

Premium Business NBN+4G

Smart and Secure NBN Connectivity

Better Performance and Less Congestion

Premium Business NBN services come with Unlimited Full Speed 4G Failover, dedicated static IP addresses for both the NBN and 4G services, and DDoS protection. Together with security and redundancy, they deliver the highest possible performance available, which means no service interruptions, less congestion and faster internet.

Unlimited Full Speed 4G Failover

Get unlimited 4G data with uncapped speeds in the event of an NBN outage or service fault. Ensure your network continues to function as usual with a dedicated 4G static IP address.

Carrier Level DDoS Protection

Services are protected at the carrier level against Distributed Denial of Service (DDoS) attacks, ensuring they won't be affected by this ever growing international cyber threat.

24/7 Australian Based Customer Service

Australian based business customer service and technical support teams. Experienced operators with local knowledge and training to support your business.

Premium Business NBN Plans from **\$109 per Month**

-  Included data for both NBN and 4G services.
-  Uncapped full speed 4G failover.
-  Static IP addresses for both the NBN service and 4G failover.
-  Carrier level DDoS protection for both service connections.
-  No set up fees or long term contracts.
