CONTINUING PROFESSIONAL DEVELOPMENT (CPD)

A Handbook for Certified FRMs and ERPs, and SCR Certificate Holders
Our CPD program provides all the necessary tools to help you keep pace with the latest advancements in risk management and current regulatory requirements.

The importance of Continuing Professional Development (CPD) has increased dramatically in recent years as industry standards, regulations, and technology continue to evolve at an aggressive rate. In response, we created our CPD program to help those who have earned our Financial Risk Manager (FRM®) Certification, Energy Risk Professional (ERP®) Certification, and Sustainability and Climate Risk (SCR®) Certificate keep pace with ever-changing market dynamics. Certified FRMs and ERPs, as well as SCR Certificate holders, are expected to actively participate in CPD throughout their careers to maintain the level of skill they demonstrated during the certification process.

Our CPD program delivers a broad range of accessible learning opportunities, and provides the tools you need to find, track, and document your activities. CPD credits may be earned by participating in structured, self-study, live, or online learning activities that accommodate diverse schedules and learning styles. This document will guide you through the process of choosing, submitting, and monitoring your CPD credits.
OUR CPD PROGRAM DELIVERS A BROAD RANGE OF ACCESSIBLE LEARNING OPPORTUNITIES, AND PROVIDES THE TOOLS YOU NEED TO FIND, TRACK, AND DOCUMENT YOUR ACTIVITIES.
The CPD program is based on 24-month calendar cycles, with participants encouraged to actively engage in CPD to maintain their risk management knowledge and expertise throughout their careers. FRMs and ERPs are expected to earn 40 credits every two years. SCR Certificate holders are expected to earn 20 credits every two years.

CPD credits are measured by one hour of learning activity equaling one credit. Credits may be earned by participating in a wide range of learning activities, with FRMs, ERPs, and SCR Certificate holders afforded broad latitude in selecting both activities and providers.

Participation in CPD is based on an honor system. Upon completion of a cycle, you will be asked to attest that the information you submitted is accurate and true. The standards set forth in the GARP Code of Conduct will be diligently applied to the CPD program.

- For FRMs, participation is optional.
- For ERPs, participation is mandatory.
- For SCR Certificate holders, participation is optional.
- For dually certified FRMs/ERPs, participation is mandatory, but credits are applied to both credentials.

Note: For members holding multiple credentials (e.g., FRM and/or ERP as well as the SCR Certificate), credits earned are applied to maintain all credentials at the same time.

After earning your certification or certificate, you will be automatically enrolled in the program, and will receive notification of your first open CPD cycle. Depending on your FRM or ERP Certification date, or SCR Certificate of completion date, your cycle will open in the current calendar year or the following January.

- If you are FRM/ERP Certified or earned your SCR Certificate on or before June 30, then your first CPD cycle will start in the current year and you may begin submitting credits immediately.
- If you are FRM/ERP Certified or earned your SCR Certificate after June 30, then your cycle will begin the following January, but you can begin submitting credits immediately.

All newly certified FRMs and ERPs, and SCR Certificate holders will have a one-time opportunity to move their first cycle start date forward or backward. Email CPD@garp.com to request a cycle change.
To be eligible for credit, activities and programs must be educational and focused on risk-related topics at an advanced level.

Typical activities:

- **Read** articles, journals, books, white papers, or research papers
- **Attend** conferences, forums, seminars, chapter or society meetings, or other live events
- **Participate** in training courses, employer training or programs, or college or university courses (including MOOCs)
- **Watch** webcasts, videos, or online trainings
- **Listen** to podcasts or educational audio programs
- **Achieve** a passing score on risk relevant certifications or licensing exams
- **Present** at an event, on a webcast, or in a video
- **Teach** a risk-relevant course
- **Publish** journal articles, white papers, research papers, or books
- **Volunteer** for GARP committees, chapters, item writer drives, or as a subject matter expert
As a general rule, activities submitted for credit should align with and build upon the core knowledge domains covered in the FRM, ERP, and SCR curriculums, including recent regulatory developments in financial and energy markets. Other current topics and professional development activities include:

- **Artificial Intelligence, Machine Learning, and Neural Networks**
- **Benchmark Rates**
- **COVID-19**
- **Cryptocurrency Markets and Blockchain Technology, including FinTech**
- **Geopolitical Risk**
- **Leadership Development**
- **Other Risk-Related Areas**
  (e.g., actuarial, audit, asset management)

In addition to our own program offerings, we partner with a select group of providers to bring you a multitude of pre-approved programming; a listing can be found at [garp.org/CPD](http://garp.org/CPD).

If there is an activity you would like to participate in that is not listed, we encourage you to submit a request to have the activity reviewed and approved in advance.

For questions, email [CPD@garp.com](mailto:CPD@garp.com).
WE PARTNER WITH A SELECT GROUP OF PROVIDERS TO BRING YOU A MULTITUDE OF PRE-APPROVED PROGRAMMING.
Credits earned should be submitted for approval through your GARP portal. Credits earned at any time during the cycle calendar months will be considered for approval. If you exceed more than the expected credits in your current CPD cycle, you may apply a portion of the credits to your next cycle. For example, FRMs and ERPs may carry forward up to 20 credits from one cycle to the next. For SCR Certificate holders, a maximum of 10 credits may be carried forward to the next cycle. Please send your request to CPD@garp.com.

Refer to our CPD Credit Guidelines for additional details on calculating credits.

The credit tracking tool in the GARP portal is open to all certified FRMs and ERPs, as well as SCR Certificate holders, regardless of membership status.

Credits you submit that fall within the guidelines provided are usually approved within three to five business days. If your credits are declined or if you receive fewer credits than submitted, it is most likely due to one of the following factors:

- Credits submitted were in excess of or non-compliant with those recommended on the CPD Credit Guidelines (e.g., exam prep courses are not eligible for credits).
- Credits were submitted for non-instructional time (e.g., networking, break times, exhibit hours).
- Credits submitted were not at a level consistent with the knowledge and skill level demonstrated during the FRM or ERP Certification process, or the SCR Certificate of completion process.
- The program submitted was not successfully completed (e.g., enrollment in a certification program does not qualify for CPD; passing the exam(s) is required).

Note: Submit each course separately for university degree programs. Entire degree programs will not be approved for CPD credit.

If your credit submission is denied or your credits are only granted partially, you may appeal the decision by sending your request to CPD@garp.com.
Active participation in CPD can be acknowledged in the following ways:

- **FRM|ERP DIRECTORY**
  Announces your certification in the official directory of FRMs and ERPs, including the date of your last completed cycle

- **ACKNOWLEDGMENT OF COMPLETION**
  Confirms your achievement in meeting the standards set forth in the CPD program and provides printable proof

- **DIGITAL BADGE**
  Online verification of your certification or certificate on professional and social networking pages

---

**CREDIT AUDITS**

We conduct annual audits to review documentation for CPD credits. If you are selected for an audit of your CPD credits, you will receive notification and have adequate time to provide verification of attendance or participation in the activities submitted for credit. Verification can involve a variety of forms, including proof of registration, receipt of payment for a course or seminar, attendance confirmation from an association meeting, or a copy of transcripts from a university offering.

GARP creates value for the risk management community through four critical and interlinked functions: education, research, benchmarking, and engagement.
ABOUT GARP | The Global Association of Risk Professionals is a non-partisan, not-for-profit membership organization focused on elevating the practice of risk management. GARP offers role-based risk certification — the Financial Risk Manager (FRM®) and Energy Risk Professional (ERP®) — as well as the Sustainability and Climate Risk (SCR®) certificate and on-going educational opportunities through Continuing Professional Development. Through the GARP Benchmarking Initiative and GARP Risk Institute, GARP sponsors research in risk management and promotes collaboration among practitioners, academics and regulators.

Founded in 1996, governed by a Board of Trustees, GARP is headquartered in Jersey City, N.J., with offices in London, Washington, D.C., Beijing, and Hong Kong. Find more information on garp.org or follow GARP on LinkedIn, Facebook, and Twitter.
