

Do more with your current CNC machines and **eliminate their downtime.**

A simple solution that helps you to **become autonomous** quickly with the technology and accelerates ROI.

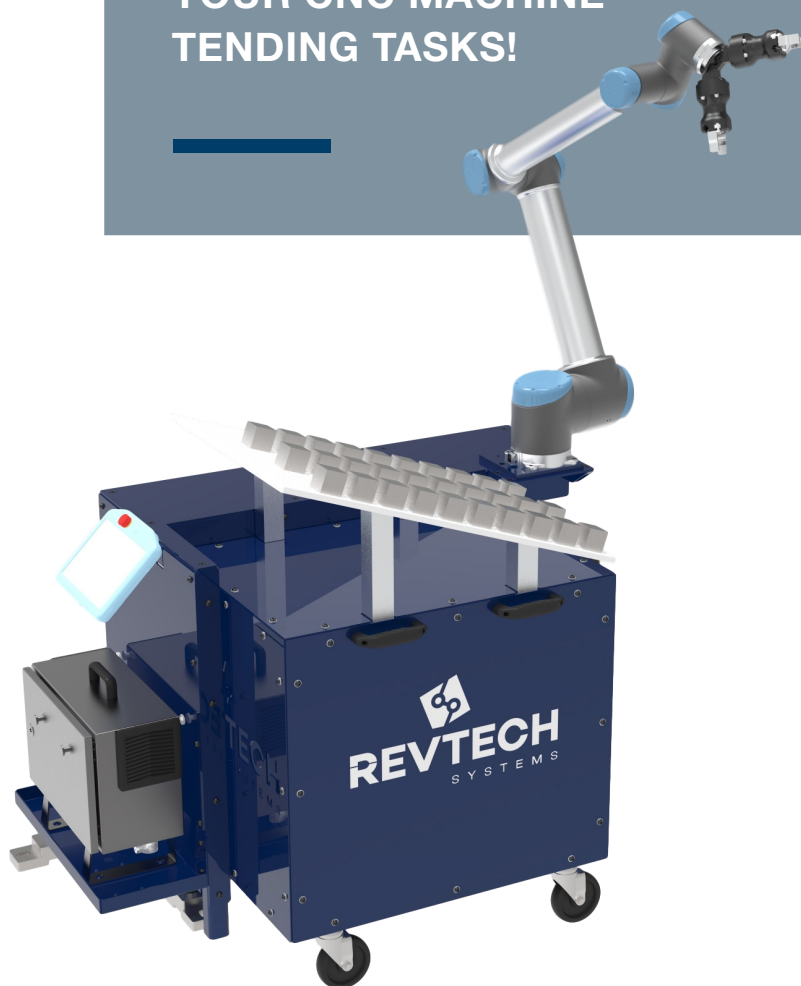

Use **human potential** in your value-added tasks (optimization, setups, quality control, inspection).

Minimize production downtime with our text message alert technology and **monitor your productivity** in real time!

THE ULTIMATE ALL-IN-ONE
CNC LOADER TO AUTOMATE
YOUR CNC MACHINE
TENDING TASKS!

REVTECH FLEX

Comes with an **intuitive software** to reduce the programming time of the part presentation

Sturdy and Easily transportable with a transpalet

Cart on wheels

Angled drilled aluminium plate easily customizable

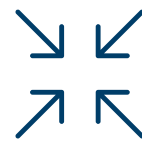

Extra space for a regrip/
repositioning table, deburring
or inspection devices

Universal Robots
UR10e
(not included)

Connectivity 4.0 and
machine integration box
(inside)

Universal Robots controller
(not included)

Images for reference only.

Compact and installed on the side of the door to allow space for your CNC operator.

The cart connects **precisely and easily** to the base.

Quick connect device for easy CNC communication

Image for reference only.

**DON'T WAIT ANY
LONGER, GET YOUR
CNC PRODUCING
24/7 TOO!**
