Track Time & Expenses

Leverage the most intuitive time and expense tracking on the market, preventing billable hours from slipping through the cracks. Customizable timesheets, flexible billing formats and rates, and the ability to track all reimbursables like mileage and credit card expenses.

Client Portal

Never leave your clients in the dark. The BigTime Wallet client portal gives your clients the freedom to manage their invoices from start to finish.

With the client portal, you'll be able to:

- Provide clients with full access to their invoices
- Accept payments in minutes through a direct link, no coding required
- Reduce late payments with easy payment scheduling for clients
- Create a smooth payment experience with secure (and unlimited) saved payment methods
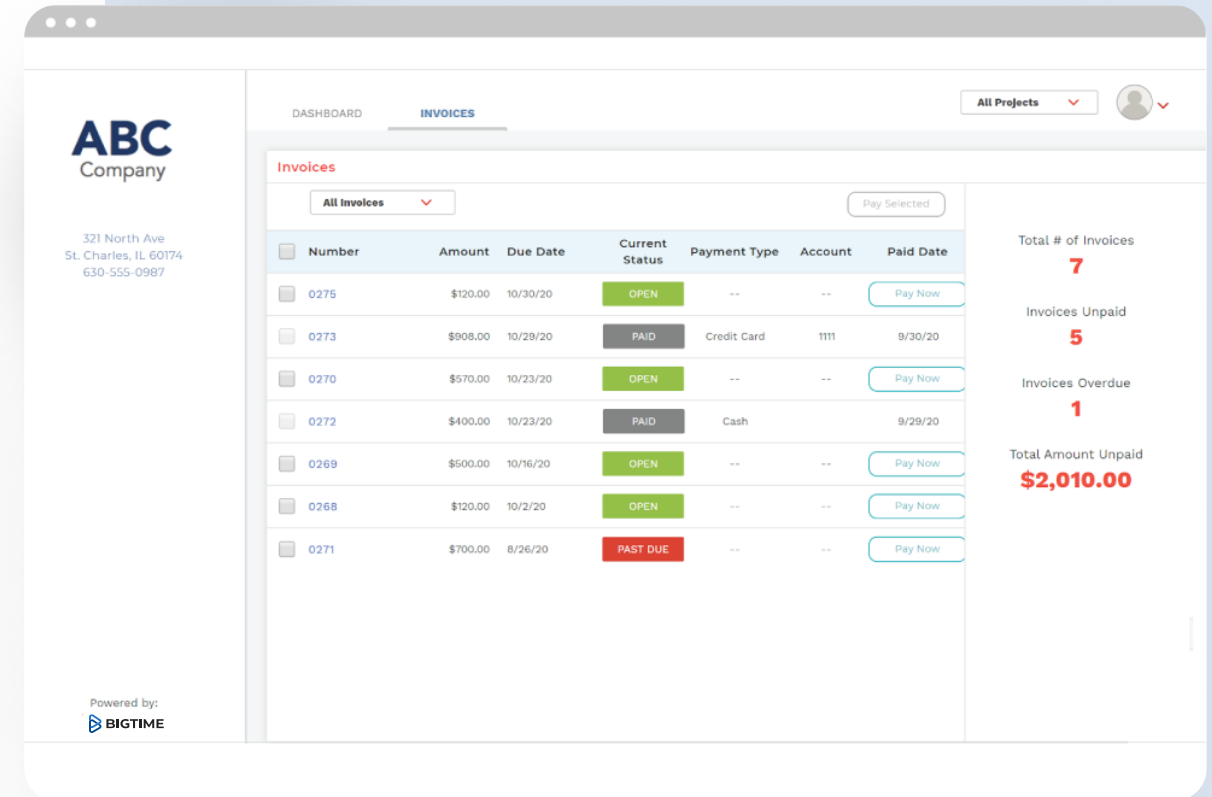

We Don't Stop There. Integrate With Your Accounting Software
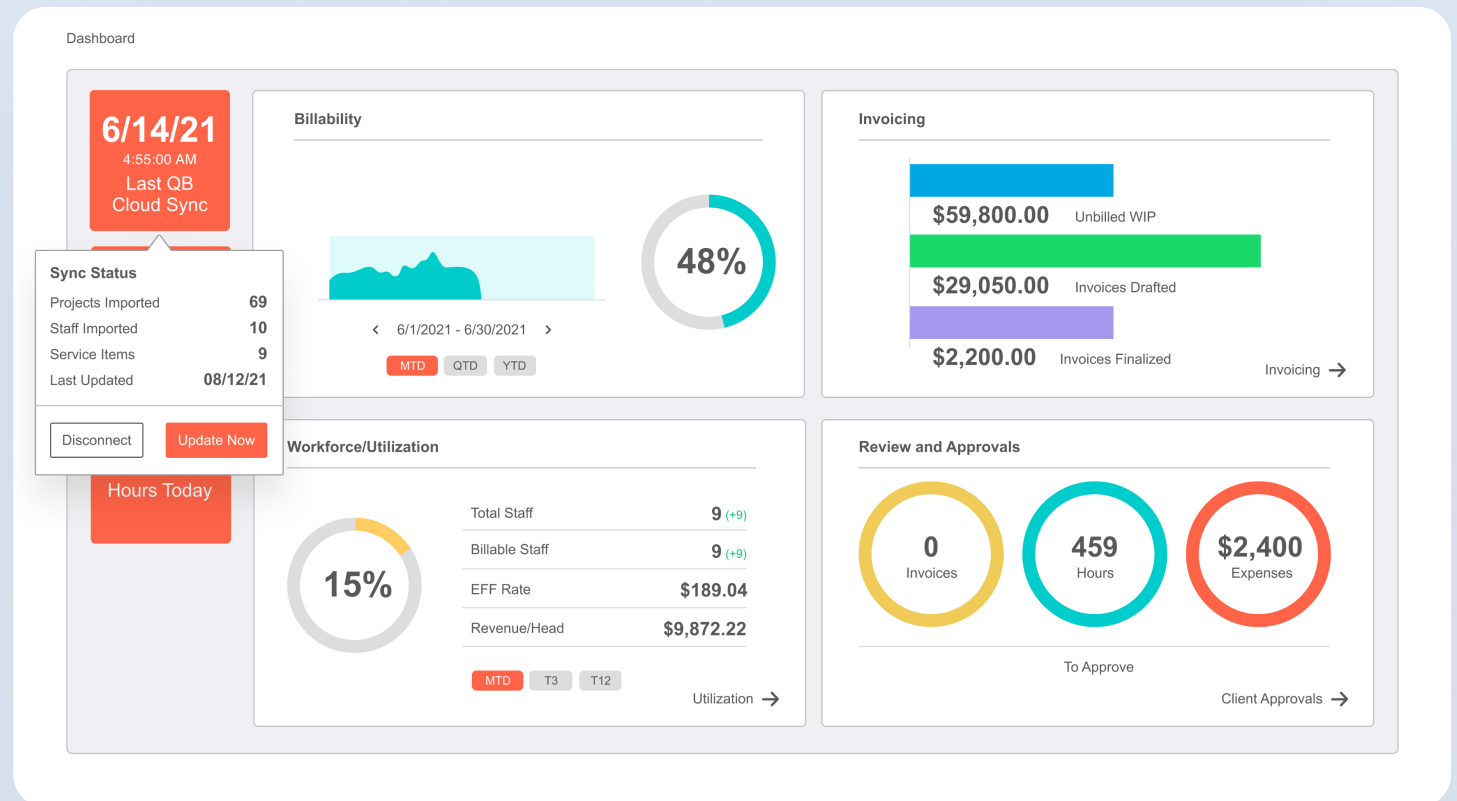

BIGTIME WALLET

BigTime and BigTime Wallet integrate with your accounting software for an all-in-one solution.

Connect your QuickBooks Desktop, QuickBooks Online, Sage Intacct, or Lacerte account and voila.

When an invoice is paid, BigTime can automatically relay the update to QuickBooks. No manual work needed to ensure each invoice and payment is properly reconciled.

You achieve hassle-free data migration, eliminating the need for any double entry between platforms.

Our quick deposits are deposited the next business day for ACH and 2-3 days for credit cards.

Industry Leading Payment Security

Data protection is a top priority at BigTime. BigTime Wallet is one of the industry's most secure payment processors.

● **Level 1 PCI Compliance** — BigTime Wallet meets PCI compliance at the highest. Level 1 PCI compliance is the gold standard security. This is the highest level for businesses that store, transmit, or process credit card data.

● **End-to-end Encryption and Tokenization** — On top of PCI standards, BigTime Wallet encrypts all card information and, once the transaction is complete, never stores the data.

● **Fraud Prevention** — Additional technologies within BigTime Wallet specifically monitor and investigate accounts for any potential unauthorized charges.

● **GDPR Compliance** — In the EU, our solution is aligned and committed to transparency, data protection, and accuracy to remain GDPR compliant.

FAQs

What are the rates?

The rate for Standard ACH is a flat fee of $7 per transaction, and next day ACH is .5% plus $0.25 per transaction. Rates for credit cards are 2.95% + $.0.25 per transaction (add an additional 0.5% for American Express, a specialty card).

Is there a credit application process?

Yes, as with any payment processor, there's a standard credit application. This will only be a soft credit pull, which does not affect your credit score.

How do I integrate the click to pay link into my invoices?

You will automatically have the option to add click to pay on every invoice with just a single click on the invoice draft page once the features are activated.

How quickly do funds get deposited into my bank account?

We offer next day ACH and 2 day quick deposits for credit cards.

Can clients pay multiple invoices with a single payment?

Yes, you can give clients that option in their client portal.

What do the payments and invoices look like when pushed to QuickBooks?

Payment goes into Undeposited Funds in QuickBooks, already reconciled with the applicable invoice number. Invoices can be sent over with service items, classes, and tax if applicable. The will be associated with the client and project by default.

Learn How BigTime Has Transformed The Way That PLATT Architecture Gets Paid

WATCH TESTIMONIAL VIDEO ❯

"

BigTime Wallet offered us a way to get payments faster from our clients, and also eliminate any fees within electronic payments on the client end. The ease of creating invoices from time in BigTime and the formats were better than almost anything we've seen out there. Because [BigTime Wallet] is so highly customizable, it makes it a no brainer to use it for billing your clients. If you are going to do it, I would adopt it as quickly as possible.

Ren Uriarte from PLATT Architecture

About BigTime

BigTime takes the guesswork out of utilization, capacity planning, and project profitability. Our award-winning PSA software provides project planning, budgeting, time and expense tracking, and invoicing, all backed by uber-cool reporting and analytics.

We help accountants, architects, engineers, IT service firms, and management consultants budget, track, and bill their most important asset: time.
