**Filipa Ferreira**  
**Financial Controller at NOS**

Saphety's solution is an innovative tool that has revolutionized our everyday life, proving to be the best solution for NOS. It is a user-friendly platform that has been perfectly adapted to our needs as a customer, which has allowed us to increase the simplicity and efficiency of our processes.

**Germán Rodríguez**  
**Business Development Manager at Stefanini Colombia**

Some of the advantages that we find in SaphetyDoc are that it is much easier because it is an internet portal that without initial investment and no need for technological knowledge, or specialized training, allows us to receive and send business documents.

**Gaspar Carreira Junior**  
**Financial Services Director at Oi**

In the current climate, where seeking out new corporate clients and keeping existing ones is becoming an essential strategy for Oi, Saphety's Electronic Bill Presentment solution was a logical step for a new set of value added services for producing and presenting invoices to this segment, without having to change the billing system already operating. This solution also aids cost reduction and contributes to the company's sustainability program.

SaphetyBill is the solution for adapting billing information to the needs of corporate customers.
