Poseidon Cold Water Trichome Refining

100-200 lbs per hour

304 Stainless Steel Construction

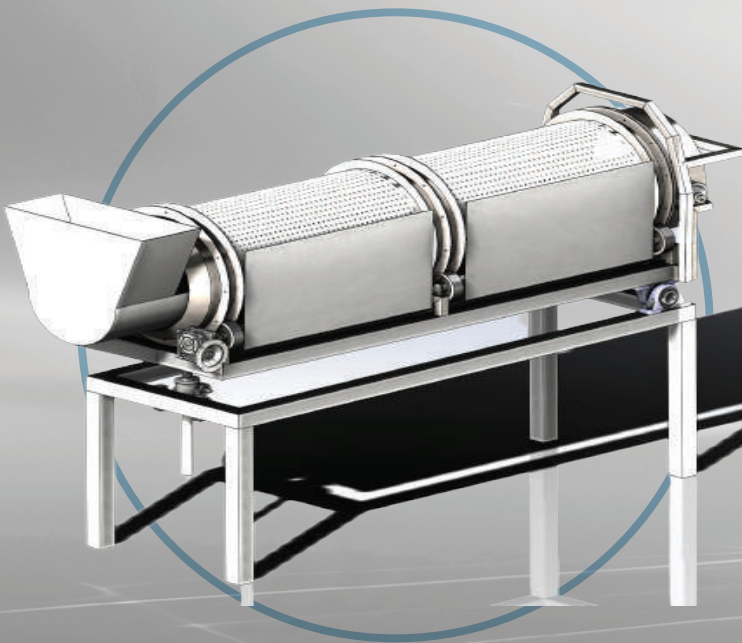

Automatic UltraVibe Filtration

Closed Loop Water Chilling

Pitch Controlling

Key Equipment Features:

- Up to 80% biomass reduction through Trichome Refinement
- No liquid nitrogen required
- Automatic Filtration from 200 to 25 microns
- Optimized for fresh or dried biomass
- Low cost of operation
- Increase your ethanol efficiency
- Automatic biomass handling
- 100-200+ pound per hour processing
- 304 stainless steel on all product contacting surfaces
- Integrated internal mixing paddles with optional agitation balls
