

## THE REVENUE CYCLE ENGINE

# Improve Staff Efficiency with Custom Automated Rules

Create custom, highly tailored rules yourself — no need to submit a request. Reduce customer claim holds and free up staff time by leveraging our unique autocorrect capability.

### REDUCE CLAIM HOLDS WITH AUTOCORRECT

Quickly and easily create rules that automatically correct billing and coding issues to reduce customer claim holds.

#### You can create highly custom rules by:

- Payer
- Location
- Provider
- CPT code
- Dx code
- And more!

### FREE UP STAFF

Your staff shouldn't be spending valuable time correcting the same issues over and over again. In addition to autocorrecting routine errors, the Revenue Cycle Engine directs charges that require manual review to coders, so your team can focus their efforts where they're needed most.

### BOOST REVENUE

Improve AR days by ensuring fast, accurate payment with custom rules that meet your unique payer and administrative requirements. Reduce denials with a consistent, automated review process.
