challenge the status quo, and ultimately succeed in leveraging positive outcomes.

"I try to make the positive possible."

Elisa Bovee MS, OTR/L Vice President of Clinical Strategies

Elisa has worked in the health care environment advocating for patients through education and clinical guidance for more than 25 years.

With a Master's Degree in Occupational Therapy from Tufts University, Elisa has extensive experience working in Post-Acute Care educating the interdisciplinary team, Management, Operators as well as owners and investors. Elisa works with health care providers on clinical, regulatory, and reimbursement strategy. Her expertise includes regulatory guidelines; healthcare reform strategy, MDS guidance, production and delivery of education and compliance programs; reimbursement and supporting documentation for owners, operators, business office professionals, nursing and therapy professionals. She presents programs nationally targeting all interdisciplinary groups seeking guidance/clarity on regulatory and clinical topics.

As a Vice President of Clinical Strategies Elisa brings her enthusiasm to provide the leadership, management and vision necessary to ensure that clinical education, resources, and systems are in place to effectively support the clinical mission of providers as well as support financial strength and operating efficiency. Currently, Elisa works closely with providers to carry out the Health Care Redesign process as well as PDPM initiatives. Through Marketplace analysis, Program Analytics and Systems Evaluation, Elisa develops a Strategic Road Map for optimal market development and positioning to enhance referrals, census and patient outcomes promoting successful transitions to next level of care.

Elisa also serves, as a Subject Matter Expert for Chase Consulting, where she carries out duties required of MDS/RAI User's Manual Support and Maintenance contract Statement of Work. This work centers around review of proposed or draft changes to the RAI Manual for accuracy, clarity, and consistency and helps to identify necessary revisions. She collaborates with the MDS team to answer questions from stakeholders, supports the design, development, and quality review of training materials for MDS 3.0, as well as provides expert review of answers to questions about the MDS 3.0 and RAI processes.

Elisa has contributed to a multitude of articles featured in select Post-Acute Care industry trade magazines.

"I advocate for quality functional outcomes for seniors by offering comprehensive education and guidance for care providers."
