CLOUD ERP
QUICK*START*

Cloud ERP Quick Start is designed to help you get up and running quickly with Acumatica by using common settings and parameter values. Your system will be prepared and, upon the initial delivery, ready for you to enter your data such as customers, inventory, vendors, and other key items needed for day to day activities.

The initial delivery of the system includes executing example transactions to help you learn the basics of Acumatica. The Quick Start coupled with Free Acumatica University is a low-cost way for you to start benefiting from your system purchase.
