

Get Up & Get Connected

Introducing:

Get Up & Get Connected!

HealthPRO® Heritage is excited to implement *Get Up & Get Connected!*

This new initiative combines therapy sessions with virtual visits between your patients/residents & their loved ones!

Via special arrangements made by HealthPRO® Heritage, our therapists can leverage the therapy department's technology to connect patient/residents with their family, friends & loved ones in before, during our after-therapy sessions.

Patients/residents will have a choice to either connect in real-time or record a video message to send to loved ones.

Please contact your Rehab Director/Program Manager for more details!
