

ionsphere™
SAFE ZONE TECHNOLOGY

Proven results backed by science.

Ionsphere has been tested and certified by these third party labs.

"...Ions Technology meets standard UL 867 zero Ozon emission..." - [UL](#)

"... Has been tested and found comply with the following Standards: EMC 61000-6-3, 61000-6-1 ..." - [Mati](#)

"... Corona virus reduction ration % - 99.96% ..." - [The Chaim Sheba Medical Center](#)

"... Ions Technology meets safety standards ..." - [CE](#)

EMSL ANALYTICAL, INC.

"... Ions Technology Demonstrate both efficiency and ability to reduce bacteria and Fungi in the air. Example: Coli 99.43, Cladosporiodes 97.63%, Niger 97.14%, MRSA 99.47%..." - [EMSL Analytical](#)

"... The Ions technology can inactive the virus H5N1 complitely. H5N1-100% ..." - [Kasetsart university Thiland](#)

"... Preformance is recorded and approved on the air contamination with pathogenic microorganisms thus, playing an important role in reduction of epidemic infection risk and have prevention Usage. S. Aureus 91.5%, P. Aeruginosa 99.99%, E. Coli 91.15%, B. Subtitis 98.3%..." - [University of Istanbul](#)

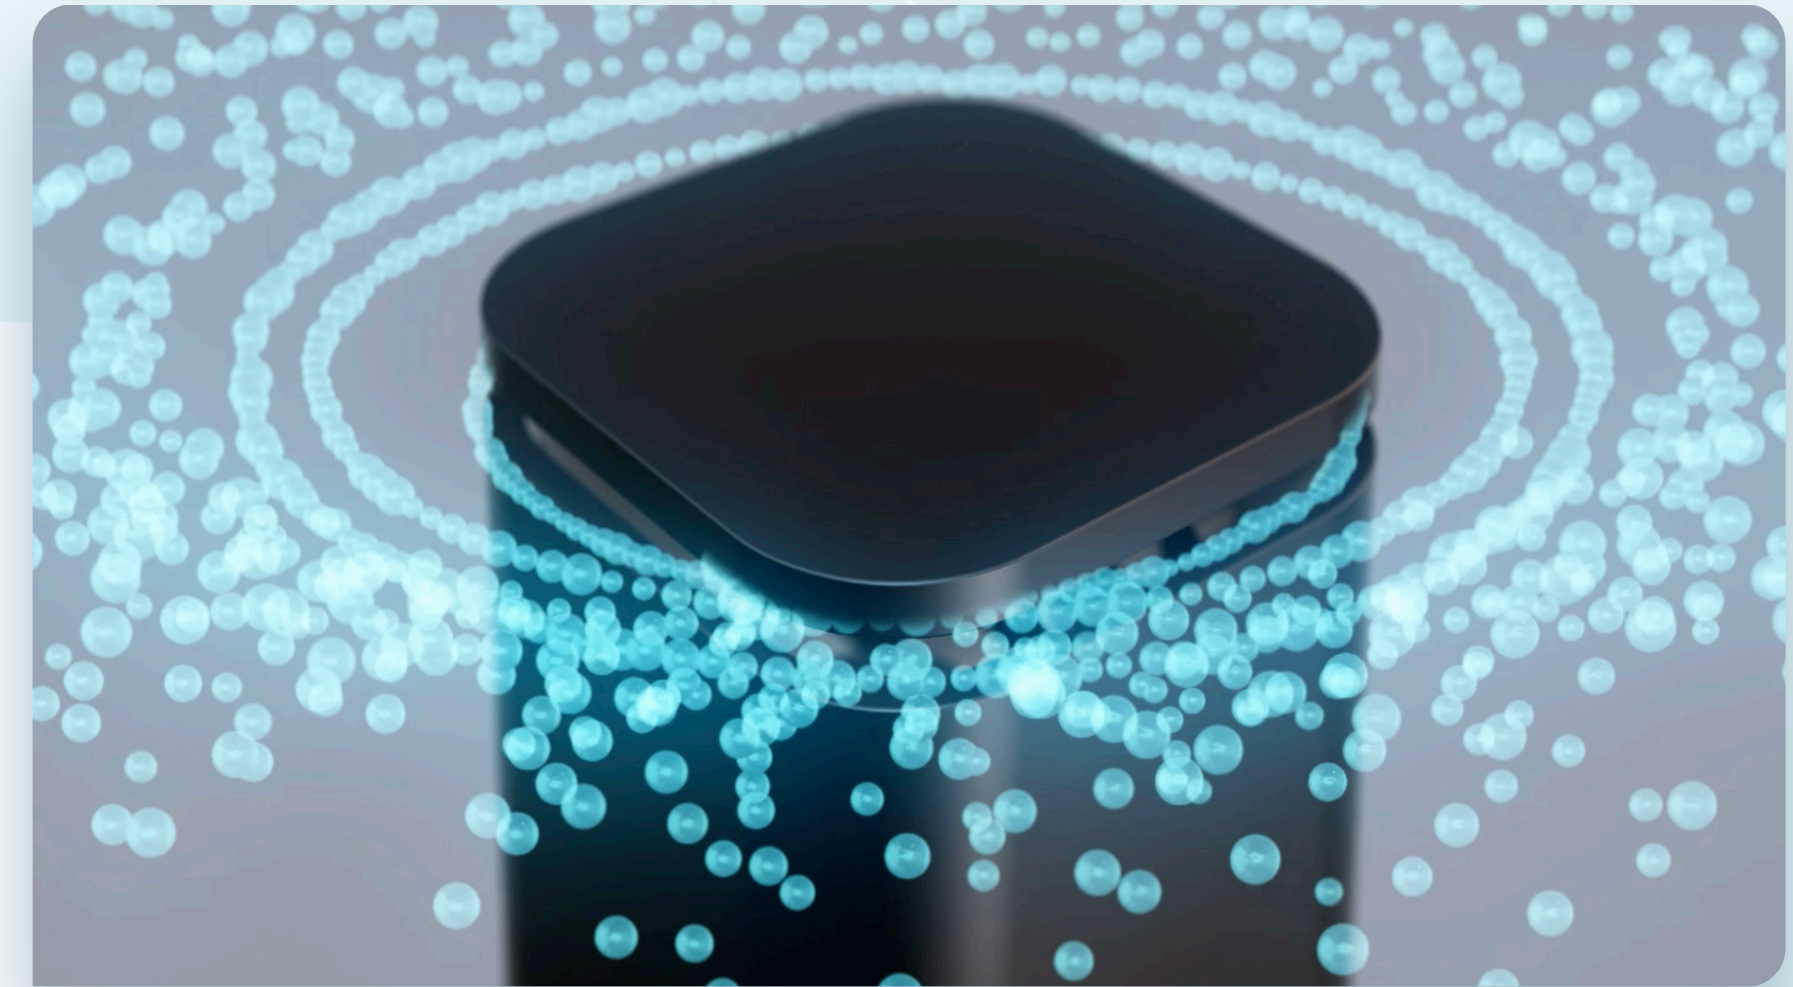

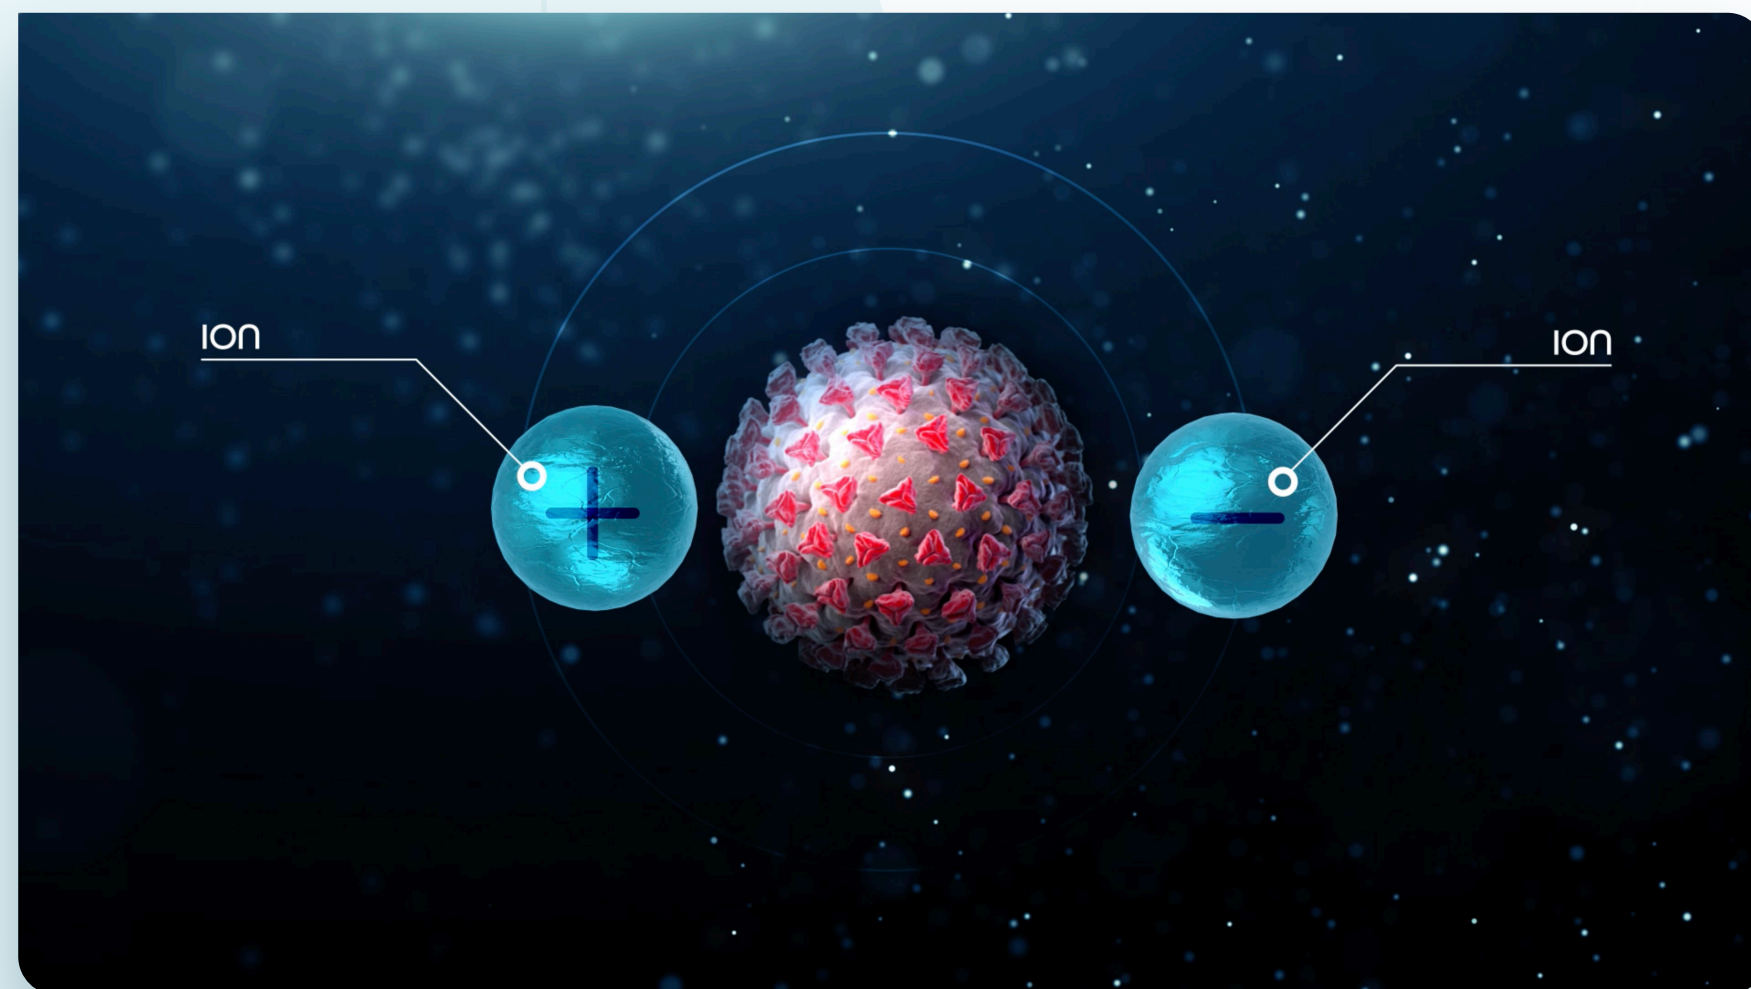

KRCES

"... The Ions technology demonstrated to redcue virus in the air H1N1-98.92% ..." - [Kitasato, Japan](#)

Proven to be 99% Effective

Ionsphere is a complete air sterilization solution backed by science. Studies conducted by independent labs have proven a reduction in airborne pathogens and pollutants by 99.9% after use.

Patented Bi-Polar Ion Technology

Abundantly found in nature, Ions are a compound of atoms or molecules with a positive or negative charge. As these ions travel through the air and react with water vapor, they neutralize the surrounding air particles and eliminate dust, pathogens, chemicals, and odors in their path.

We have found a way to harness the power of ions and bring them indoors to create a safe zone 99% free from airborne pathogens, such as germs, viruses, and bacteria.

Ionsphere™ 150

Table and Countertop Re-chargeable Unit

Protect smaller, more intimate spaces with our re-chargeable tabletop unit. Ideal for areas 150sqft or less such as restaurant tables and bar counters, VIP rooms, office workstations, and desktops. Distributes 25 Billion positive and negative ions per 1 square inch per second. Perfect for travel and hotel rooms. Charge lasts up to 6 hours.

Ionsphere™ 500

Wall-mounted Air Sterilizer

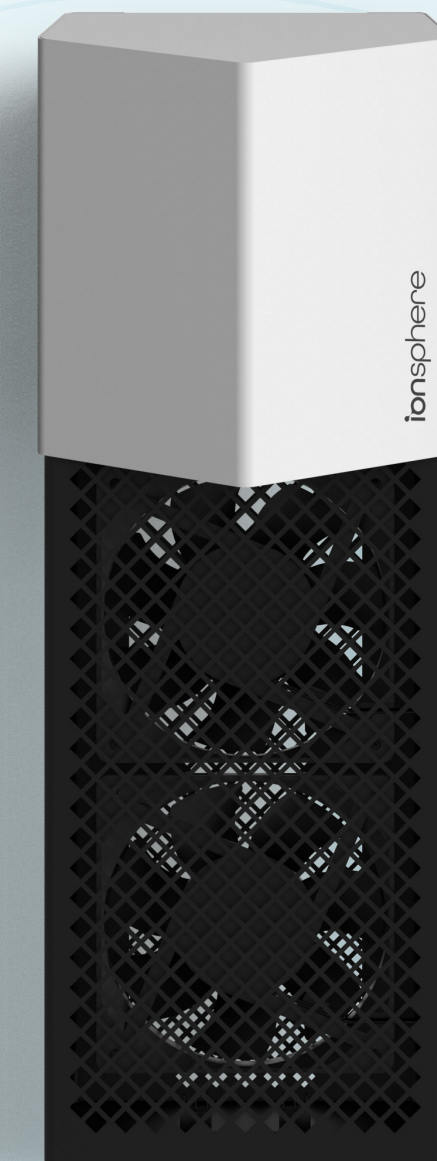

The clean air solution for areas 500sqft or less. Perfect for classrooms, reception and waiting areas, retail shops, quick-service restaurant concepts, and kiosks. Distributes 25 Billion positive and negative ions per 1 square inch per second. Includes wall-mounting bracket.

Ionsphere™ 750

Wall-mounted Air Sterilizer

Provides complete protection for up to 750sqft of space. The ideal solution for restaurants, office spaces, large classrooms, high traffic common areas such as lobbies and reception stations. Has a stronger distribution level with 2 ionizers that each create 25 Billion positive and negative ions per 1 square inch per second. Includes wall-mounting bracket.

Ionsphere™ 1500+

Wall-mounted Air Sterilizer

Our most powerful unit protects up to 1,500 sqft of space. Ideal for larger areas such as auditoriums, grocery and retail spaces, high traffic public spaces, corporate and hotel lobbies, cafeterias, restaurants, gyms and wellness centers. Dual fans and ionizers distribute 10 Trillion positive and negative Ions per 1 square inch per second. Includes wall-mounting bracket.
