

1

It Starts With a Simple Problem

I Need to Upload a Video and Share it Ahead
With Select 20 People

So That They Can Just View it in
Their Browser – Without Requiring to
Download the Video

I Can Just Upload the
Video On YouTube

I Can Just Upload the Video on
YouTube – And Share it
Through My Channel

YouTube Is Great For an
Individual – But It Isn't
The Best for Large
Businesses

2

YouTube Takes Away Ownership of My Content

By Uploading Videos on YouTube, You Agree to Give Away Certain Rights to YouTube

So, This May Not be Ideal For Uploading Sensitive Business Data

You Can Just Upload
The Video on Any
Other Video Platform

There are Many Online Paid
Video Platforms that Offer A
YouTube-like Interface – Ideal
for Businesses

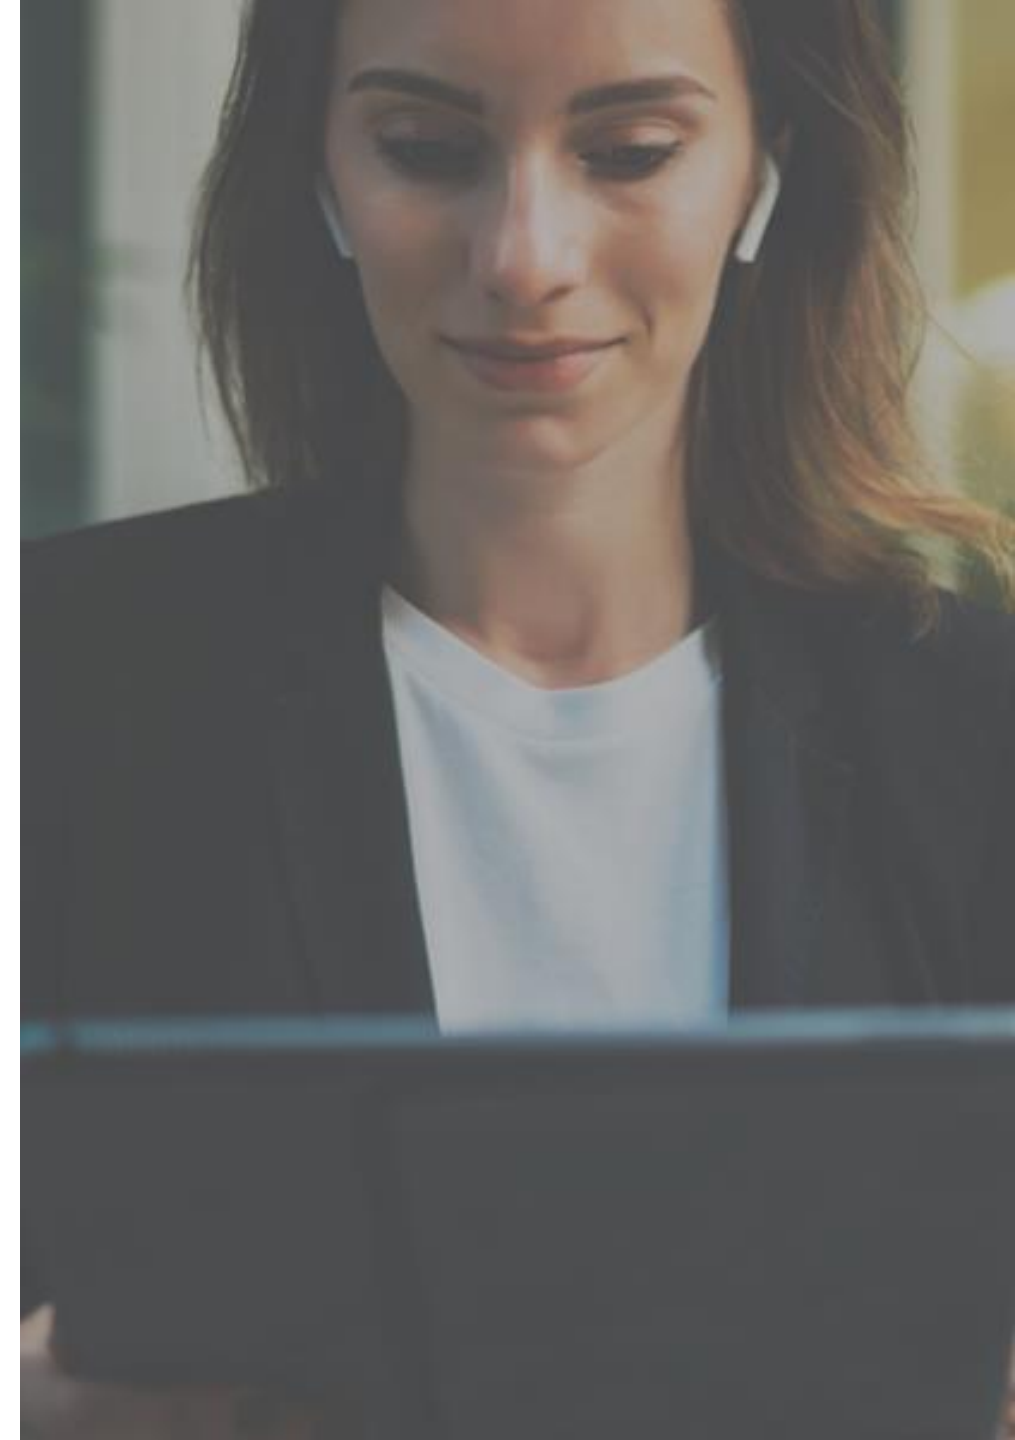

But There Are More
Challenges – It's Not
That Simple!

I Want to Keep My Videos Private

I Don't Want People Outside My Organization to be Able to Access My Videos

I Want My Employees to Login and Then Access All My Videos

4

I Want to Share a Video –
But They Should Only Be
Able to View Once!

My Video is Highly Confidential - I Want
Recipients to Only be Able View the Video
Once

I Don't Want Them to Download it
Either

5

I Work for a US Government Organization –
This Means Data Can't Be Stored Outside My
Special Datacenter

The US Government Requires Me to Store
Videos in Special Azure Government Datacenters

I Want to Store My Videos There and
Not on Any Public Datacenter like
YouTube Does

That Was Just the Tip of the Iceberg!

There Are 100s or Even 1000s of
Video Related Challenges in A Large
Enterprise

So! What is VIDIZMO EnterpriseTube?

VIDIZMO EnterpriseTube is an **Enterprise Video Platform**

At the very basic, VIDIZMO helps you create a private YouTube-like portal for your organization – upload and stream videos with ease
