

# Casper™ Cloaking Technology

## Overview

DESIGNTEX

In business, collaboration is everything—but creating the right balance between openness and privacy is a challenge.

Casper™ Cloaking Technology by Designtex is an architectural film for glass walls that obscures digital screens to outside view. It acts as a smart shield to ensure data privacy, while providing the peace of mind to collaborate freely in any working environment. This is a breakthrough that will unleash space design in the networked modern world. Casper is the only cloaking technology of its kind anywhere. You have to see it to believe it.

Without Casper Cloaking Technology

With Casper Cloaking Technology

## Applications

Casper can be applied to any clear, smooth glass on new projects or existing glass.

- The cloaking technology is installed on the glass inside the room with the display; an optional graphic film is mounted on the outside glass.
- Casper is recommended for conference rooms, meeting rooms and team studios. It is engineered to work with most LED displays, 40 inches or larger.
- Please contact your Designtex sales representative to verify if your screen is compatible.

## Graphic Options

The Casper product offering includes the cloaking technology and a suite of 15 optional graphic patterns that were specifically designed to complement the Casper Cloaking Technology.

- Our cloaking technology can be used on its own or combined with one of these patterns to dial in the perfect balance of openness and privacy.
- We also accept requests for custom patterns. A minimum order quantity may apply for custom patterns, please contact your Designtex sales representative for more information.

## How to specify

Casper Cloaking Technology and Casper graphic patterns are sold by the linear foot and cut to size when installed.

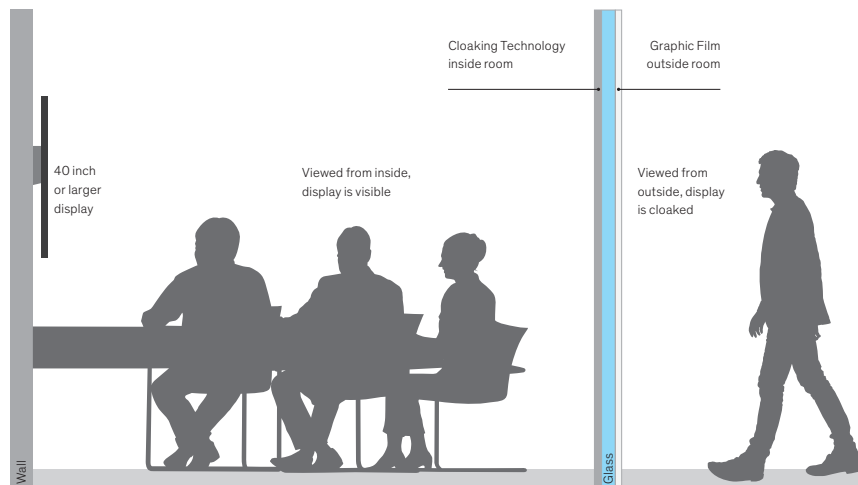

- When specifying, the film height is recommended to start 42 inches off of the ground and continue up to 84 inches.
- The maximum width without seaming is 53.5 inches.
- Casper is distributed exclusively by Decorative Film and can be installed through its network of over 2,000 verified installers or by window film installers who typically work with wet applied glass films.
- To place and order or for more information, please contact Decorative Film at: [casper@decorativefilm.com](mailto:casper@decorativefilm.com), 888.657.5224 [decorativefilm.com](http://decorativefilm.com)

## Pricing

- Casper Cloaking Technology: \$31–\$35 per square foot installed
- Casper Graphic Film: \$9–\$11 per square foot installed

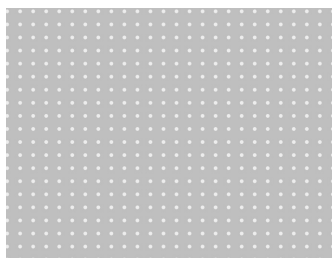

## Lead Time

- Standard lead time is 5-7 business days
