How Pitchero's online registration and membership features work.

1. **An easy-to-use, customisable registration form**
   Create a professional, simple registration form for your new members to complete. Add your own fields to customise the form to suit your club's needs.

2. **An easy-to-use, customisable database**
   Easily pinpoint a specific member's details, or edit your database to show the fields you are most interested in. No need to trawl through pages of information, set up your database just how you like it.

3. **A registration form and a database**
   Use one of our suggested templates when registering new members. Once completed, new members will automatically be added to your membership database.

4. **Custom fields**
   Create custom fields for your members to fill out. Add an option for people to volunteer their time to the club or offer a sponsorship proposal if they're a business owner.

5. **Filters and reports**
   Use filters to easily sort through your membership database and find the information you need. Once you have it, you can export it as a report and share with relevant committee members.

---

6. Online payment integration
Take the stress out of payment collection by allowing members to purchase membership through your website or app, and sending reminders when membership fees are overdue

7. Integration with team management features
The system is fully equipped to assist you in viewing and collecting membership information, communicating with your members and prompting them for payment, information and availability

8. Integration with emails and club communication
Once your members are registered to Pitchero, you can contact them in a variety of ways.
You can set up a group chat with a specific team and communicate via instant message within the Pitchero Club app.
Or, you can use our built-in email system to send emails to a wider audience.

9. Flexible access settings for team managers and club officials
Control who can see what. With Pitchero, you can set up your site so that committee members can only see sections that are relevant to their position

10. Data imports and member invite features
Easily import your existing membership database into Pitchero and invite your members to join the site via email.
