

DIGITAL ADOPTION SOLUTION FOR TEAMS

Is your business ready for the challenges of remote work?

Teams across the globe are moving to remote work. Microsoft Teams has become the Hub for Teamwork in thousands of enterprises, allowing people to meet, chat, call and collaborate in one place. But changing the way your employees work means reimagining the way you approach employee training programs.

A different approach to digital adoption for Microsoft Teams

Adopting Microsoft Teams means transforming the way that people collaborate, connect and share information. This means new workflows, new integrations and new ways to work together. To be successful, organizations need to manage the impact of these changes on their employees, providing communications, training and support to enable and empower them. This is where Vitalyst can help.

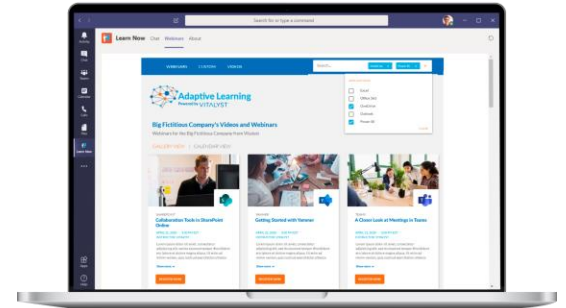

The Vitalyst Solution

Our proprietary PROPEL Methodology™ enables organizations to leverage the full power of Microsoft Teams throughout all phases of the adoption lifecycle: Onboarding, Activation and Continuous Learning. We support your IT staff in expediting the deployment and adoption of Microsoft Teams, accelerating your time to value to:

- ➔ Power remote work and collaboration with Teams meetings
- ➔ Create a sense of community among your remote workforce
- ➔ Reduce meeting fatigue with Team's powerful, inclusive capabilities
- ➔ Maximize ROI on your investment in Microsoft technology
- ➔ Reduce burden on internal support resources
