PARTNER FEATURE

POLY AUDIOVISUAL TECHNOLOGY KEEPS EVERYONE IN SYNC

Working from **anywhere** just got easier with Wachter's newest **AV partnership**.

Polycom has been a leader in audio and video conferencing for decades.

With the acquisition of Plantronics and the formation of **Poly**, Wachter now has another industry-leading tool to **solve our customers' business challenges**.

Simplify communications between teams and customers with Poly technology + Wachter

Poly is a leading manufacturer of **video conferencing** and **voice communications** products.

With today's workforce split between in-office and remote, Poly devices make it easier for team members to stay in sync.

PRODUCTS FOR MEETING SPACES

Keeping everyone connected during meetings starts with Poly technology. Poly's conference room cameras, microphones, and meeting room devices are a perfect fit for any size meeting space.

From small huddle rooms to large conference rooms, Poly has developed scalable products to fit your needs. Make every meeting count with Poly's video conferencing devices.

POLY'S DESKTOP PRODUCTS

Audio quality is crucial for meetings. Laptop speakers and phone audio aren't always reliable for the best audio quality.

Poly has created desk phones, conference phones, Bluetooth speakers, headsets, and headphones that are made to work. Poly's voice products are trendy, easy to use, and most importantly, improve audio quality.

WACHTER & POLY KEEP TEAMS IN SYNC

Wired or wireless, in the workplace or the home office — take Poly with you wherever you work. Let Wachter consult with you and integrate the right Poly products for your business.
