

Santa Clara Valley Open Space Authority Seven Districts 2022 Redistricting Plan 2B¹

Notes

This redistricting plan (Plan 2B) has a lower maximum population deviation than Plan 2A.

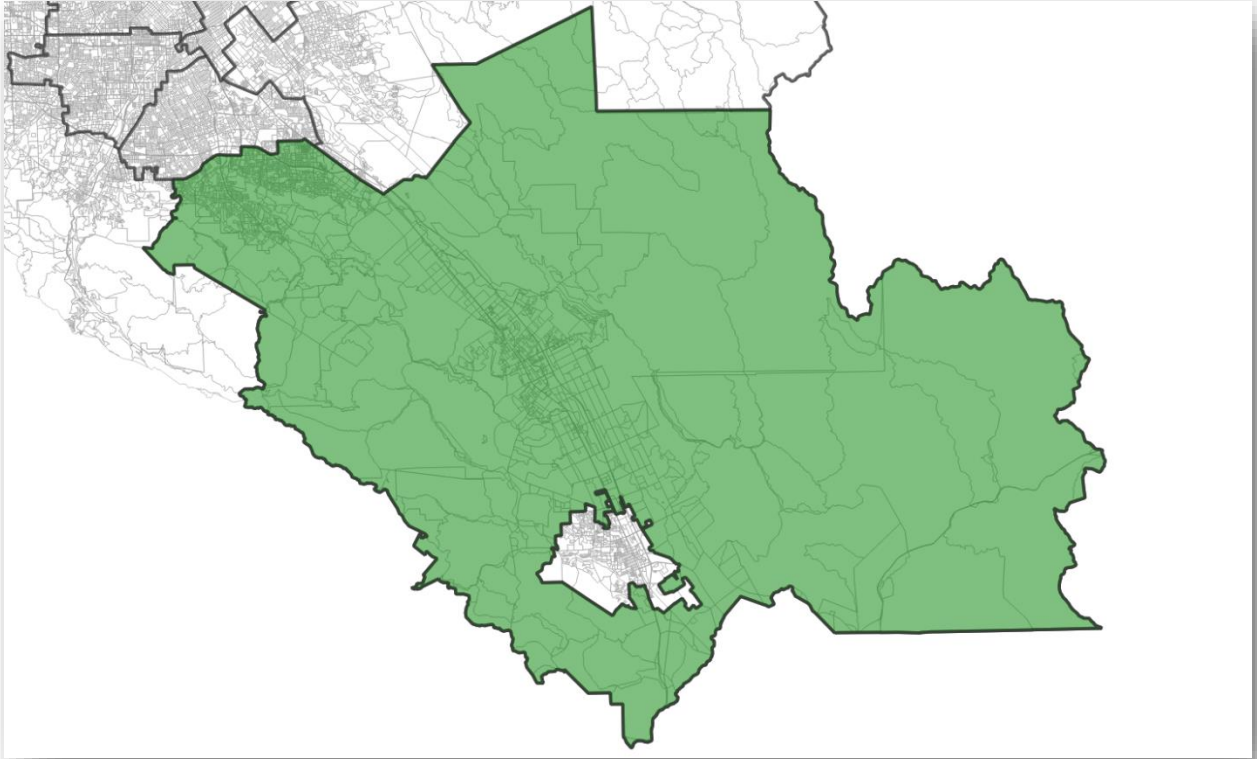

Census designated place (CDP) Burbank and the San Jose Buena Vista neighborhood would be in District 4. By comparison Draft Plans A, B, C, and C2 split the Burbank community at West San Carlos Street.

With Plan 2A and at present CDP Burbank is divided between Districts 3 and 4 at Interstate 280 (The portion of CDP Burbank which is south of Interstate 280 has a zero Census 2020 human population.). With Plan 2A the San Jose Buena Vista neighborhood would remain in District 3.

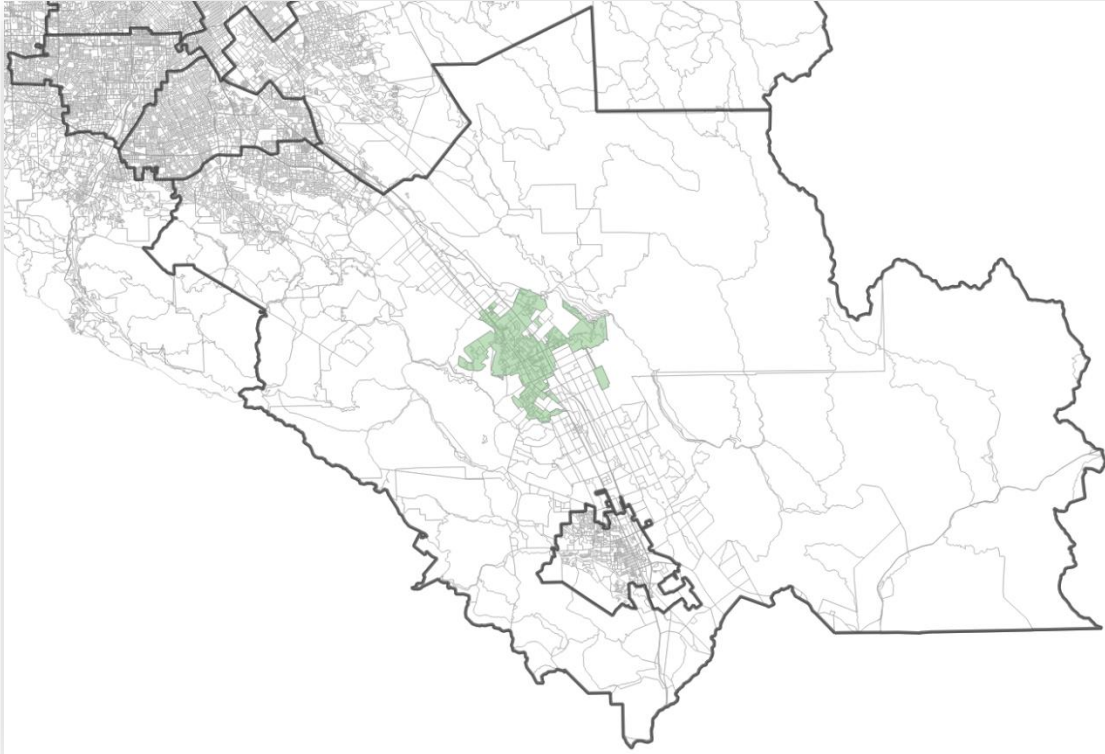

Some of the boundary representations in this presentation are approximate.

¹ Presented by James Nakamura

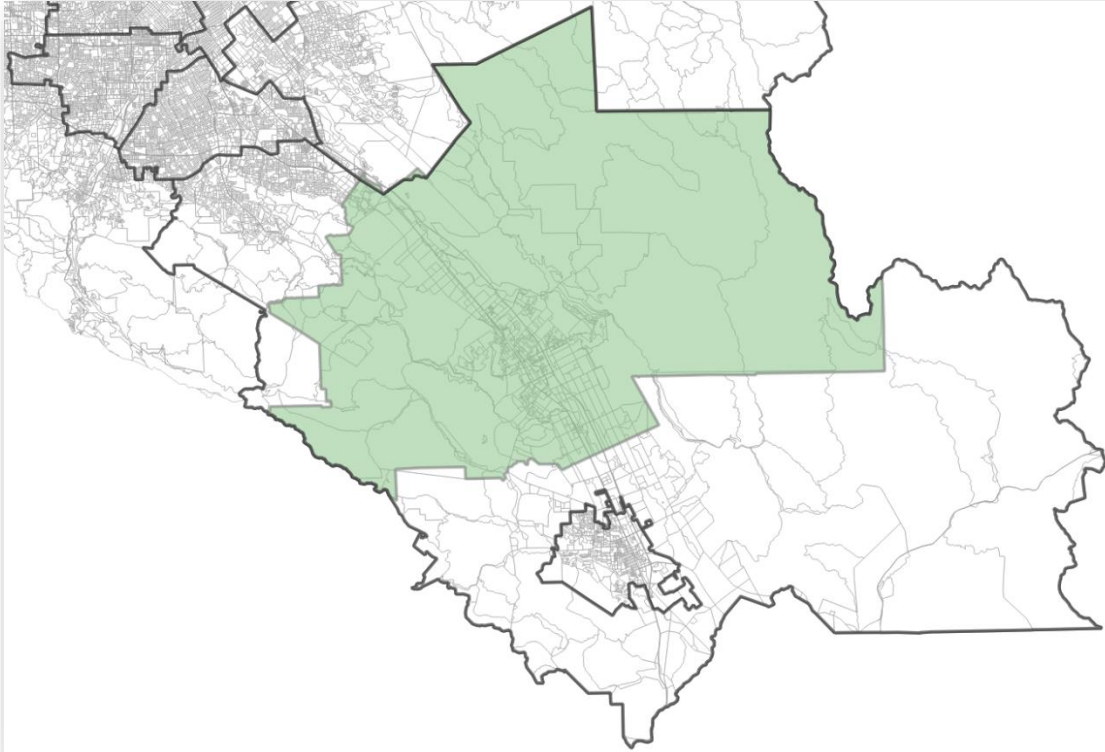

District 1

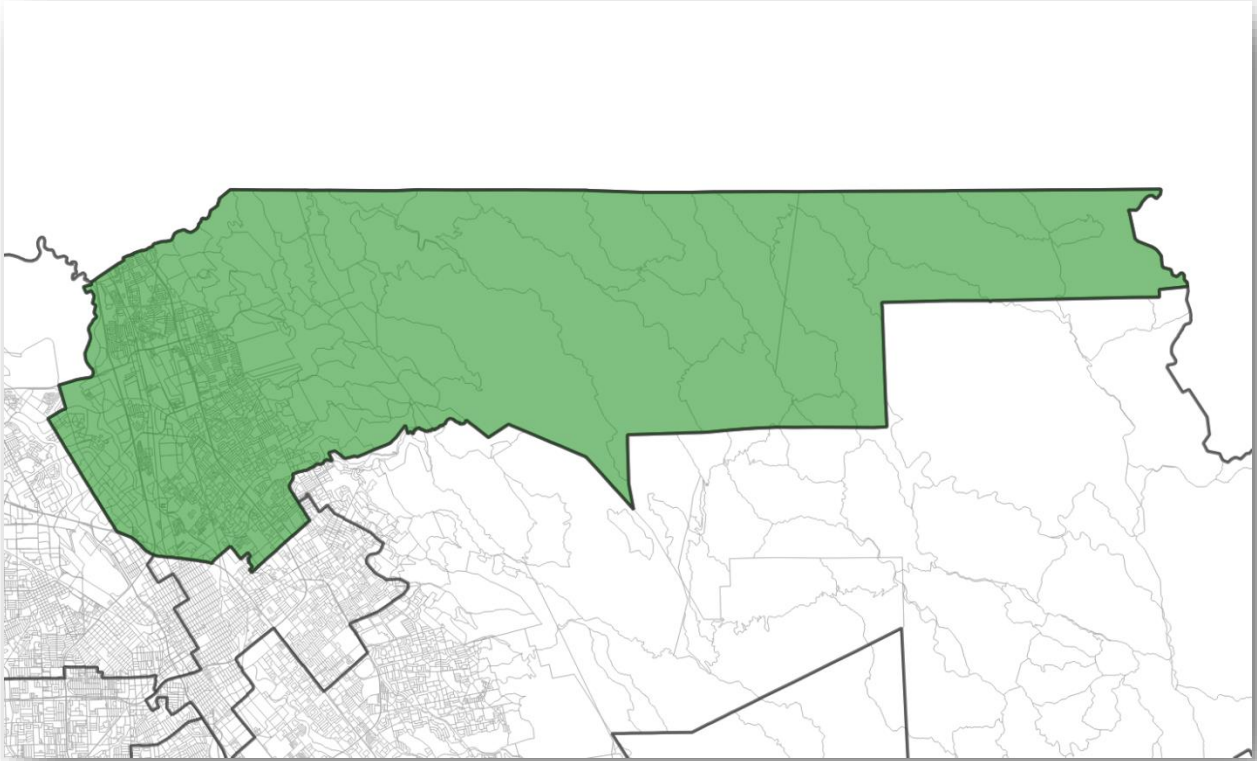

District 1 and the City of Morgan Hill

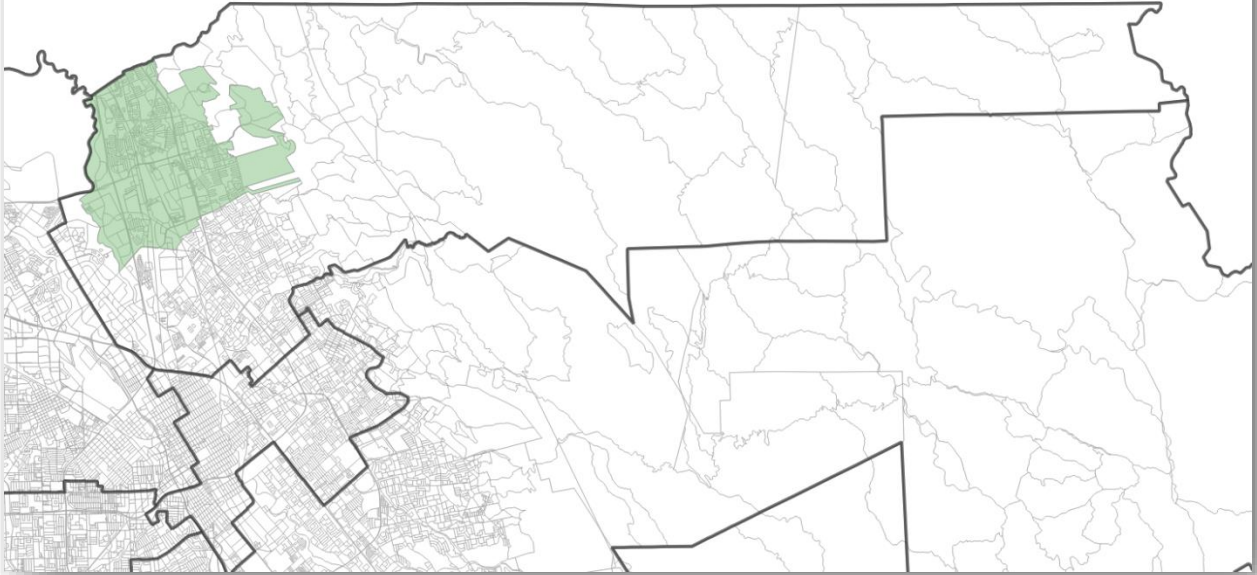

District 1 and the Morgan Hill Unified School District Area

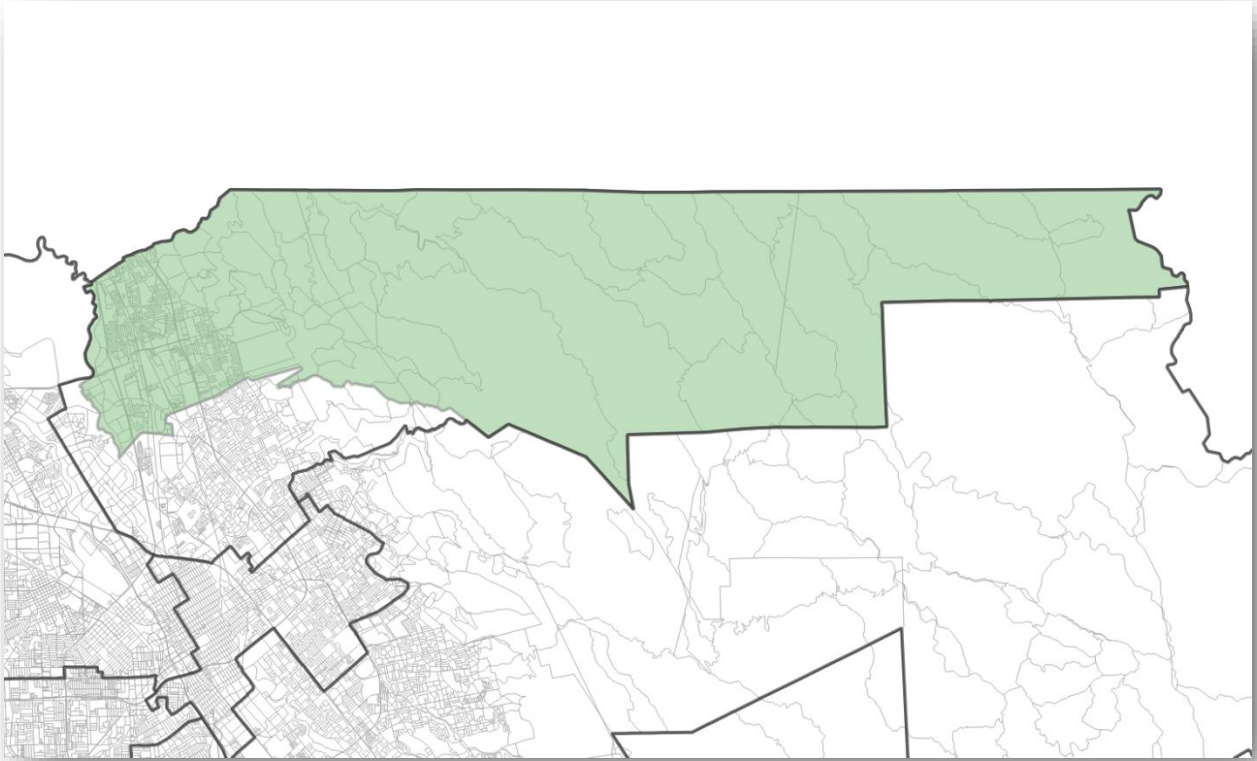

District 2

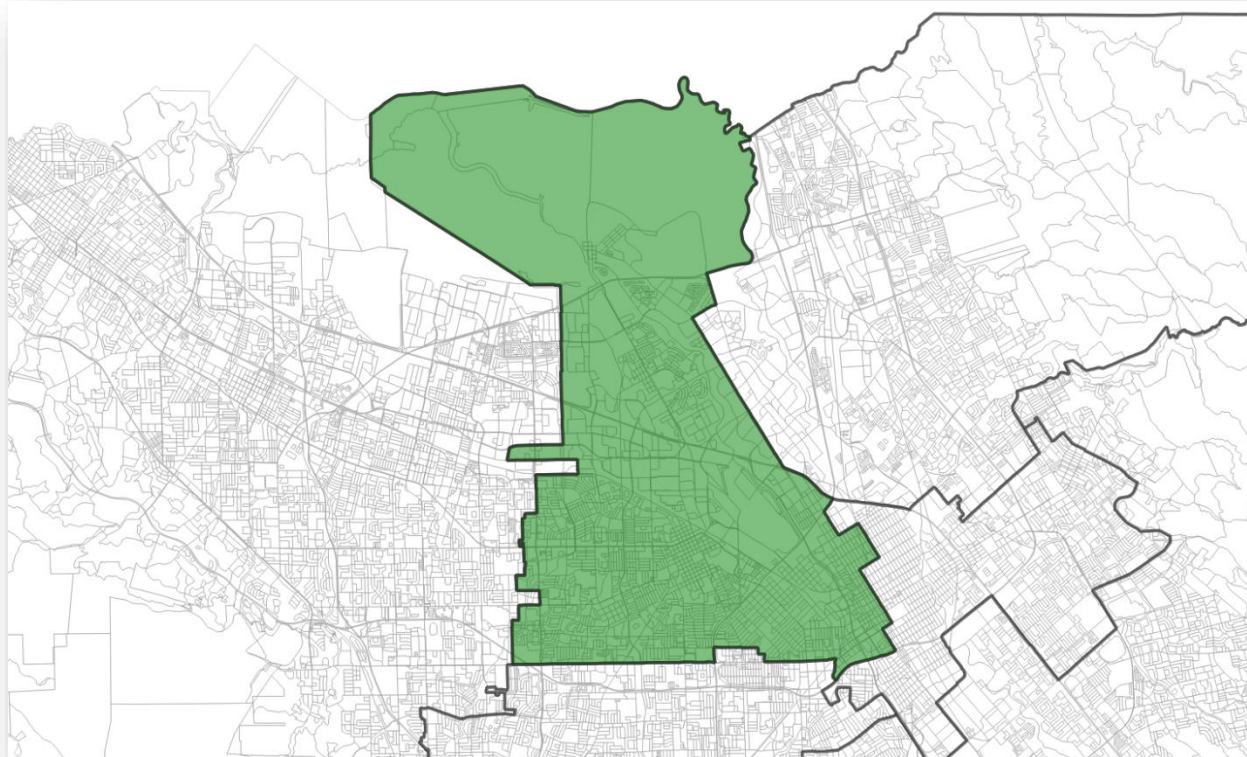

District 2 and the City of Milpitas

District 2 and the Milpitas Unified School District Area

District 3

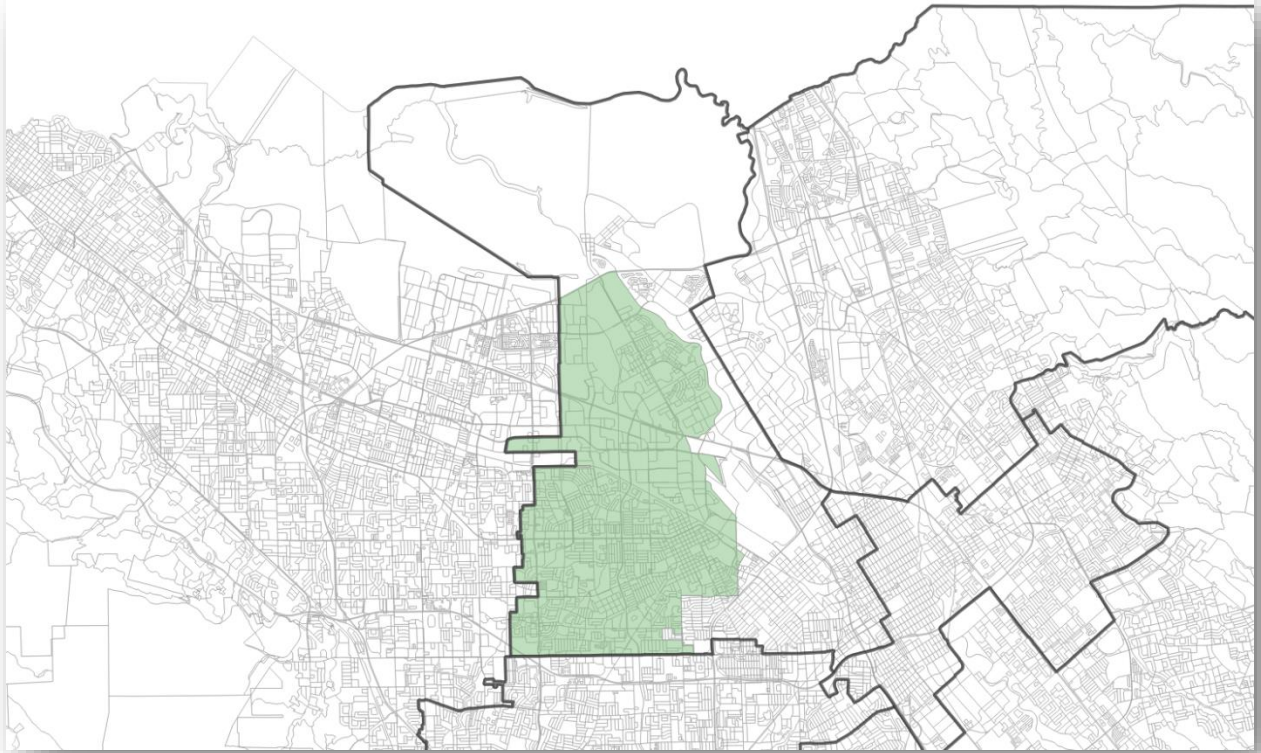

San Jose's Cory and Delmas Park neighborhoods and San Jose's Japantown area would be in District 3. With Draft Plan C2 each of these three areas would be divided between two districts. Draft Plans A, B, C, and C2 split the Japantown area between Districts 3 and 6; at present the Japantown area is in District 3.

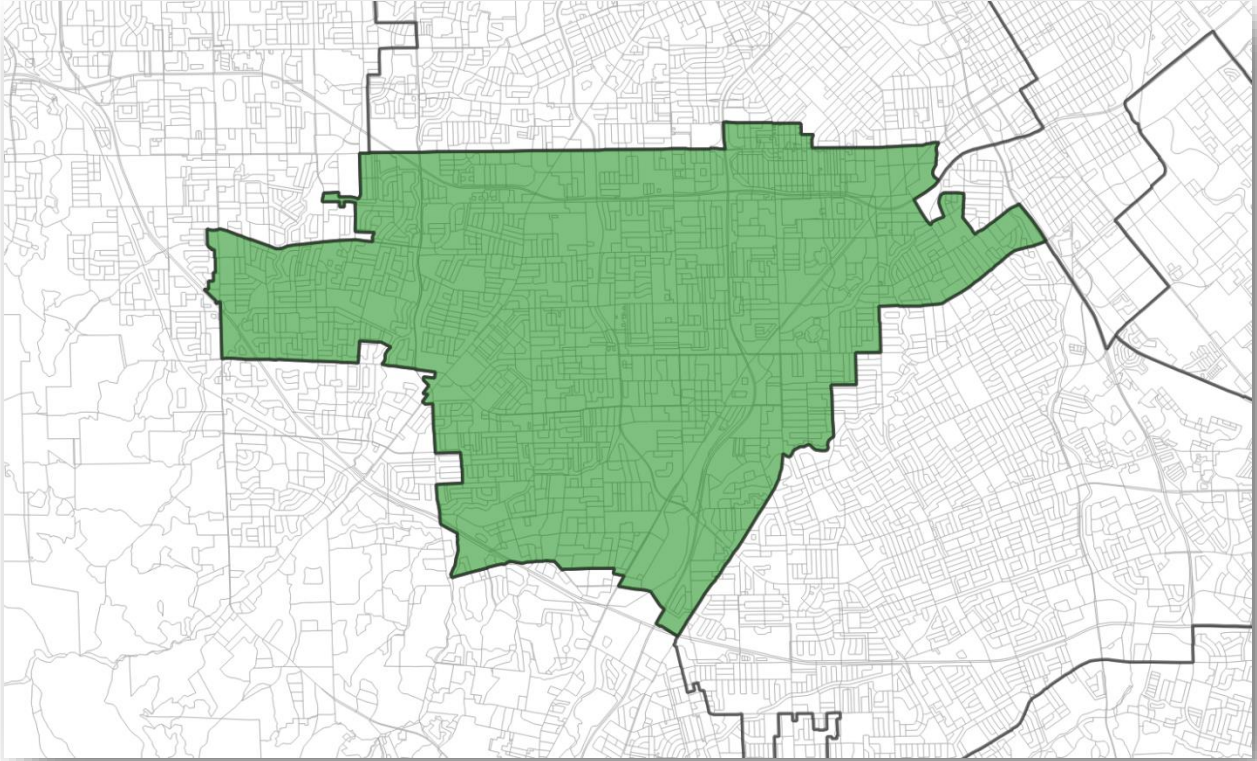

The Valley Fair shopping center would be in District 3. At present the Valley Fair shopping center is in District 3; with Draft Plans A, B, C, and C2 Valley Fair would be in District 4.

While it seems that most of Valley Fair is in San Jose, part of Valley Fair is in the City of Santa Clara; thus, having the City of Santa Clara completely in one district may split Valley Fair between two districts. Having all of Valley Fair in one district may split the City of Santa Clara between two districts.

District 3 and the City of Santa Clara

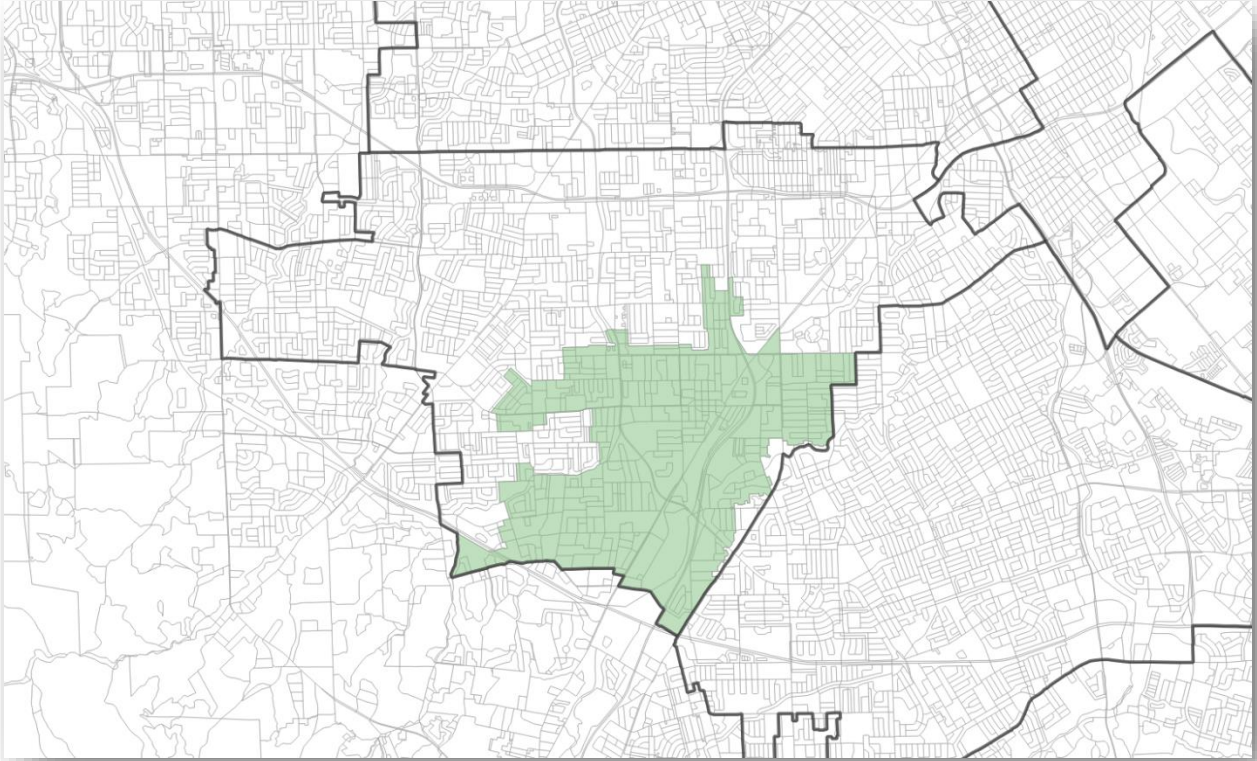

District 4

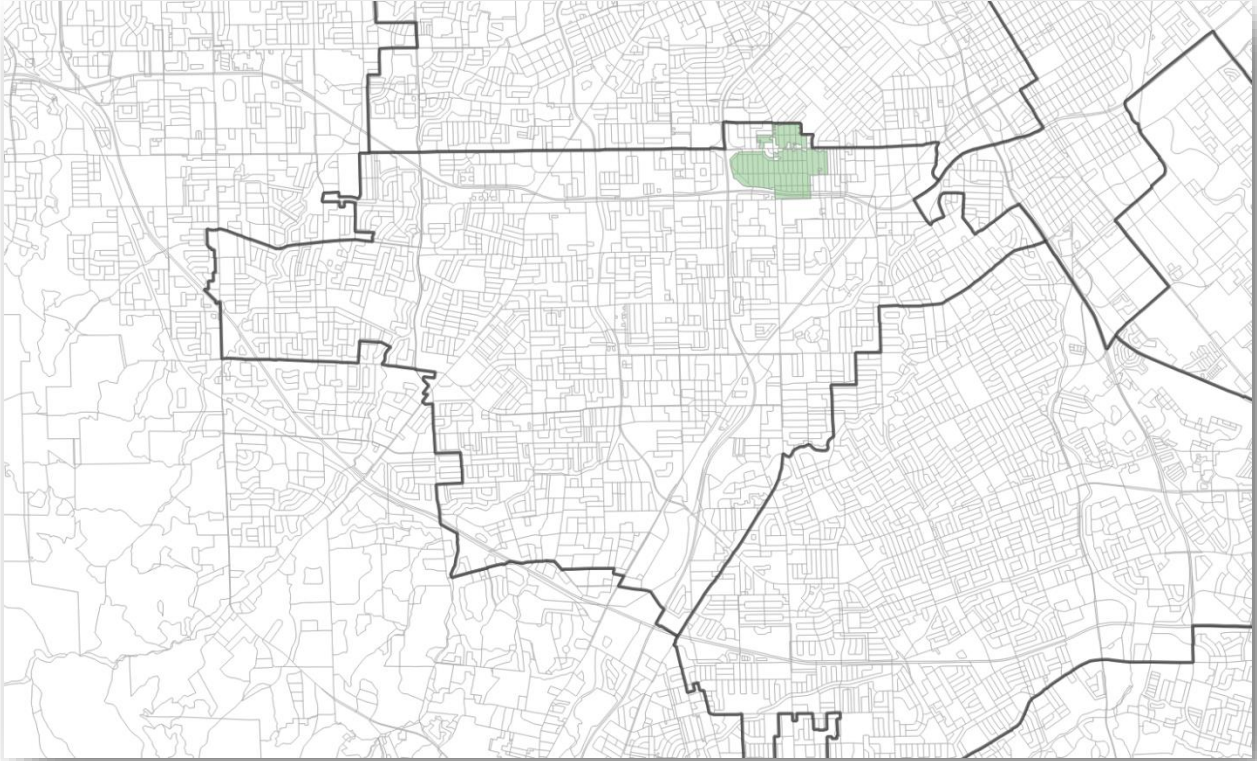

CDP Burbank and the San Jose Buena Vista neighborhood would be in District 4. Draft Plans A, B, C, and C2 divide the Burbank community at West San Carlos Street.

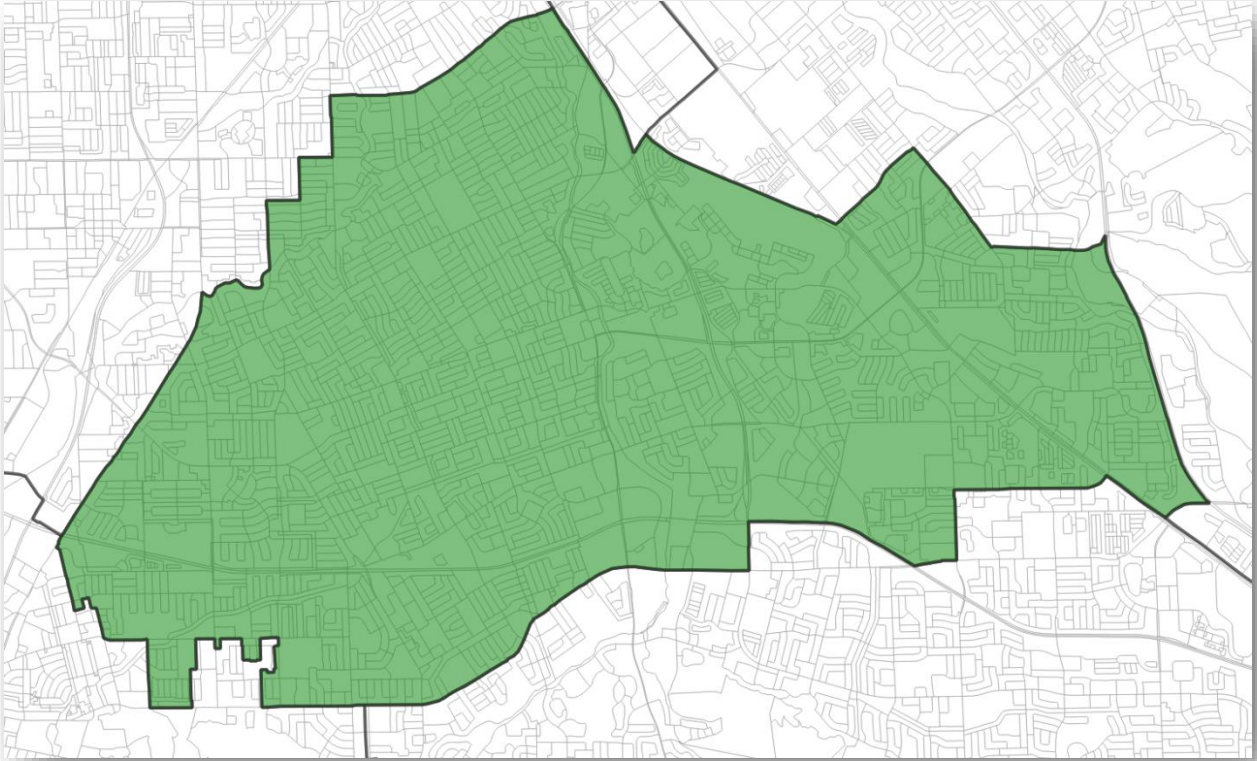

District 4 and the City of Campbell

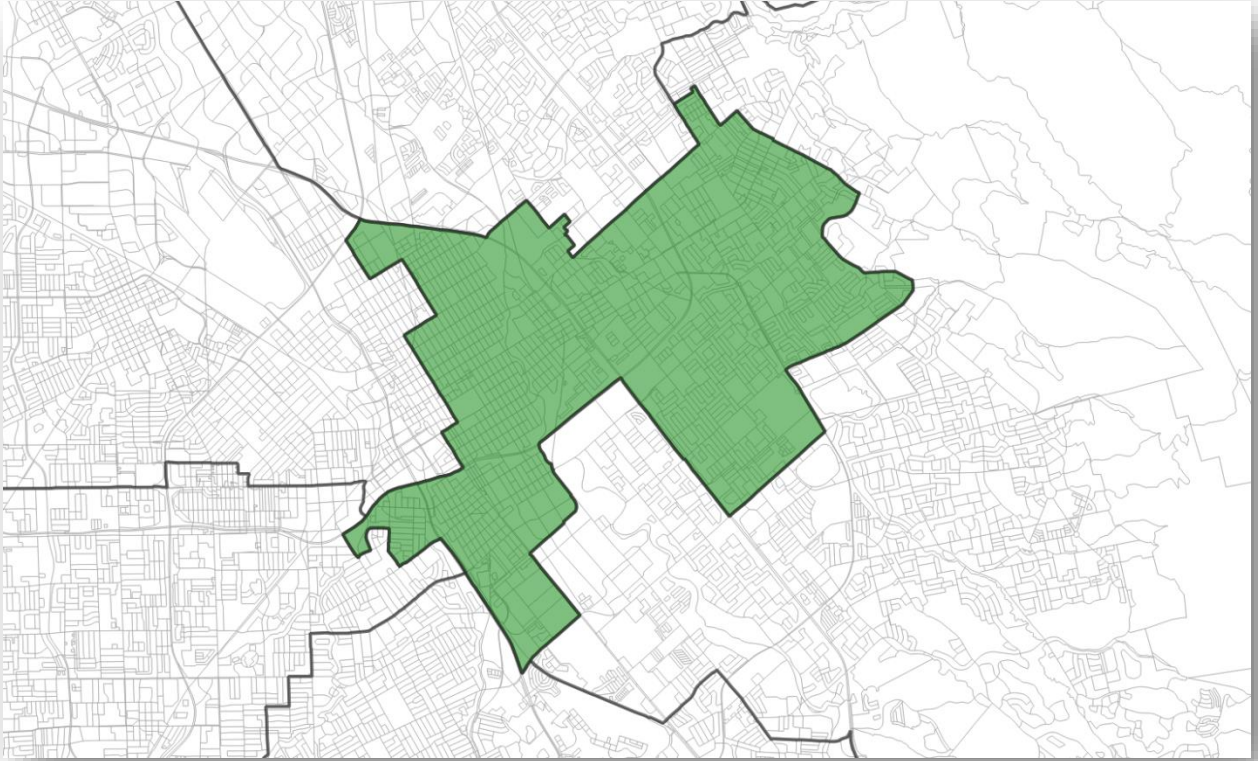

District 4 and Census Designated Place Burbank

District 5

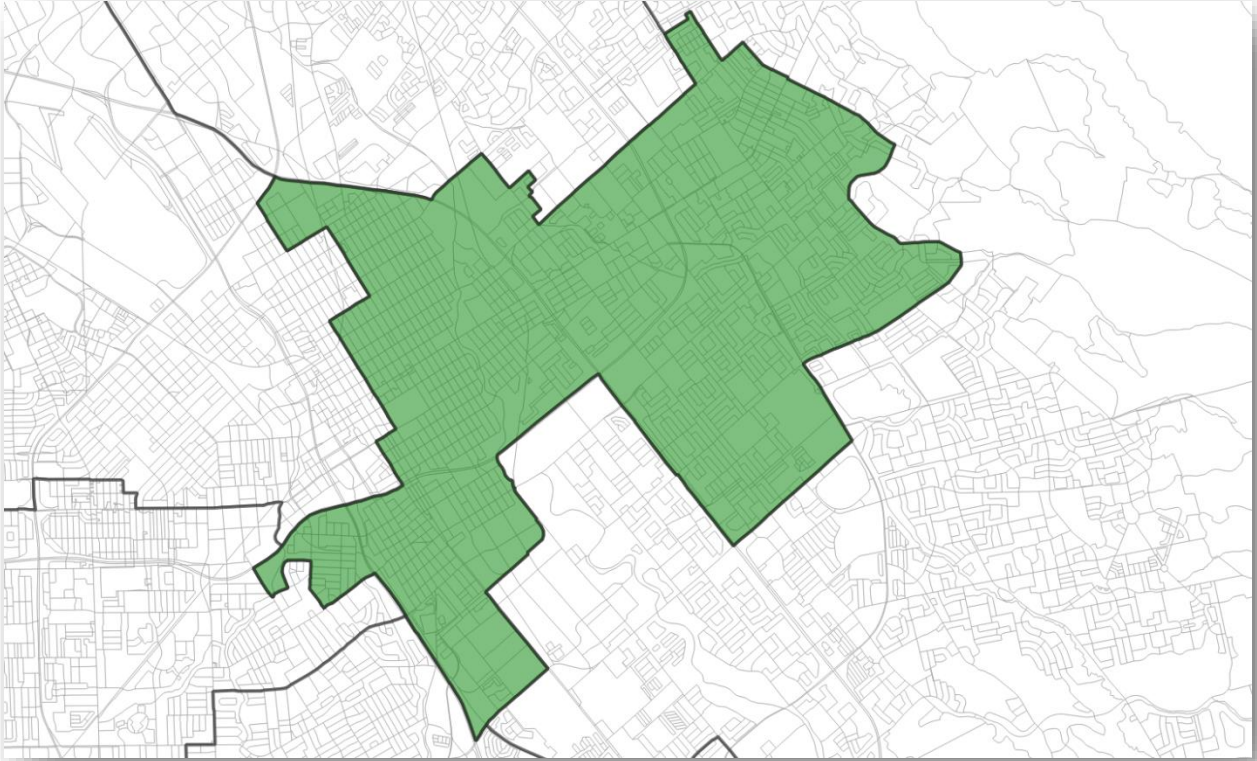

District 6, Map #1

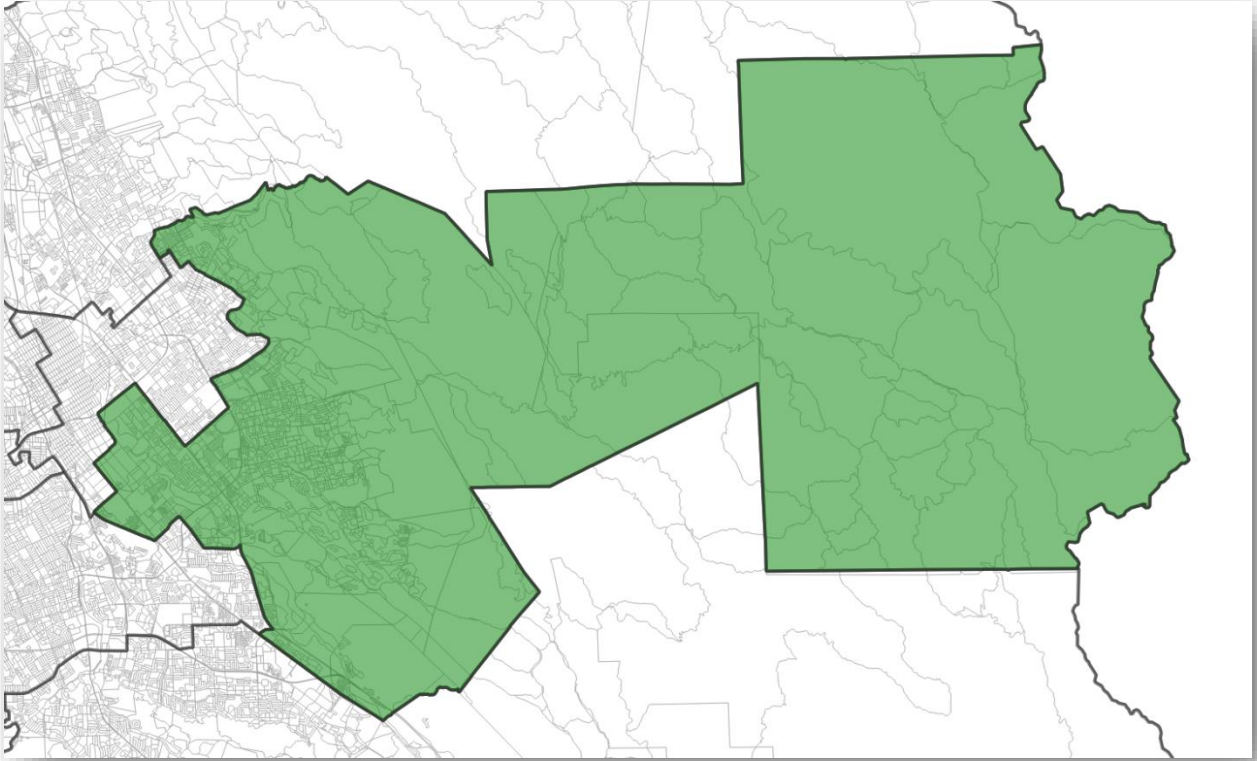

San Jose's Japantown area would be in District 3 (With Plans 1A and 2A the Japantown area would be in District 3.). By comparison Draft Plans A, B, C, and C2 split the Japantown area between Districts 3 and 6.

District 6, Map #2

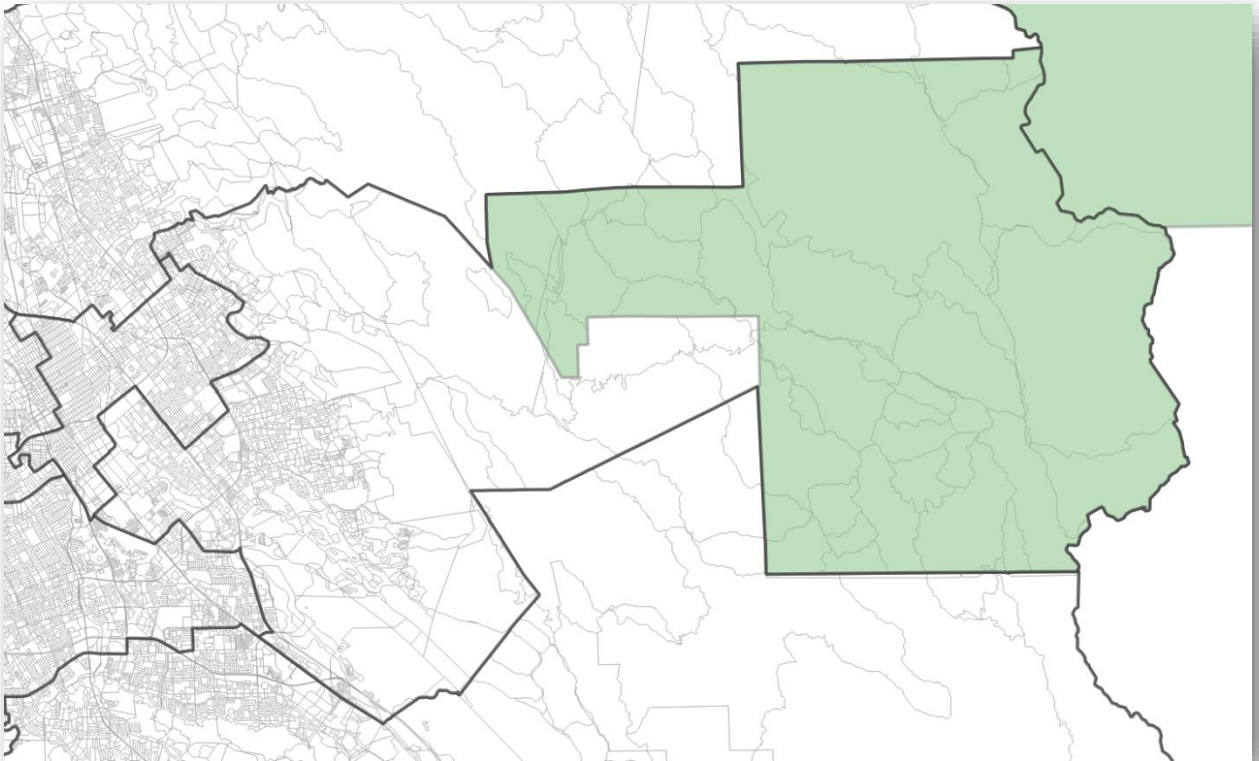

District 7

The Evergreen area Eastridge shopping center and the Evergreen area Lion Plaza shopping center, which is home to many Vietnamese American businesses, are both in District 7 at present; both would be in District 7 with Plans 1A, 2A, and 2B. By comparison with Draft Plans A, B, C, and C2 shopping centers Eastridge and the Lion Plaza would be in District 6 (The portion of the Eastridge and Lion Plaza census tract 5033.05 which would be in District 6 rather than in District 7 with Draft Plans A, B, C, and C2 has a Census 2020 Asian majority; while District 6 needs to add population, there are other alternatives.).

District 7 and the Patterson Joint Unified School District Area²

Notes

The representations of city areas and school district areas in this presentation should not be regarded as definitive. It seems that U.S. Census Bureau representations of school districts areas should be regarded as approximate rather than exact.

The author of this presentation does not guarantee the accuracy of the information in this presentation.

Presented by James Nakamura

² The entirety of the Patterson Joint Unified School District area is not shown.
