

Your gateway to online payments

Cashflows Gateway feature list

Simple solutions for smart businesses.

Version 2.0 December 2021.

Cashflows

Make every click count

Online payments open up a whole world of opportunity for your business. Connecting to our gateway takes little effort. Our flexible and scalable solution is big on performance, giving you everything you and your customers need to take payments online.

Cashflows

One click check-out

Payment details can be securely stored and automatically filled in to make checkout fast and easy next time. Watch your sales grow!

Real-time insights

Our enhanced analytics portal means that you can monitor sales and settlements in real-time, so you always know what's going on, right now.

Maximise sales

Reduce abandoned shopping carts by accepting the most popular payment types - Visa, Mastercard, American Express, Apple Pay, Google Pay and PayPal.

Outstanding security

Our gateway uses robust fraud prevention technology. Our hosted payment pages offer hassle-free PCI compliance to protect your numbers as well as your reputation.

Not just for websites

Our gateway comes with a virtual terminal so you can take payments over the phone or by email, to help you maximise sales and give great service to customers. No need for a card machine.

Powerful tech

Choose from direct gateway integration and complete control using our APIs and plug-ins, or a hosted payment page that looks like the rest of your website and lets us take care of compliance.

Cashflows Gateway feature list

Taking control of online payments starts now. Here's all the key information you need to know about our gateway.

Cashflows
