

# Making Inferences

Using evidence from the image, draw some conclusions about Ariana Grande

KIA JOHNSON MAY 29, 2020 12:22PM

## Wafa

I already knew that she does charity work a lot to help the less fortunate because I've seen it on the news.

## Tyler

I am curious about why the kids behind her are dressed up and she is not.

## Sarah

I can infer that she is doing a good job performing because everyone looks happy.

## Maurice

I wonder where Manchester is?

## Cameron

I can infer that this is a charity event in Manchester because her sweatshirt says I love Manchester.

## Ayana

I am curious about where the kids in the choir go to school and how they got the opportunity to perform with her.

## Melissa

I can tell she loves to perform and to use her fame to do positive things for people.

## Mario

I wonder that MCR means?

## Angel

I know that Ariana Grande is a famous singer with a lot of money. I learned this from seeing her perform on the television and seeing pictures of her on the internet.

## Kelly

It looks like they are doing a fundraiser because of the sign in the back.

## John

I can infer that she is singing with a choir.

**What inferences can you make about the artist based on what you see in the image of Ariana Grande?**

**What do you already know about Ariana Grande? How did you learn it?**

**What do you wonder? What are you curious about?**
