About Pace International

Founded in 1972, Pace International's corporate headquarters is located in Rochester, MN. Pace is an industry-leading automation and procurement specialist with expertise in supporting communication systems worldwide. Pace is known for innovative ideas and solutions in niche markets such as the RV industry. From manufacturing, to distribution, implementation, and best-in-class customer service, Pace International continues to serve RV OEMs, Distributors and Dealers the products and solutions they need to be successful.

RV Industry Support

Pace International is the only distribution, customer service, and technical support partner for DISH® Network in the RV, trucking, and marine industry and continues to grow and support distribution. Pace International is a proud member of RVIA and RVAA, and a long-time innovator in the RV category with a sourcing office in Ningbo, China, providing leading technology including audio, video, cellular, and appliance products all with the intent of helping customers sell more RVs.

The Pace OEM Advantage

Pace International provides leading technology including audio, video, cellular, and appliance products all with the intent of helping customers sell more RVs. Pace International is the only distribution, customer service, and technical support partner for DISH Outdoors in the RV, trucking, and marine industry offering 7-day-a-week support to dealers and their customers. A proud member of RVAA, and a long-time innovator in the RV category, Pace helps find solutions for OEMs, helping to promote a better RV lifestyle.

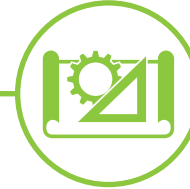

Sourcing & Distribution

Pace has expertise in procuring and optimizing pricing for domestic and international sourcing.

Full End-To-End Shipping

One purchase order for full solutions, all direct from one singular warehouse location.

Product Design & Development

Pace can develop product solutions to customer specification, including prototyping and certification.

On-Time Delivery Guaranteed

From the assembly line straight to anywhere in the country, we can have the shipment to your door in time for production.

Top Brands & Trusted Products

Pace works closely with manufacturers and partners to bring only the best technology for each solution.

RV Call Center Support

Our in-house call center offers unparalleled customer service to make sure you and your customers are satisfied.

TOP BRANDS WE CARRY

We offer products and solutions from these top brands and many more!

SUPPORTING

 WINEGARD[®]

 KING[®]

DISH Outdoors Satellite TV

Pace is proud to introduce a satellite TV program in the RV market that provides customers flexibility of a video solution they want.

- Pay As You Go gives your customers the flexibility to pay only for the months they use
- Full HD video with any mobile satellite antenna
- Cutting-edge technology including Bluetooth, Wi-Fi, DVR, and over-the-air integration
(purchase of Wally accessories required)
- Fast and easy setup every time with a custom interface designed specifically for mobile users

| 3rd Year In A Row |

Let your customers enjoy the very best HD video experience in the industry when you add DISH as a video option on your vehicles. Pace owns and operates a call center based in Rochester, MN to service your customers.

- Best-in-class specialized customer support for RV and mobile users from a US-based call center 7 days a week
- Technical support focused on mobile equipment from agents familiar with RV, trucking, and all other mobile installations
- Activations and technical support conveniently available all at once

DISH Wally® HD Receiver & Accessories

DISH Wally HD Receiver

- Watch HD programming on the go with this compact and lightweight receiver
- Remote Finder feature that allow you to find your remote with the touch of a button
- No long-term commitment with DISH Pay As You Go programming
- The latest in satellite TV technology

Wi-Fi Adapter

Connect your Wally to an available wireless data connection to stream videos or use your favorite apps.

Over-The-Air Tuner

View over-the-air local channels in your Wally program guide.

Wally RF Remote

Add additional remotes to the Wally and change channels up to 200ft through walls and obstructions.

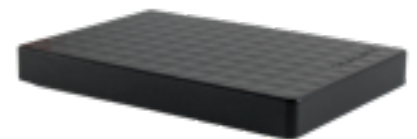

Bluetooth Adapter

Enables wireless audio connection to Bluetooth speakers and headphones.

Bluetooth Headphones

Enhance your listening experience wirelessly when used with the Bluetooth Adapter.

DVR Upgrade (1TB)

Convert your Wally into a DVR and record up to 100 HD hours of your favorite shows.*

*One time \$40 DVR activation fee may be required.

ATYME HD TVS

Smart Wi-Fi Connectivity

ATYME Smart TVs have built in 802.11n high-speed Wi-Fi to connect your favorite apps, stream TV shows, movies, music, and more.

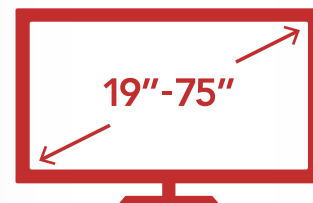

Clear And Full Range Audio

Two 8W speakers provide full range audio and S/W enhanced audio function provides clear audio.

4K Ultra HD

ATYME 4K Ultra HD packs 8.3 million pixels into the screen for four times more detail and clarity.

Large Range Of Sizes

Pace has ATYME HD TVs in a large range of sizes and offers customizable sizes as well as the ones listed in this catalog.

ATYME

LED HD TVs

Features

- Component and composite AV inputs
- Optical audio output
- VGA input
- 3.5mm audio out
- USB media player
- Multiple HDMI inputs (up to 3)
- Supports 480i through 1080p resolution
- Built-in stereo speakers
- VESA wall mount

Available Sizes:

- HDMI
- Coax

*Matrix used depends on existing cabling.

4K HDMI 4x4 Matrix Over Cat6

P/N: MX44-HD-UTP

A sleek, new CAT6 matrix that provides the benefit of Power over Ethernet

Features

- Support 4K UHD @ 60 Hz
- Receiver / Extenders powered over single CAT6 (PoE)
- 4 HDMI inputs, 4 RJ45 outputs
- Lightweight and compact design
- Includes full IR pass through
- Dimensions: 9.25 x 3.93 x 1.10in

What's Included

- Matrix switch
- Up to 4 CAT6 Extenders (Baluns)
- Up to 4 IR Emitters
- IR Receiver
- IR Remote Control to switch sources
- 12V AC power supply

Power Supply

4K HDMI 4x4 Matrix Over Cat6 (continued...)

P/N: MX44-HD-UTP

18GBPS 4K60 (4:4:4) 4x4 Matrix Switch and Receiver Kit

4 HDMI inputs & 4 Category Cable Outputs

This audio/video distribution powerhouse comes well equipped with 4 HDMI inputs, allowing you to connect any 4K sources, including satellite boxes, Apple TVs, Roku streamers, and video game consoles. With 4 category cable output ports, you can distribute independent audio/video signals to each of the connected displays in the system. This provides the ability to switch through all four sources on any of the connected displays.

This 4x4 matrix switcher comes with 4 receivers that convert the audio/video signal, which is being sent over category cable, back to an HDMI signal that your TV can read. Using category cable allows us to send the signal much further than traditional HDMI cables. Also, using category cable allows you to determine the perfect length for a cable run, something you can't do with HDMI cables.

18Gbps 4K60 (4:4:4) signaling allows you to play the latest 4K content like Hollywood movies, modern video games, or Netflix. A 4K signal comes with four times the data and many video distribution products available are not able to pass this high bandwidth signal. This product was built specifically for these high bandwidth signals, giving you the confidence that you will always be able to get your picture to the screen.

Matrix Switcher Features:

- 4 HDMI Inputs
- 4 Category Cables (6/7) Outputs - RJ45
- IR input & output for control
- 18G_{BPS} maximum bandwidth
- 4K60 (4:4:4) resolution support
- HDCP 2.2
- EDID Management
- RoHS Compliant
- Engineered for stability and temperature control
- Front Panel Control and Power Button
- Front Panel Indicator Lights
- Mountable

Cat Cable 6/7 Poe Receiver Features:

- 1 Category Cable (6/7) Input - RJ45
- 1 HDMI Output Port
- Reset Button
- 18G_{BPS} maximum bandwidth
- 4K60 (4:4:4) resolution support
- HDCP 2.2
- RoHS Compliant
- Engineered for stability and temperature control
- Mountable

4K HDMI 4x4 Matrix Over Coax

P/N: 610-100-SW

Our most versatile and capable matrix, featuring 4K, built to run over RG6 coax and/or HDMI cables.

Features

- Built-in coaxial outputs to extend HDMI sources up to 328ft/100m
- Capable of running HDMI outputs and coaxial extenders simultaneously
- Resolution up to 4K over HDMI
- Provides IR pass-through for all HDMI inputs with use of extenders
- Dimensions: 17.32 x 7.87 x 1.75in

What's Included

- Matrix Switch
- Remote Control
- Power Cord
- Coax extenders to help you utilize the coax outputs (optional add-on)
- IR Blasters / IR Receivers (optional add-on)

Coax Extender

P/N: 610-100-BL

HDMI 4x4 Matrix Over HDMI

P/N: HDM-944-IR

Simple 4K capable matrix solution with IR in a small form factor.

Features

- Consists of 4 HDMI input and 4 HDMI outputs
- Allows use of any of the 4 HDMI inputs on any TV connected to the matrix
- Features IR pass-through for remote control of each individual HDMI input device
- Supports 3D and is 4K capable for UHD content
- Dimensions: 4.53 x 10.63 x 1.77in

What's Included

- Matrix Switch
- Remote Control
- IR Blasters / IR Receivers
- RS232 Cable
- Power Cord

HDMI Splitters And Extenders

1x4 HDMI Splitter/Extender Over CAT6/7

P/N: HDMI1X4EX-CAT

Functions as both a splitter and extender using Ethernet with IR pass-through.

Features

- 1 HDMI input, 1 HDMI output, 4 CAT6/7 outputs
- Supports up to four CAT6/7 receivers with HDMI outputs and IR inputs
- Support resolutions up to 1080p @ 60Hz
- Features IR pass-through for remote control of the HDMI input
- Dimensions: 7.48 x 3.78 x 0.94in

What's Included

- HDMI Splitter/Extender
- 4 CAT 6/7 Extenders
- IR Blasters / IR Receivers
- Power Cords

HDMI Over 1 CAT5E/6

P/N: P60E

Features

- Extends HDMI sources up to 196' to your HD TV display
- Supports high definition resolutions 1080p, 1080i, 720p, and standard format
- Video amplifier bandwidth: 2.25 Gbps
- Input video signal: 0.5 - 1.0Vp-p
- Input/output connector type: HDMI
- Data speed transfer: 10.2 Gbps

1x2 HDMI Splitter 12V

P/N: SA2597-001

1x2 HDMI Splitter

P/N: HDMI-12

Features

- HDMI 1.4b
- 8, 10, and 12 bit color depth support
- 3D video capable
- Supports resolutions up to 3840x2160 (4K) @ 30Hz
- Maximum HDMI output: 1080p @ ~65ft, 4K @ ~32ft

1x4 HDMI Splitter

P/N: HDMI1X4-110

1x4 HDMI Splitter 12V

P/N: SA2597-013

Features

- HDMI 2.0
- Up to 48 bit color depth support
- 3D video capable
- Supports resolutions up to 3840x2160 (4K) @ 30Hz
- Maximum HDMI output: 1080p @ ~65ft, 4K @ ~32ft

Features

- High quality 3 Ghz coaxial cables
- ETL certified
- Weather sealed
- Dual aluminum cable shielding prevents signal loss
- Flame retardant and UV-resistant
- Assembled in the USA
- For indoor and outdoor use

Compatible With

- Satellite TV
- Cable TV
- Off-air antennas
- Many more

DISH Approved Cables

Pace provides custom 'Grab And Go' coax solutions for any OEM!

- Custom lengths, built and boxed in the USA
- Reliability of a DISH approved RG6 cable
- High quality and weatherproof connectors
- Provides savings on cable costs and labor costs

Audio, Video, & Ethernet Cables

Component & Composite RCA Cables

- Flexible assortment of types and sizes always in stock
- We offer a wide range of adapters, splitters, jumpers, and ancillary accessories

Cat5, Cat5E, & Cat6

- Stocked by the spool or comes in pre-made sizes
- Shielded and unshielded styles in stock
- Indoor & Outdoor rated cables
- Large variety of adapters and accessories

Speaker Wire

- 99.997% oxygen free copper
- Flexible outer jacket
- CL3 rated
- Various gauges and wires types available

Stereo/Mono Cables

- For use with sound bars, computers, headphones, etc.
- Designed to be high quality and durable
- Various styles and lengths available

Optical Cables

- Toslink and SPDIF cables available
- High quality optical fiber core
- Optical cables built for low loss, high quality audio

We also have fiber optic products and many cable accessories.

Pace offers all cables in a wide variety of types and lengths, always in stock and available for custom orders.

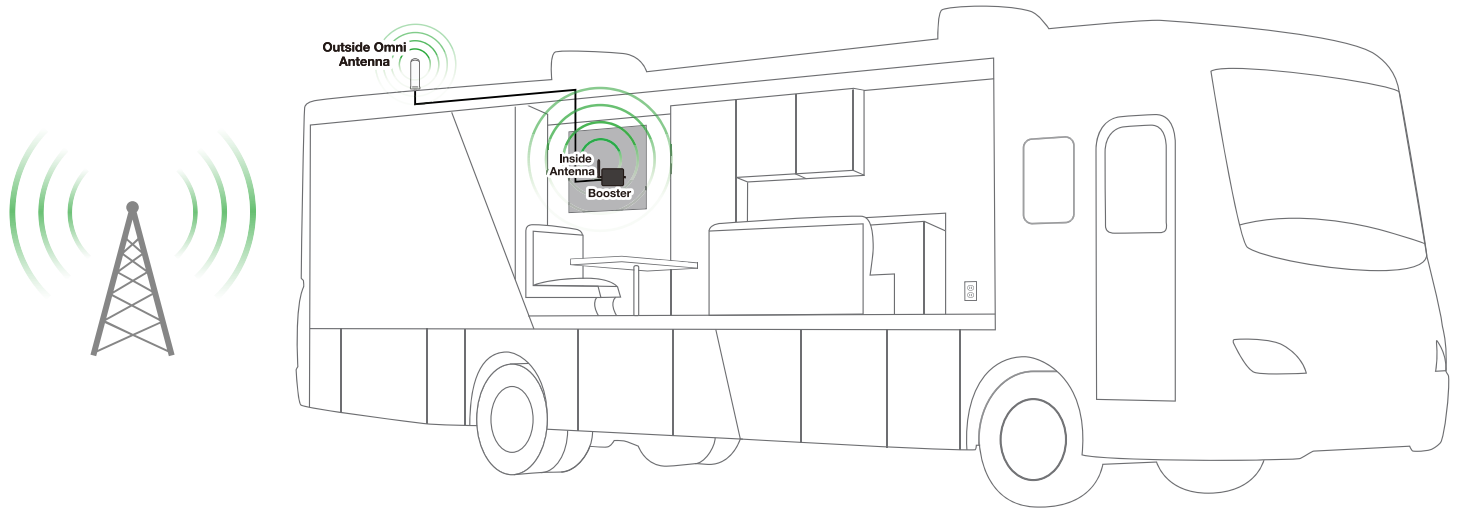

CELLULAR BOOSTING

 **SureCall**[®]
RAISE YOUR BARS

Improve Cellular Signal

Cell phone signal boosters improve voice, text, and data signals for 10X better cell service inside any home, office, car, truck or RV in North America. SureCall signal boosters work with all cell carriers and cellular generations, including 3G, and 4G LTE.

WORKS WITH EVERY NORTH AMERICAN CELL CARRIER

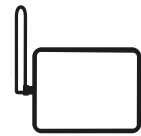

HOW SIGNAL BOOSTERS WORK

1

The cell tower sends and receives signal within a general area.

2

An outside antenna captures the signal, the signal booster amplifies the signal's strength, and indoor antenna(s) send the improved signal to your phone.

3

The call, text, or 4G LTE data signal returns to the tower by the same process in reverse.

SureCall Fusion2Go 3.0 RV

P/N: SC-GO3RV
