

STREAMLINING HEALTHCARE

About Snap Healthcare

Snap Healthcare is a web-based platform built to serve Clinics, Hospitals, Testing Centers, and Employers. Snap Healthcare transforms clinical documentation, delivery of results, and data management through portals, data exchange, and automated email and text notification.

A turnkey solution ready with documentation to complete physicals, drug screens, COVID-19 testing, or vaccines. Schedule a demo today. Be operational tomorrow. Learn more at www.statlabresults.com.
