

Viva Insights Training Academy

Help your organization accelerate its use of Viva Insights with **Vitalyst's Viva Insights Training Academy**. The Academy includes two levels of training plans designed to help analysts and their organizations score quick wins with Viva Insights evaluations.

Vitalyst Viva Insights Training Academy includes:

Analyst Essentials

In a two-day, **Analyst Essentials** event, users will gain a basic introduction to Viva Insights. They will learn to leverage Explore Dashboard for preliminary analysis and rapid hypothesis generation. They'll also discover how to run custom queries for in-depth analysis using example scenarios. Vitalyst Data Analysts will also provide hands on guidance through office hours on how to create an analysis using selected use cases.

Pre-requisites: Viva Insights licensed and enabled; Attendees assigned Analyst role.

Training Academy Service Package includes:

- 2 days in-person training
- 8 hours of Office Hours

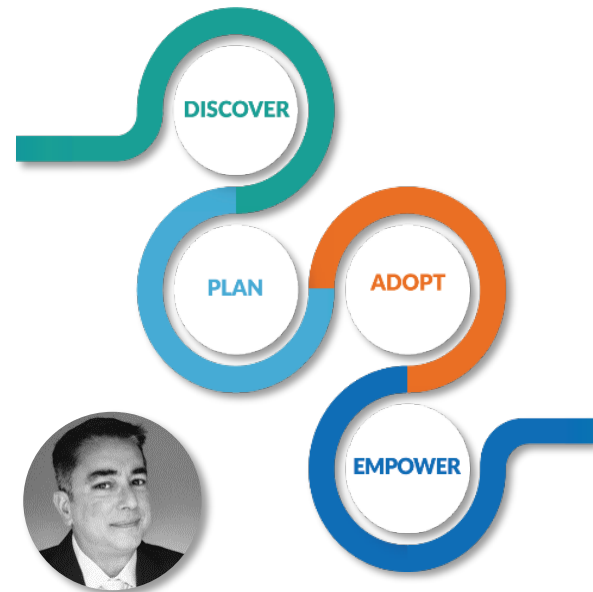

Vitalyst Viva Insights Academy will:

- **Help you to discover your organization's collaboration patterns**
- Enable you to do your own Viva Insights analysis and address your organizations' use case
- Provide your organization with access to experienced Analysts.
- **Maximize ROI on your investment in Microsoft technology**

Who we are

Vitalyst is a learning and development solutions leader helping organizations humanize technology. As a Microsoft Gold Partner for the last decade and two-time Microsoft Partner of the Year winner, Vitalyst has helped over 400 customers across all industries.

Our services are fueled by our proprietary PROPEL® Methodology, which enables organizations to leverage the full power of technology throughout all phases of the adoption lifecycle: Onboarding, Activation and Continuous Learning.
