Other incidents as escalated on a case by case basis

How do I request help from the IR team?

Contact your Varonis account team directly to request help from the IR team. If you need urgent assistance, you can **[contact our support team.](#)**

About the Team

MATT RADOLEC

Security Architecture
& Incident Response

Matt Radolec and the Varonis Incident Response Team are called in to respond to **hundreds** of new and nefarious attacks for clients and trial users every year.

From thwarting ransomware to catching rogue insiders red-handed, these world-class experts are trusted by the biggest brands on the planet to identify, investigate, and stop attacks before they become crisis situations.

The security research team at Varonis has been recognized for investigations leading to the discovery of APTs and new strains of malware such as [Qbot](#) and [Norman](#).

“Varonis showed us the full extent of the problem and played a big role in helping us eliminate it.”

“Varonis’ team didn’t offer any kneejerk solutions—they listened, took notes, did some homework, and came back with informed suggestions that actually helped us solve our problem.”

Watch the IR Team in Action

Join our weekly cyber attack lab demos to get a live look at how popular attacks are executed, explore indicators of compromise, and learn how to detect and respond with Varonis.

The team runs **live sessions every week**, webinar-style, on Zoom. After the attack simulation, you’re invited to stick around for Q&A.
