

GREAT THAT YOU'RE VISITING MICROLAB!

PLEASE FOLLOW OUR GUIDELINES

Together we will make sure everyone can use Microlab in a safe and pleasant way! Stay at home if you have any health complaints. If you do come to Microlab, we ask you to comply with the measures mentioned below.

KEEP A SAFE DISTANCE
FROM OTHERS

WASH YOUR HANDS
REGULARLY

KEEP TO THE RIGHT
RIGHT IS ALWAYS RIGHT

SNEEZE IN YOUR ELBOW
"BLESS YOU"

AVOID DIRECT CONTACT
WITH OTHERS

WEAR A FACEMASK
IN COMMON AREAS

CHECK OUR INSTRUCTIONS
P.T.O.

EVERYDAY USE MICROLAB**WORKSHOPS****MAX 1 PERSON PER MACHINE**

Do not work on the machines with more than one person. This way 1.5m distance can easily be maintained. (Unless it is unsafe due to large materials.)

**KEEP A CLEAN AND TIDY WORKSPACE**

The more tidy the workshop is, the better everything can be cleaned.

**DEGREASE THE WELDING MACHINE**

Clean the welding machine before and after use. This way we keep things as clean as possible and limit spreading.

**LUNCH SAFELY**

Make sure you keep a safe distance during lunch. Tip: have your lunch outside or in shifts to avoid crowding the common areas.

**DISINFECT YOUR HANDS**

There is hand sanitizer on every floor. You can also wash your hands regularly with soap throughout the day.

**USE CLEAN TABLEWARE**

Tip: replace tableware with disposables. Still prefer your own tableware? No problem, clean it thoroughly after use so that no dirty dishes pile up.

The measures above are based on information from the RIVM and various industry associations. We're helping you to the best of our abilities. Do you have any questions or ideas about how to make Microlab more corona proof? Let us know!
