

Join us and shape the future of hospitality today!

EHL's vibrant campuses are a unique hub where passionate students, distinguished academia and industry experts come together from over 120 countries with a common goal: to develop and spread hospitality knowledge, while supporting the continued growth of the industry.

We continuously strive to enhance the working environment and personal development opportunities for our 500+ staff and faculty, who count among the most recognized experts of their respective fields. Since its creation in 1893, EHL has been widely recognized by the industry and consistently ranks among the top hospitality management schools in the world. Everything we do is grounded in our values of excellence, family, respect, learning and innovation and we are committed to bringing them to life in tangible ways to our staff.

EHL Group in a nutshell:

- 2 campuses in Switzerland, 1 in Singapore;
- Diplomas ranging from professional certificates to Masters Degrees, including the best Bachelor's degree in Hospitality Management in the world;
- An innovation village (incubator), which also serves as a "sandbox" for the educational concepts of the future;
- World-class culinary arts, including 5 Meilleurs Ouvriers de France and a Michelin-starred restaurant;
- The integration of new technologies into study programs;
- A global hospitality consultancy arm, EHL Advisory Services;
- EHL Alliance, a business network designed to leverage EHL's resources and knowledge comprised of world-renowned brands and industry leaders.

For our campus in Passugg (Graubunden), we are looking for an:

IT Project Manager (Activity rate 100% - Based in Passugg)

About the role

The Project Manager is in charge of deploying the digital strategy common to the group for our Passugg campus.

He/she will coordinate all digital projects with the stakeholders based on the Passugg campus and work closely with the Digital Services department in Lausanne, to which he/she will report directly.

Your responsibilities

Project responsibility:

- Define the need in close collaboration with the project stakeholders, in perfect alignment with the EHL Group's Digital strategy.
- Elaboration of the plan, including project planning and budget;
- Risk analysis and proactive actions towards the stakeholders and its hierarchy;
- Guaranteeing the quality and availability of specifications and detailed requirements.

Deployment of the project and implementation of user support actions:

- Supervision of the deployment of the new solution or service;
- Organization of the support during and after production launch;
- Coordination of the project approval phases (trainings, organizational changes, support, etc.).

Project management in the field:

- Coordination and animation of the project team;
- Elaboration and update of all follow-up documents;
- project reporting to stakeholders (Steering Committee).

About you

- Higher degree in Informatics or equivalent ;
- Minimum 8 years' experience in IT project management;
- Proven experience in IT project management;
- You are fluent in German (main language on Passugg Campus) and you have an excellent knowledge of French & English (oral and written).

Perks and benefits

EHL Group offers an exceptional benefits program which features free meals, generous paid time off, a free parking spot or employer's contribution towards public transportation as well as staff access to the school's infrastructures and on-site services.

Think you've got what it takes? Please send us your resume and cover letter!
