What does Pitchero Payments offer my sports club?

1. A low cost, easy-to-use payment system

Pitchero Payments provides hundreds of grassroots community clubs with a simple online payment processing feature. Clubs can collect payments from their members' bank accounts and direct the funds to the club bank account, with an easy-to-use, low cost system.

2. Collect payments via your club website and mobile app

When members download the free Pitchero Club app, they can access the same payments and use mobile payment gateways such as Apple Pay and Android Pay to complete online payments in seconds.

3. Built for community and amateur sports clubs just like yours

We've built a system with community volunteer sports at its core; low cost, easy to use yet flexible, scalable and sophisticated enough to meet the requirements of the biggest and most demanding clubs.

4. Ideal for membership fees, club merchandise and much more

Hundreds of clubs already use Pitchero Payments to collect annual and recurring membership fees. As well as selling club merchandise online and raising much-needed donations.

5. Credit card and direct debit payment processing

We accept all major credit and debit cards, from all major banks. Our charges are very low with ZERO set-up fees.

6. Payment tracking and downloadable reports

Every payment your club collects is recorded online in real-time. We use a traffic light system to record payments in process, completed and failed.

Your club will have a complete 360° view on its membership finances at all times.

7. Full integration with the Pitchero membership database

Every payment collected via your club website or mobile app will be recorded next to the member's information in the club database. This means your club will have a record of every payment each member completes online

8. Shared access

Rather than one person controlling all payments, Pitchero allows multiple admin access. This means different Webmasters can access the payment feature and manage the payments they control.

9. Bank-level safety and security

Pitchero does not store bank details. Instead, we work with FCA-approved payment partners GoCardless and Stripe who process the payment on our behalf.

10. Excellent support and best practice

Pitchero has a team of support agents and account managers standing by ready to help your club. We can advise on payment structure, set up and ongoing performance.
