yooz
Cloud P2P Automation. Easy. Powerful. Smart.

**Real-Time Purchase-to-Pay Automation:
80% Cost Reduction.
Easy. Powerful. Smart.**

The answer is
Yooz AP Automation!

Yooz clients share their thoughts on how automating their entire Purchase-to-Pay process with Yooz's unbeatable, real-time Accounts Payable (AP) automation software has improved not only their AP process but their Accounting and Finance departments as well.

Why did you choose to automate your invoice and payment process with Yooz?

"We looked at a couple of other [AP automation] softwares but as soon as we saw Yooz, we knew it was the program for us because it was simple. It did everything we needed it to, and it was super user-friendly. The support we received from Yooz was also amazing."

Megan Walker,
VP of Accounting and Finance,
Oxford Collection

How was the implementation and onboarding process with Yooz?

"Our experience with [our Yooz Customer Success Manager] and all the implementers at Yooz has been such that sincerely we feel part of [the Yooz] team as consultants – and even as end-users."

Arian Soheili,
Technology Strategy Specialist and Managing Director,
Cantatus Systems Group

How has Yooz improved your AP department?

"We used to have a lot of times that an invoice went through and then it's a surprise on the P&L. Where did that come from? Now that we have workflows in place in Yooz, it allows for approvals at different levels and so more visibility, more oversight on our approval process as well. [With Yooz] our department managers and our assistant general managers, input all the invoices, do the coding, and then the general manager of the hotel sees every single invoice that comes through and so there's not any more surprises."

Megan Walker, VP of Accounting and Finance, Oxford Collection

What benefits has Yooz AP automation brought to your company?

"Visibility has been key with our larger implementation and the approval process – being able to research our own documents, not having to send the information back to accounting and a lot of the back and forth – has made things a lot more efficient between the program managers or the approvers and the accounting department."

Jodi Soheili, President Consulting Services, Cantatus Systems Group

What value did your organization gain from partnering with Yooz?

"I think when we look at the value of what Yooz is as a product, it's not just the product itself. It's also the partnership that is behind it."

Arian Soheili,
Technology Strategy Specialist and Managing Director,
Cantatus Systems Group

What kind of savings have you seen as a direct result of implementing Yooz?

"I think it's fair to say in terms of our internal systems that 85% to 90% is what we have seen in terms [of the time we have saved in] our overall business process. And Yooz automating that has been a big part of it."

Jodi Soheili,
President Consulting Services,
Cantatus Systems Group

About Yooz

Yooz provides the smartest, most powerful and easiest-to-use cloud-based Purchase-to-Pay (P2P) automation solution. It delivers unmatched savings, speed and security with affordable zero-risk subscriptions to more than 4,000 customers and 200,000 users worldwide. Yooz's unique solution leverages Artificial Intelligence to deliver an amazing level of automation.
