

Face to Face classes

New protocols are being put in place for Face to Face classes which reflect procedures applied in workplaces and to ensure students are confident that all measures are being implemented for the health and safety of staff and students.

Students are advised NOT to come to class if you are experiencing any cold or flu symptoms. If you cannot attend the class, your trainer will provide you with work to read/research and complete before your return to class the following week so you do not get behind.

The protocols for face to face classes include:

- Antibacterial hand gel and PPE is available for our students to use
- Social distancing measures are also in place in the classroom, the kitchen & the student breakout areas and we respectfully request these be adhered to
- Cleaning of our premises, work space and simulation room
- Student temperature will be taken using an infra-red thermometer and must be in the “normal” range of 36.1°C - 37.2°C to attend the session
