WHAT YOU GET

As an official Intuit-Integrated Application, BigTime seamlessly syncs with QuickBooks Online and Desktop. No re-entry, no reconfiguration—you'll be up and running in just a few clicks.

Power up your accounting system with time tracking, billing, and project management information.

- Streamline data entry with the sync of projects, timesheets, and invoices of expenses to QuickBooks in a few clicks
- Use QuickBooks service codes, pay items, classes, and expense accounts

How It Works

Say goodbye to lost revenue. With BigTime + QuickBooks, prevent billable hours from slipping through the cracks, capture every expense in real-time, and stay on top of your bottom line with one-click invoicing.

Posting Data

Data that originated in BigTime—such as timesheets, expenses, and invoices—that you'd like to add to QuickBooks.

To post time or expenses to QuickBooks, simply go to QuickBooks on the navigation bar, and click whichever you're looking to post: Post Timesheets or Post Expenses. Check the relevant timesheet entries and/or expenses that you'd like to post.

Syncing Data

Data that originates in QuickBooks can be automatically applied to BigTime. Information such as employees, vendors, and service items are populated into their respective fields in BigTime. Easy as that.

Save valuable time spent doing repetitive data entry from QuickBooks into project and practice management software. Sync active clients and projects directly from QuickBooks to BigTime, with zero downtime.

The iFish Group, Inc. Case Study

Learn how BigTime's invoicing made it possible for The iFish Group to get paid two weeks faster.

"The reconciliation between project financials in QuickBooks Online is way better. Invoicing out of BigTime and then directly posting it to QuickBooks allows for zero human error to be introduced."
