VIDEO COLLABORATION
SOLUTIONS

ENHANCE COLLABORATION

Logitech solutions empower workplace collaboration. We help teams collaborate from anywhere, without compromising on productivity or continuity.

At Logitech, our goal is to make video meetings accessible and affordable to every business and every individual, without sacrificing quality. We want to video-enable every meeting room, every workspace, and every home. This is the future of work. Work that is more engaging, flexible, and collaborative on any platform. Work that helps people make a real connection, wherever they are in the world.

Ensuring business continuity, employee welfare and workforce productivity are all top priorities for companies of all sizes. Logitech devices combined with your preferred cloud conferencing provider allow your team to safely collaborate and gain speed to decision-making through high-quality meeting experiences from any location.

Our people-first mindset is why we're loved by end-users and the first choice of IT leaders. With beautifully simple and scalable solutions at affordable prices, we continually raise the bar on customer experience.

Our product philosophy goes beyond look and feel—we craft every aspect of the customer experience. Our channel partnerships run wide and deep, which means our customers have no constraints in how they choose to purchase our products on a global basis. From acquiring and installing a single video conferencing solution to managing a global video deployment, Logitech customers enjoy convenient, frictionless experiences.

LOGITECH SMALL ROOM SOLUTIONS WITH MEETUP AND TAP

Designed for huddle rooms and other smaller spaces, Logitech Small Room Solutions for Google Meet, Microsoft Teams and Zoom include everything you need for video meetings. These solutions come pre-configured with a Logitech MeetUp conferencecam, an approved mini PC, a PC mount with cable retention, and the Logitech Tap touch controller.

Key Benefits

- MeetUp conferencecam mounts neatly above or below the display to save space
- Room solutions with Logitech Tap deliver calendar integration, touch-to-join, instant content sharing, and always-on readiness
- Integrated Logitech RightSound® technology enhances voice clarity, and with RightSight™ computer vision, MeetUp automatically frames people in the room.
- Logitech Sync makes it easy to support MeetUp in all of your rooms while minimizing site visits and trouble tickets. Sync also surfaces actionable room occupancy data to help you make the most of your collaboration spaces and technologies.
- When you add Logitech Swytch, users can connect a laptop to a room system’s AV equipment to run any video meeting or webinar service

Contact your local reseller or visit www.logitech.com/tap for more information on purchasing this bundled solution.

LOGITECH MEDIUM ROOM SOLUTIONS WITH RALLY AND TAP

As rooms get bigger, tables grow longer and people sit farther from the camera. Logitech Medium Room Solutions for Google Meet, Microsoft Teams and Zoom are tailored to suit this environment. These solutions come pre-configured with a Logitech Rally conferencecam, an approved mini PC, a PC mount with cable retention, and the Logitech Tap touch controller.

Key Benefits

- Rally conferencecam pairs an advanced ultra-HD camera with modular audio that scales to support a wide range of room sizes and layouts.
- Room solutions with Logitech Tap deliver calendar integration, touch-to-join, instant content sharing, and always-on readiness
- Integrated Logitech RightSound® technology enhances voice clarity. Logitech RightLight™ technology optimizes light balance to emphasize faces, and with RightSight™ computer vision, Rally automatically frames people in the room.
- Logitech Sync makes it easy to support Rally in all of your rooms while minimizing site visits and trouble tickets. Sync also surfaces actionable room occupancy data to help you make the most of your collaboration spaces and technologies.
- When you add Logitech Swytch, users can connect a laptop to a room system’s AV equipment to run any video meeting or webinar service

Contact your local reseller or visit www.logitech.com/tap for more information on purchasing this bundled solution.

ALL ROOMS

JOIN ANY MEETING FROM EVERY ROOM

Logitech Swytch is a BYOM (bring your own meeting) laptop link for video conferencing in meeting rooms, linking a Windows® 10 laptop, MacBook®, or Chromebook to the room's AV equipment with a single USB Type A or C connection.

Swytch works in rooms with a dedicated computer — including Microsoft Teams Rooms and Zoom Rooms — and in BYOM rooms equipped with a only conference camera and display. Simply connect Swytch to the laptop via USB and launch the desired application to enjoy broadcast-quality video and content sharing at up to 4K resolution. With a one-cable laptop link to a meeting room's AV devices, Logitech Swytch makes every room ready for any meeting.

PTZ CAMERA SOLUTION

Perfect for bigger spaces with a larger number of participants, the Logitech Rally PTZ Camera can capture an entire space in detail, while still offering the ability to focus on details—like the presenter, panelists, whiteboards or individual participants.

RALLY CAMERA

Premium PTZ camera with Ultra-HD imaging system and automatic camera control

PERSONAL COLLABORATION SPACES

LOGITECH PERSONAL VIDEO COLLABORATION KITS

Making a video call in personal workspace requires avoiding distractions and staying in control of what viewers can see. Logitech personal collaboration solutions can turn any desktop into an instant collaboration space.

Logitech Personal Video Collaboration Kits empower dispersed teams to stay engaged and aligned from wherever they work. Each kit features a headset and webcam—delivering studio-quality audio and life-like video for maximum collaboration and peak productivity.
