

Practical Placement

As you would appreciate, some of our industry partners that we work with for practical placement, suspend placement from time to time, depending on active cases at a facility, in a local area or in the state.

The suspension of placement may have occurred to keep their residents/patients/participants/clients safe and also to allow the head office staff to deal with the impact of the Coronavirus on their own business.

We will continue to work with industry and students to assist our students complete the qualification to the best of our ability, but students must acknowledge that placement may not occur in the timely manner that it did before Coronavirus.

Placement may be harder to organise and may be suspended with very short notice.

We trust that students will agree to placement providers and locations without question. Students who do not accept the placement will have the opportunity to explain, but may be withdrawn from the course.

In addition, those students who do not wish to work in environments with Coronavirus for personal reasons, may wish to reconsider the course they are looking to undertake.
