

Don't let market changes send you off course

Keep ahead of the competition by understanding product and price changes as they happen.

The current semiconductor shortage is causing rapid changes to products and prices in the market as OEMs find their way of navigating through the production challenges. Demand is higher than supply, resulting in changes to product specifications and price.

Be prepared with JATO NEWS and spot the changes ahead.

JATO NEWS provides a quick snapshot of market changes so you can:

- Understand **price and product changes** as they happen
- Straight to your inbox
- With a short editorial overview of what is happening

Understand:

- Your competition
- The market
- Changes as they happen

Updates are just the tip of the iceberg...

Combine with JATO PRICE TRACKER to:

Assess your challenges and see full the picture of what's ahead.

Get the whole story with JATO PRICE TRACKER:

- Analyse the updates and data in detail
