Maxter Healthcare Inc. is proposing to build up an estimated 2.4 million square feet of manufacturing, office, R&D and distribution space to manufacture medical/surgical gloves (PPE) for the Texas market and to meet the requirements of its US government contract. This project will be the company's first US manufacturing facility (18th overall) with a goal of building capacity to capture at minimum 10-15% of the total annual imports into the US over the next 2 to 3 years, and 25% over the next 4 to 6 years. The company plans to create over 750 new jobs at the facility over the next 3-4 years. The project will operate under Maxter Healthcare, Inc., a newly-established subsidiary of Supermax Healthcare, Inc., and includes the following goals:

- 1) Build a large scale "Made in USA" nitrile glove manufacturing plant catering to the US, as well as exporting to the top 25 largest US trading partner countries.
- 2) Establish a 2nd US distribution center, catering to the southern US and Latin-American markets.
- 3) Build a State of the Art, Industry 4.0 facility for PPE products with particular focus on nitrile medical gloves.
- 4) Build the Supermax Group's R&D center for polymer technology, new materials, and engineering in the form of automation and robotics in the manufacturing process.

The company is proposing to build the complex on a ~212-acre parcel in the ETJ of City of Alvin at the intersection of CR 48 and CR 52.

Below is a list of the major equipment comprising the complex:

- Fired heater
- Burners
- HRSG (Heat Recovery and Steam Generation) System
- SCR (Selective Catalytic Reduction) Unit
- PSA (Pressure Swing Adsorption) Unit
- Refractory
- Reactor vessels
- Compressors
- Heat exchangers
- Pumps
- Separators
- Cooling tower
- Boilers
- Electrical transformers
- Switchgear
- Instrumentation equipment
- Control equipment
- Piping

Additional infrastructure to support this property will include:

- Site development/roads
- Utility piping, electrical substation, co
- Waste water treatment plant

Stage 1 wastewater treatment/management

- a) Compounded latex solution from the holding tanks will be regularly discharged onto a system of custom-built collecting sumps where we will use various chemicals to coagulate the compounded latex to separate the latex sludge residues through drying process. The remaining process water will then be pumped into the Stage 1 wastewater treatment plant for further treatment.
- b) Process water from production lines will be discharged to a custom-built treatment plant where chemicals will be used to treat the process water and remove bacteria dissolved solids (BODs) and chemical dissolved solids (CODs). During the Stage 1 process we will separate any latex sludge into latex solid residues through drying process
- c) Process water at Stage 1 treatment plant will be treated and subsequently sent to Stage 2 for further treatment.

Stage 2 wastewater treatment/management

- a) Treated incoming water from Stage 1 treatment plant will undergo further processing and treatment at the Stage 2 treatment plant where they are first buffered/kept in multiple custom-built ponds.
- b) From the collection ponds, the Stage 1 treated process water will then go to Stage 2 treatment, to remove any remaining residual BODs and CODs (if any).
- c) Treated reclaimed water from Stage 2 treatment plant will then be sent to our bulk water storage tanks for production line use.
- d) There will be water loss because of evaporation during the treatment process. We estimate approximately 60% of treated water from the Stage 1 & Stage 2 Treatment plants will be reclaimed and subsequently pumped back into our onsite bulk water storage tanks for production use.
- e) Any excess treated water from stage 2 treatment process will conform to EPA and local environmental standards and discharged into the city storm drains.

Sources of Fresh Water

Source 1: Canal water— we will build a ponding system to draw and buffer water directly from the canal. This water will then be treated and pumped back into our water tanks for production line/process use.

Source 2: Ground water – water sourced from onsite deep wells will be processed and pumped into our water tanks for production as well as general/office use.

Source 3: reclaimed treated water from the Stage 2 treatment plants will be pumped back to the water tanks for production line/process use.

On-site Sewage Treatment Plant

- a) We will hire professional consultants to design and build a sewage treatment plant with capacities large enough according to our master plan.
- b) The sewage treatment plant will be used to treat domestic wastewater before final discharge to the storm drain system. More details will be provided once a consultant /engineering firm have been appointed.

EPA and Local Regulatory Compliance

If any, excess treated water from the Stage 2 treatment process as well as the domestic sewage treatment stage will be subject to EPA and local environmental/regulatory standards before final discharge into the city storm drains.

Re: Capital Investment Tax Credit ("CITC") Certification

Dear Mr. Thai:

We are pleased to inform you that, based on the application and attachment for CITCs that was submitted on March 4, 2021 (as amended and supplemented, as the case may be, the "Application") by Maxter Healthcare Incorporated (the "Company", "you" or "your") and the other documents and information provided to us, and subject to the factual descriptions, assumptions, qualifications and limitations in this letter, the Florida Department of Economic Opportunity ("DEO") has determined that the Company is eligible for certification to receive CITCs in connection with the proposed project described in the Application (the "Project").

Our determination of the Company's eligibility for CITCs in connection with the Project is based, in part, on the following factual assumptions:

1. The CITCs will help to induce the Company to locate the Project in Florida and the Company submitted the Application prior to deciding to locate the Project in Florida;
2. The Company will create at least 100 net new-to-Florida full-time equivalent jobs in connection with the Project at the Project's location in either Nassau County or Columbia County, Florida paying an average annualized wage of at least \$40,540 (the "Project Wage"), which is equal to 102% of the average annual private sector wage in Nassau County for the year ended December 31, 2019, and equal to 111% of the average annual private sector wage in Columbia County for the same time period;
3. The Project will operate in a high-impact sector designated pursuant to Section 288.108 of the Florida Statutes (*Advanced Manufacturing and Life Sciences*); and
4. The Company will make a "cumulative capital investment" (as such term is defined in Section 220.191(1)(b) of the Florida Statutes) of at least \$25,000,000 at the Project's location in either Nassau County or Columbia County, Florida in connection with the Project.

Enclosed please find a copy of DEO's letter to the Florida Department of Revenue ("DOR") certifying the Company's eligibility for CITCs in connection with the Project in accordance with Section 220.191(5) of the Florida Statutes (the "Certification Letter"). Pursuant to Section 220.191(5) of the Florida Statutes, the Company may be entitled to receive a maximum tax credit equal to up to five percent of its "eligible capital costs" (as such term is defined in Section 220.191 of the Florida Statutes) in connection with the Project each year beginning after the commencement of operations for up to twenty years against certain corporate income tax liabilities or premium tax liabilities generated by or arising out of the Project.

The "commencement of operations" (as such term is defined in Section 220.191(1)(a) of the Florida Statutes) will not be deemed to occur unless and until the Company satisfies the following conditions:

1. The Company must provide evidence to DEO and DOR to DEO's and DOR's reasonable satisfaction that a "cumulative capital investment" (as such term is defined in Section 220.191(1)(b) of the Florida Statutes) of at least \$25,000,000 has been made at the Project's location in either Nassau County or Columbia County, Florida in connection with the Project (the "Minimum Capital Investment"); and
2. The Company must provide evidence to DEO to DEO's reasonable satisfaction that the Company has created at least 100 net new-to-Florida full-time-equivalent jobs paying at least the Project Wage at the Project's location in either Nassau County or Columbia County, Florida in connection with the Project.

Prior to receiving tax credits pursuant to Section 220.191 of the Florida Statutes, the Company must create and maintain not less than 100 net new-to-Florida full-time-equivalent jobs paying at least the Project Wage at the Project's location in Florida beginning with the "commencement of operations."

Notwithstanding the foregoing, the Company expects to make a "cumulative capital investment" (as such term is defined in Section 220.191(1)(b) of the Florida Statutes) of at least \$482,020,000 in connection with the Project (the "Projected Capital Investment"). If the Company makes the Projected Capital Investment prior to informing DEO and DOR that the "commencement of operations" has occurred in connection with the Project (subject to DEO's and DOR's confirmation of the same), then the Company will be eligible to receive CITCs equal to up to 100% of its annual corporate income tax liability or premium tax liability generated by or arising out of the Project.

Beginning not later than January 31, 2024, the Company will be required to deliver to DEO an annual report as of December 31st of the prior calendar year regarding its progress towards satisfaction of the above commencement of operations requirements until such time as the Company reports that it has satisfied the above requirements.

The Company may not claim any annual CITCs with DOR without a letter from DEO certifying that the appropriate annual requirements for tax credits have been satisfied or maintained, as the case may be.

Notwithstanding anything in this letter or the Certification Letter to the contrary, the Company's right to receive a CITC in connection with the Project is contingent on the Company entering into a *Technical Assistance Agreement* (the "Agreement") with DOR in form and substance satisfactory to DOR in its sole discretion. Accordingly, neither this letter nor the Certification Letter is intended to, and does not, constitute an offer or agreement to award CITCs or to enter into a definitive agreement with respect to any CITCs, and neither DEO nor DOR shall have any obligations of any kind whatsoever with respect thereto by virtue of this letter or any other written or oral expression by our representatives unless and until a definitive agreement between the Company and DOR is executed and delivered. Please contact Susan Coxwell at the DOR by telephone at (850) 717-6478 to discuss the Agreement.

Subject to the immediately preceding paragraph, this letter is for your sole benefit and nothing expressed or implied in this letter will give or be construed to give any person or entity any legal or equitable rights hereunder. This letter is governed by the laws of the State of Florida, without regard to conflicts of laws principles.

We are very excited about the opportunities offered by the Project. We look forward to working with you and your team toward a successful transaction and future. If you have any questions concerning this letter, please call our Chief of Business Development, Maureen Smith, at (850) 717-8978.

Sincerely,

IV. VALUE AND TERM OF ABATEMENT

4.01 This Tax Abatement shall be effective January 1, 2023 and shall continue for a period of seven (7) years, or one-half ($\frac{1}{2}$) the productive life of the improvements, whichever is less. One hundred percent (100%) of the value of New Eligible Properties shall be abated subject to Section 4.03 herein below.

4.02 Pursuant to the above-provisions and subject to Section 4.03 herein below, the term of abatement under this Agreement shall commence January 1, 2023 and continue through December 31, 2029. The benefits of abatement shall continue throughout the last year in which abatement is applied as long as the property and property owner continue to qualify for abatement throughout the last year.

4.03 If pursuant to the above Section 4.01, it is determined upon completion of improvements, or at any time thereafter (including after the term of abatement otherwise granted under this Agreement) that one-half ($\frac{1}{2}$) the productive life of improvements is less than the term of years of abatement under this Agreement, the term of abatement shall be reduced to one-half ($\frac{1}{2}$) the productive life of the improvements and Owner shall pay to the Port the full amount of taxes otherwise abated in each year in which the term of abatement exceeded one-half ($\frac{1}{2}$) of the actual productive life of the improvements. The amount of taxes for part of a year, if applicable, shall be determined by proration (by multiplying the amount of abated taxes for the entire year by a fraction, the denominator of which is 365 and the numerator of which is the number of days in excess of the term of abatement represented by one-half ($\frac{1}{2}$) of the actual productive life of the improvements). Any recapture hereunder shall be payable within sixty (60) days of written notice. Owner shall certify by statement to the Port and the Brazoria County Appraisal District the estimated productive life of improvements upon completion of the construction; provided, however Owner's estimate of productive life shall not control the operation of this subsection.

4.04 The payment obligation under Section 4.03 is a continuing obligation. Owner understands and agrees that this Agreement mandates that Owner's abated improvements be in active service and operation as part of a facility operating in a producing capacity for a period of fourteen (14) years from the effective commencement date of this agreement (to December 31, 2036) in order for Owner to receive seven (7) full years of abatement that are not subject to the term reduction and recapture/payment obligation provisions of Section 4.03 of this Agreement.

V. TAXABILITY

5.01 During the period that this Tax Abatement is effective, taxes shall be payable as follows:

- (a) The value of Ineligible Property shall be fully taxable;

7.02 Should the Port determine the Owner to be in default of this Agreement, the Port shall notify the Owner in writing prior to the end of the abatement period, and if such default is not cured within sixty (60) days from the date of such notice ("Cure Period"), then this Agreement may be terminated; provided, however, that in the case of a default for causes beyond Owner's reasonable control cannot with due diligence be cured within such sixty-day period, the Cure Period shall be deemed extended if Owner (i) shall immediately, upon the receipt of such notice, advise the Port of Owner's intention to institute all steps necessary to cure such default and (ii) shall institute and thereafter prosecute to completion with reasonable dispatch all steps necessary to cure same.

Each year Owner shall furnish the Chief Appraiser with such information outlined in Chapter 22, V.A.T.S. Tax Code, as may be necessary for the administration of the abatement specified herein.

8.04 If the Port terminates this Agreement, it shall provide Owner written notice of such termination. Tax Code. If the final determination of the appeal decreases the Owner's tax liability, the Port shall refund to the Owner the difference between the amount of tax paid and the amount of tax for which the Owner is liable pursuant to Section 42.43, V.A.T.S. Tax Code.

IX. INFORMATION PROVIDED BY OWNER

9.03 Owner's statements described above shall be verified by the project manager or other appropriate official. Failure to provide any requested statement or information without just cause within sixty (60) days of the request or presentation of any false or misleading statement may at the Port's option, be construed as a default by Owner under this Agreement and cause for immediate termination of this Agreement and recapture of all previously abated taxes, if after written notice of default, Owner has not cured such default prior to the expiration of thirty (30) days from such written notice. The Cure Period provisions of Section VII are not applicable to a default and termination under this paragraph.
