SUMMER 2020

bennett day camp

BENNETT DAY CAMP AT-HOME

This summer, Bennett Day Camp will provide families with tools and resources that empower children to explore, play, and foster their sense of adventure at home.

For each week of camp, families will receive an all inclusive Camper Box with materials, projects, and traditional summer camp activities. Campers will have the opportunity to socialize with their fellow campers in small group activities and receive guided instruction on camp projects. In addition, campers will have hours of access to our counselor-staffed help desk.

All virtual, on-screen elements are optional, giving families the ability to opt for 'screen-less' summer camp. Select the camp that most aligns with your camper's interests. For younger campers (ages 3-4), consider our Junior Camper Box that will include age appropriate materials and inspiration for summer fun!

BENNETT DAY CAMP ON-CAMPUS

Should an opportunity arise to allow campers back on campus, those participating in At-Home Camp will have the first opportunity to register. On-Campus Camp will follow all local guidelines to ensure camper safety. Campers will bring their Camper Boxes to camp and participate in programming together. Additional fees may apply.

PRICING

| | |
|-------------------|------------|
| Junior Camper Box | \$100 |
| At-Home Camp | \$250/week |
| On-Campus Camp** | \$500/week |
| Siblings | 10% off |

***On-Campus Camp will only be available if we have an opportunity to allow campers back on campus. On-Campus Camp will follow all local guidelines to ensure camper safety.*

email: summercamp@bennettday.org
website: bennettday.org/summer-camp

BENNETT DAY CAMP AGES 3-4

JUNIOR CAMPER BOX

\$100

Our Junior Camper Box will include age appropriate materials and inspiration for summer fun! Campers will be invited to Friday morning dance parties led by Bennett Day School Teacher and Camp Counselor, Ms. Okuda, all summer long.

BENNETT DAY CAMP AGES 5-7

GARDEN ADVENTURES

WEEK 1: June 15-19 | At-Home \$250 On-Campus \$500**

Garden Adventures Camp blends art, science, and nature into a fun and educational experience! Campers will learn about growing techniques, crops, insects, and urban farming. Gardens can be adapted into whatever space you have available -- from a window sill to a full backyard plot! All materials are included in this week's Camper Box.

STEM TALES

WEEK 2: June 22-26 | At-Home \$250 On-Campus \$500**

STEM Tales Camp explores the science within classic stories. Every wonder if the 3 little pigs could have made a structurally sound house out of sticks? What if the hare had built an alarm clock powered by a lemon - could he have woken in time to defeat the tortoise? Use our materials and projects to bring literacy and science together. All materials are included in this week's Camper Box.

BENNETT ART - PAINTING & DRAWING

WEEK 2: June 22-26 | At-Home \$250 On-Campus \$500**

Bennett Art Camp projects provide structure while allowing campers to apply their own creativity to each piece. Fundamental techniques and experimental methods are blended to provide campers with ample opportunity to create and learn. Expect a lot of masterpieces during this week of camp which dives into drawing and painting. All materials are included in this week's Camper Box.

SCIENTIFIC REACTIONS

WEEK 3: June 29-July 3 | At-Home \$250 On-Campus \$500**

Campers will make things fizzle, foam, and pop during Scientific Reactions Camp! Scientists will explore all of the steps of the scientific method, experiment with a variety of reactions, and make a little bit of a mess! All materials are included in this week's Camper Box, including mess mats for easy clean up.

BENNETT ART - CHICAGO ART

WEEK 3: June 29-July 3 | At-Home \$250 On-Campus \$500**

Bennett Art Camp projects provide structure while allowing campers to apply their own creativity to each piece. During this camp, we will explore how art has shaped the city of Chicago over time. What we learn will influence our work in various mediums (paint, clay, sketch, music). As the week progresses, we will create a virtual gallery for family and friends to see our hard work. All materials are included in this week's Camper Box.

SPACE CAMP

WEEK 4: July 6-10 | At-Home \$250 On-Campus \$500**

Bennett Space Camp is back and ready to blast off! This camp incorporates art, science, and physical play to explore all of the elements of space. Camp activities include space experiments, rocket building, and even designing your own planet. All materials are included in this week's Camper Box.

BENNETT ART - MULTIPLE MEDIUMS

WEEK 4: July 6-10 | At-Home \$250 On-Campus \$500**

Bennett Art Camp projects provide structure while allowing campers to apply their own creativity to each piece. Fundamental techniques and experimental methods are blended to provide campers with ample opportunity to create and learn. Expect a lot of masterpieces during this week of camp which focuses on using a wide range of mediums. All materials are included in this week's Camper Box, and campers will showcase their art in a virtual gallery throughout the week.

DINOSAUR CAMP

WEEK 5: July 13-17 | At-Home \$250 On-Campus \$500**

Dinosaur Camp incorporates art, science, and physical play to explore all of the elements of Dinosaurs! Camp activities include fossil uncovering, dino-themed cooking, and arts and crafts. This week will bring the feeling of traditional camp to your backyard! All materials are included in this week's Camper Box.

PHOTOGRAPHY CAMP

WEEK 5: July 13-17 | At-Home \$250 On-Campus \$500**

It's time to look through a new lens. During Photography Camp, campers will work on projects that help develop their photography portfolio. Daily photography challenges will teach fundamental concepts such as composition, lighting, framing, and more. Campers will have opportunities to explore digital editing throughout the week. All materials are included in this week's Camper Box, with the exception of a camera.

ALL ABOUT ANIMALS

WEEK 6: July 20-24 | At-Home \$250 On-Campus \$500**

All About Animals Camp incorporates art, science, and physical play to explore our favorite animals! Camp activities include creating blankets for local animal shelters, learning about animals in our ecosystem, creating habitats, and more. This week will bring the feeling of traditional camp to your backyard! All materials are included in this week's Camper Bo.

GAME PLAY & DESIGN

WEEK 6: July 20-24 | At-Home \$250 On-Campus \$500**

Calling all gamers! Game Play & Design Camp will give campers the opportunity to research, design, and develop their own game. We'll explore board games, board-less games, RPGs, e-sports, and more. Campers will be able to play games with other campers (with supervision from counselors), and spend time independently developing their own games to play at home with their family. All materials are included in this week's Camper Box, with the exception of a computer/laptop/iPad.

BENNETT DAY CAMP AGES 5-7

BENNETT ART - MULTIPLE MEDIUMS

WEEK 7: July 27-31 | At-Home \$250 On-Campus \$500**

Bennett Art Camp projects provide structure while allowing campers to apply their own creativity to each piece. Fundamental techniques and experimental methods are blended to provide campers with ample opportunity to create and learn. Expect a lot of masterpieces during this week of camp which focuses on using a wide range of mediums. All materials are included in this week's Camper Box, and campers will showcase their art in a virtual gallery throughout the week.

BENNETT ART - CLAY

WEEK 8: August 3-7 | At-Home \$250 On-Campus \$500**

Bennett Art Clay Camp will introduce students to clay with basic hand-building techniques. Projects involve unique functional and sculptural works designed to exercise each camper's imagination. Independent thinking and problem-solving is encouraged every step of the way! Campers will work on creating sculptures, bowls, cups, beads for jewelry, and more. All materials are included in this week's Camper Box.

YOUNG ARCHITECTS

WEEK 8: August 3-7 | At-Home \$250 On-Campus \$500**

This week-long dive into physics, architecture, and structural engineering will keep campers engaged and ready to design. Campers will have a daily building challenge and will work with multiple facets of design concepts. From city layouts to structural bridges, we'll encourage campers to think outside the box. All materials are included in this week's Camper Box.

ROBOTICS & CODING

WEEK 9: August 10-14 | At-Home \$250 On-Campus \$500**

Principal coding concepts are reviewed in this camp which allows campers to explore mechanics, circuitry, and coding through projects, games, and select toys. Step by step guides will keep campers engaged and learning! All materials are included in this week's Camper Box, with the exception of a computer/laptop/iPad.

JEWELRY MAKERS

WEEK 10: August 17-21 | At-Home \$250 On-Campus \$500**

It's time to make some art! This camp focuses on jewelry throughout history and it's cultural impact. We'll learn to make clay beads, make a statement with homemade buttons, work on fine motor skills with silk knot necklaces and more! All materials are included in this week's Camper Box.

BENNETT DAY CAMP AGES 8-11

ENGINEERS OF TOMORROW

WEEK 1: June 15-19 | At-Home \$250 On-Campus \$500**

For every problem there is a solution, and behind every solution, there is an engineer who designed it! We'll focus on the creative process, developing prototypes, and testing our designs. Some of our design challenges will include a water balloon launcher, a custom roller coaster, a bridge design, and more. All materials are included in this week's Camper Box.

CODEMOJI (CODING & ROBOTS)

WEEK 2: June 22-26 | At-Home \$250 On-Campus \$500**

CODEMOJI's mission is simple: teach students to enjoy all things related to coding and the web while building problem solving and creative thinking skills. Our staff of professional programmers and educators deliver clear, entertaining instruction to ensure students have fun while learning complex coding skills using popularized emojis that represent HTML text, which lowers the barriers to new coders and increases their excitement and understanding of computer science. Students build animations, websites, and video games; explore multiple coding languages; program robots; create STEM-based projects both on and offline; and are encouraged to share their projects with their families. All materials are included in this week's Camper Box, with the exception of a computer/laptop/iPad.

BENNETT ART - PAINTING & DRAWING

WEEK 2: June 22-26 | At-Home \$250 On-Campus \$500**

Bennett Art Camp projects provide structure while allowing campers to apply their own creativity to each piece. Fundamental techniques and experimental methods are blended to provide campers with ample opportunity to create and learn. Expect a lot of masterpieces during this week of camp which dives into drawing and painting. All materials are included in this week's Camper Box.

SCIENTIFIC REACTIONS

WEEK 3: June 29-July 3 | At-Home \$250 On-Campus \$500**

Campers will make things fizzle, foam, and pop during Scientific Reactions Camp! Scientists will explore all of the steps of the scientific method, experiment with a variety of reactions, and make a little bit of a mess! All materials are included in this week's Camper Box, including mess mats for easy clean up.

BENNETT ART - CHICAGO ART

WEEK 3: June 29-July 3 | At-Home \$250 On-Campus \$500**

Bennett Art Camp projects provide structure while allowing campers to apply their own creativity to each piece. During this camp, we will explore how art has shaped the city of Chicago over time. What we learn will influence our work in various mediums (paint, clay, sketch, music). As the week progresses, we will create a virtual gallery for family and friends to see our hard work. All materials are included in this week's Camper Box.

SPACE CAMP

WEEK 4: July 6-10 | At-Home \$250 On-Campus \$500**

Bennett Space Camp is back and ready to blast off! This camp incorporates art, science, and physical play to explore all of the elements of space. Camp activities include space experiments, rocket building, and even designing your own planet. All materials are included in this week's Camper Box.

BENNETT ART - MULTIPLE MEDIUMS

WEEK 4: July 6-10 | At-Home \$250 On-Campus \$500**

Bennett Art Camp projects provide structure while allowing campers to apply their own creativity to each piece. Fundamental techniques and experimental methods are blended to provide campers with ample opportunity to create and learn. Expect a lot of masterpieces during this week of camp which focuses on using a wide range of mediums. All materials are included in this week's Camper Box, and campers will showcase their art in a virtual gallery throughout the week.

BENNETT DAY CAMP AGES 8-11

CODEMOJI (CODING & ROBOTS)

WEEK 5: July 13-17 | At-Home \$250 On-Campus \$500**

CODEMOJI's mission is simple: teach students to enjoy all things related to coding and the web while building problem solving and creative thinking skills. Our staff of professional programmers and educators deliver clear, entertaining instruction to ensure students have fun while learning complex coding skills using popularized emojis that represent HTML text, which lowers the barriers to new coders and increases their excitement and understanding of computer science. Students build animations, websites, and video games; explore multiple coding languages; program robots; create STEM-based projects both on and offline; and are encouraged to share their projects with their families. All materials are included in this week's Camper Box, with the exception of a computer/laptop/iPad.

PHOTOGRAPHY CAMP

WEEK 5: July 13-17 | At-Home \$250 On-Campus \$500**

It's time to look through a new lens. During Photography Camp, campers will work on projects that help develop their photography portfolio. Daily photography challenges will teach fundamental concepts such as composition, lighting, framing, and editing. Campers will have opportunities to explore tools used by professional photographers. They will learn about the different types of photographers, and the pros and cons of being a freelancer vs. working with a larger organization. All materials are included in this week's Camper Box, with the exception of a camera.

WRITER WORKSHOP

WEEK 6: July 20-27 | At-Home \$250 On-Campus \$500**

Whether your camper is a budding poet, author, songwriter, or playwright, this workshop will foster their skill and creativity. We'll focus on breaking down the elements of each type of writing and dive into the importance of the editing process. Peer review, dealing with writer's block, and the process of becoming a professional writer will be covered throughout the course of the week. All materials are included in this week's Camper Box.

INVENTORS OF TOMORROW

WEEK 6: July 20-27 | At-Home \$250 On-Campus \$500**

This camp is designed to focus the energy that accompanies the creative thinker. We'll take the camper's need to tinker, build, and play and help them design and create prototypes. Our inventor kit will give them all the tools to succeed! All materials are included in this week's Camper Box.

ROCKETS & DRONES

WEEK 7: July 27-31 | At-Home \$250 On-Campus \$500**

3...2...1...Blastoff! This camp is all about the explosive fun of rockets and the many uses for drones. We'll explore the reactions, motors, and aerodynamics necessary to design and fly our own rockets. Our drones work will focus on flight patterns and how this technology is being implemented in today's world. All materials are included in this week's Camper Box, with the exception of a computer/laptop/iPad.

SONGWRITER WORKSHOP

WEEK 7: July 27-31 | At-Home \$250 On-Campus \$500**

It's time to put those creative skills to work in this Songwriter Workshop that explores the relationship between lyrics, rhythm, and chords. Students will explore their favorite songs, classics, and well respected lyricists before compiling their own songs. Our counselor (a local recording artist) will help students learn the ins and outs of writing, recording, and producing their own music. All materials are included in this week's Camper Box.

BENNETT ART - CLAY

WEEK 8: August 3-7 | At-Home \$250 On-Campus \$500**

Bennett Art Clay Camp will introduce students to clay with basic hand-building techniques. Projects involve unique functional and sculptural works designed to exercise each camper's imagination. Independent thinking and problem-solving is encouraged every step of the way! Campers will work on creating sculptures, bowls, cups, beads for jewelry, and more. All materials are included in this week's Camper Box.

GAME PLAY & DESIGN

WEEK 8: August 3-7 | At-Home \$250 On-Campus \$500**

Calling all gamers! Game Play & Design Camp will give campers the opportunity to research, design, and develop their own game. We'll explore board games, board-less games, RPGs, e-sports, and more. Campers will be able to play games with other campers (with supervision from counselors), and spend time independently developing their own games to play at home with their family. All materials are included in this week's Camper Box, with the exception of a computer/laptop/iPad.

MOVIE MAKERS

WEEK 9: August 10-14 | At-Home \$250 On-Campus \$500**

Action! During our Movie Makers Camp, campers will focus on story development, filming, and production to create their very own short film. Each day they will learn new tricks of the trade, such as using a green screen, stop motion effects, editing techniques, and more. At the end of the week, there will be a viewing party for all the films! All materials are included in this week's Camper Box, with the exception of a camera and computer/laptop/iPad.

IMPROV

WEEK 9: August 10-14 | At-Home \$250 On-Campus \$500**

Improv is saying 'yes and' to Camp At-Home! We're taking our fun games focused on building confidence and communication skills, and sending them to your home. Campers be able to flex their skills on-screen with our small groups and will use the materials sent home to develop characters based on an article of clothing, improv with props, and think outside the box!

GARDEN

WEEK 10: August 17-21 | At-Home \$250 On-Campus \$500**

Garden Adventures Camp blends art, science, and nature into a fun and educational experience! Campers will learn about growing techniques, crops, insects, and urban farming. Gardens can be adapted into whatever space you have available -- from a window sill to a full backyard plot! All materials are included in this week's Camper Box.

BENNETT DAY CAMP AGES 8-11

YOUNG ARCHITECTS

WEEK 10: August 17-21 | At-Home \$250 On-Campus \$500**

This camp is extremely hands on with daily building and design challenges! We'll explore net zero designs, tiny homes, landscape architecture, city layouts, and more in this week long exploration of all things architecture. All materials are included in this week's Camper Box, including a variety of reusable building materials.

BENNETT DAY CAMP AGES 12-15

PHOTOGRAPHY

WEEK 2: June 22-26 | At-Home \$250 On-Campus \$500**

During Photography Camp, campers will work on projects that help develop their photography portfolio. Daily photography challenges will teach fundamental concepts such as composition, lighting, framing, and more. Campers will have opportunities to explore digital editing throughout the week. Conversations around careers in photography, social media presence, and the impact of higher quality cell phone cameras will keep campers engaged and learning throughout the week. All materials are included in this week's Camper Box, with the exception of a camera.

WRITER WORKSHOP

WEEK 3: June 29-July 3 | At-Home \$250 On-Campus \$500**

Whether your camper is a budding poet, author, songwriter, or playwright, this workshop will foster their skill and creativity. We'll focus on breaking down the elements of each type of writing and dive into the importance of the editing process. Peer review, dealing with writer's block, and the process of becoming a professional writer will be covered throughout the course of the week. All materials are included in this week's Camper Box.

SONGWRITER WORKSHOP

WEEK 4: July 6-10 | At-Home \$250 On-Campus \$500**

It's time to put those creative skills to work in this Songwriter Workshop that explores the relationship between lyrics, rhythm, and chords. Students will explore their favorite songs, classics, and well respected lyricists before compiling their own songs. Our counselor (a local recording artist) will help students learn the ins and outs of writing, recording, and producing their own music. All materials are included in this week's Camper Box.

FUTURE TRADER PROGRAM

WEEK 5: July 13-17 | At-Home \$250 On-Campus \$500**

If you were handed \$50,000 and told to invest it, where would you start? Campers will spend this week diving into the trade room floor and learning the ins and outs of the market. They'll also look at the benefits of crowd-funding campaigns and how they have changed the market. In the Fall, all campers will have a chance to reconnect to view the outcomes of their portfolios. All materials are included in this week's Camper Box.

MOVIE MAKER WORKSHOP

WEEK 6: July 20-27 | At-Home \$250 On-Campus \$500**

During our Movie Makers Camp, campers will focus on story development, filming, and production to create their very own short film. Each day they will learn filming and production techniques ranging from basic editing to color grading and sound editing. At the end of the week there will be a viewing party for all the films! All materials are included in this week's Camper Box, with the exception of a camera and computer/laptop/iPad.

GAME PLAY & DESIGN

WEEK 7: July 27-31 | At-Home \$250 On-Campus \$500**

Calling all gamers! Game Play & Design Camp will give campers the opportunity to research, design, and develop their own game. We'll explore board games, board-less games, RPGs, e-sports, and more. Campers will be able to play games with other campers (with supervision from counselors), and spend time independently developing their own games to play at home with their family. All materials are included in this week's Camper Box, with the exception of a computer/laptop/iPad.
