

GREAT THAT YOU'RE DOING A COURSE AT MICROLAB!**PLEASE FOLLOW OUR GUIDELINES**

With this handout we hope to give you the necessary information to safely use Microlab. We're doing our best to ensure that everyone can make use of Microlab in a safe and pleasant way, but we can't do this alone! Stay at home if you have any health complaints. If you do come to Microlab, we ask you to comply with the measures mentioned below.

KEEP A SAFE DISTANCE
FROM OTHERS

WASH YOUR HANDS
REGULARLY

KEEP TO THE RIGHT
RIGHT IS ALWAYS RIGHT

SNEEZE IN YOUR ELBOW
"BLESS YOU"

AVOID DIRECT CONTACT
WITH OTHERS

WEAR A FACEMASK
IN COMMON AREAS

CHECK OUR INSTRUCTIONS
P.T.O.

USE OF MICROLAB FOR COURSES

WORKSHOP: BASIC SPRAY PAINT

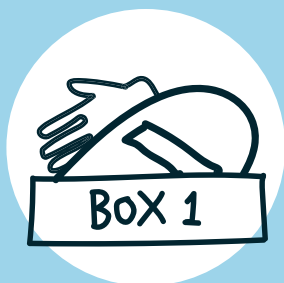

DISINFECT YOUR HANDS

There is hand sanitizer on every floor. Preferably only use this when you first arrive and wash your hands regularly with soap throughout the day. Hand sanitizer is hard to come by at the moment.

WEAR GLOVES

Wear the blue gloves and throw them out yourself afterwards.

USE YOUR OWN MATERIAL

Use your own container with materials. Put all your materials back during the break.

CONTROL CALLS

Two to three days before the start of the workshop, the participant will be called to check whether he/she is free of health complaints. This will be checked again right before the start of the course.

SIGNING

We have applied signing at various locations in different ways to remind you of the measures taken. We have opted for social distancing where possible to minimize the use of screens.

The measures above are based on information from the RIVM and various industry associations. We're helping you to the best of our abilities. Do you have any questions or ideas about how to make Microlab more corona proof? Let us know!
