

BigTime's Mobile App

Track time and expenses on the go,
on-site or offline.

The BigTime mobile app serves as an extension of our platform for consultants who need the flexibility to work any time, from anywhere. Track time and expenses while you're working remote, to keep your business moving forward, and to manage your projects with accuracy.

Key Features:

Offline Entry

Duplicate Entries

Use the copy/paste feature for repetitive time entries and notes

Expense Tracking

Capture every expense and attach photos of receipts, from anywhere you need to be.

Key Features:

Attach Receipts

Take photos of your receipts, and attach them to reports

Connect Expenses

Associate any of your expenses with a project

Expense Categories

Mark expenses as billable or no charge

Verification

Get confirmation when your expense report is submitted

About BigTime

©2020 BIGTIME SOFTWARE

BigTime takes the guesswork out of utilization, capacity planning, and project profitability. Our award-winning PSA software provides project planning, budgeting, time- and expense-tracking, and invoicing, all backed by uber-cool reporting and analytics.

We help accountants, architects, engineers, IT-services firms, and scientific and management consultants budget, track, and bill their most important asset: time.
