Quality Control Manager

Assuring Quality at Radwell International, Inc.
 Our Assurance process includes each unit is repaired another calibrated or OEM specifications, all problems have been found, and the unit is tested and accepted internally. The unit is packaged in anti-static container, placed in a signed anti-static ESD bin and sent via overnight shipping directly to you. Shipping charges are included in our price. We do not ship internationally. Items are shipped by air freight direct to your location with no intermediate stopovers. Shipping insurance per unit for the proper shipping container - your equipment. If this unit was not repaired, we may have a replacement in stock.
 Please contact Customer Satisfaction Manager - John Radwell at 800.332.4336, 609.288.0931, Ext. 838 or email: jradwell@radwell.com

TX - Radwell International • 5461 Ave. E East • Arlington, TX 76011 • Phone 800-332-4336

The vast majority of companies don't keep spares on the shelf. So when a machine fails, there is an urgency regarding turnaround time. Exchanges (AEX's) can reduce the downtime. We also will strive to have a large selection of pre-certified parts on our shelves to respond to customer needs when time is extremely critical.

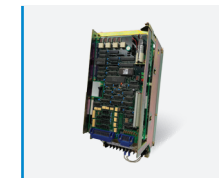

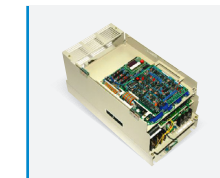

POPULAR MANUFACTURERS

We have testing capabilities for all brands
