Why some club committees say ‘no’ to online payments- and why they are wrong!

1. **Members prefer to pay in cash**

Wrong. 99% of your members will prefer to pay using a debit or credit card at a time which suits them - at home or work online using a computer or iPad.

2. **We have older members who do not own a computer**

No problem. Accept cash or a cheque as the payment and process. This is then allocated as a manual payment in the club control panel.

3. **It’s too expensive**

If you compare all the costs of collecting payments manually versus online, we think online payments are excellent value for money and cheaper!

4. **It will take too long to set up**

Most clubs can be set up and collecting online within 30 mins, plus we have a fantastic support team on hand to help your club get started.
