

# Company Overview

Cohesive Solutions helps asset-intensive organizations implement, optimize, and continuously improve their maintenance programs through world-class asset and performance management solutions, and industry best practices.

## Who We Are

Cohesive combines decades of industry experience, a proven delivery methodology, and best-in-class software technologies. The result - powerful solutions that improve enterprise performance by optimizing asset availability and delivering unique objective-driven data.

Our significant experience and innovative performance solutions enables us to align business processes with operational objectives, unlock the untapped potential that exists within the customer's enterprise systems, and maximize the return on technology investments.

We help organizations increase performance profitability through the application of Enterprise Asset and Performance Management solutions.

## Solutions

### Maximo Enterprise Asset Management

Cohesive is a leading provider of IBM Maximo Software, the most powerful Enterprise Asset Management (EAM) solution available today. IBM Maximo unifies comprehensive asset life cycle and maintenance management on a single platform. Optimize assets and maintenance operations in six tightly integrated modules:

- Asset Management
- Work Management
- Service Management
- Contract Management
- Inventory Management
- Procurement Management

### Propel Performance Management

Propel enables organizations to visualize and manage performance so they can reduce risk, manage outcomes, and achieve operational excellence.

Providing industry expertise in:

# Cohesive Solutions - Company Overview

## Maximo Implementation Services:

### Project Management

Cohesive ensures your project goals are being met through leveraging the expertise and best practices of our team.

### Change Management and Training

Cohesive helps clients design and implement fit-for-purpose change management programs that align with your culture, structure, talent, and goals to improve performance, build capabilities, strengthen behavior, and sustain the project over time.

### Consulting

A trusted advisor will help your organization achieve your target outcomes by aligning your operations with your corporate objectives.

### Infrastructure and Architecture

We offer infrastructure design and provisioning services for customers looking to deploy robust, virtualized infrastructures that incorporate active directory, single sign-on, load balancing, high availability, and rapid backup recovery.

### Integration with External Systems

A routine requirement for implementations is the integration with external systems. Whether point to point, WebService, or integration bus, our technical consultants are experts in designing and applying the Maximo Integration Framework (MIF) to interface with systems such as SAP, OracleEBS, Peoplesoft, PowerPlan, Documentum, OpenText, and OSI Pi.

### Data Conversion

Cohesive Technical consultants have extensive experience migrating data into Maximo. We apply techniques that exploit ETL solutions that deliver rapid transformation and cleansing of data into a consumable structure. In the final stages of conversation, we migrate the data to Maximo using a blend of methods for loading data using the Maximo Integration Framework or direct insert.

## Reporting and Business Intelligence

Cohesive offers technical resources that have experience engineering reports from Maximo using a number of solutions including: BRIT, OBIEE, and COGNOS. Whichever system reporting environment is standard for a customer, Cohesive has the skills and expertise.

## Mobile Solutions

Maximo anywhere also allows users to take advantage of maps to see routes and get turn by turn directions to the work orders assigned to them.

## Specialty Services:

### Maximo Spatial Asset Management

As a leading Maximo Spatial integrator Cohesive Solutions enables customers using solutions from ESRI and Schneider to deploy solutions that provide visual spatial capabilities for asset management used in the office and in the field.

### Industry Solutions for Maximo

Cohesive industry subject matter experts bring experience from early careers working in the industries we serve. This experience affords Cohesive insight and best practices that have been designed and applied to the Maximo Industry Solutions for:

- Oil & Gas
- Utilities
- Nuclear
- Transportation
- Life Sciences

Cohesive Solutions has been a leading provider of world class maintenance solutions and services since 1998. The company is now operating under the Cohesive Companies Group – a Bentley Systems Company collectively committed to enabling infrastructure owner-operators to implement reliable, efficient, and resilient maintenance programs by leveraging digital twin technology, world class maintenance solutions, and industry best practices. Cohesive Solutions is gold IBM business partner, and leading supplier of IBM Maximo's EAM solution, providing implementation and business process consulting services to the clients they serve.
