F&G Dynamic Accumulator[®] Fixed Indexed Annuity (FIA) breaks new ground

100% premium protection, *double* the upside potential

In recent years, investors have been forced to take on more risk than they might be comfortable with to try to reach their goals – or sacrifice growth potential for security – and simply come up short.

The trouble is, it only takes one ill-timed recession or global pandemic to wipe away gains in the market. And, until now, protection has come at a steep cost.

What if you could **dial up your potential rate of return** in a conservative insurance product by double or more, and **without putting even one penny of your premium at risk** of losses due to a market downturn?

That's the promise of F&G Dynamic Accumulator[®] 10 Fixed Indexed Annuity (FIA).

Put gains at risk to pursue dynamic growth

With Dynamic Accumulator, your premium is always 100% protected from market losses. And its innovative approach to accumulation offers you up to **double the rates** of traditional FIAs.

Powered by a first-of-its-kind structured FIA account, Dynamic Accumulator provides an exciting opportunity. **Dial in your risk and upside potential** through market-linked indexes that allow you to leverage up to 10% of past interest credits to reach for more rapid accumulation.

You can make your allocation decisions with confidence, knowing **you're in control in a way FIA policyholders have never been before.**

Plus, get all the benefits of traditional FIAs

Diversification

- Allocate premium amongst the structured FIA account linked to the S&P 500® and a fixed account earning guaranteed interest
- Within the structured FIA account, choose between a participation rate or cap rate, and set your rate by selecting the percentage of interest credits you want to risk each year
- Dial your risk back to zero, and the structured FIA account can work like a traditional FIA

Protection for the what-ifs in life

- Withdraw up to 10% of your account value penalty-free each year for any reason
- Additional liquidity up to 100% of your account value plus structured FIA account tracking value for qualifying nursing home care or diagnosis of terminal illness

Tax-deferred growth¹

- To help your savings work even harder, interest grows tax-deferred
- You may have more money to compound and grow

¹ You pay taxes only when you make withdrawals and receive income in the future.

A new generation of fixed indexed annuities

Dynamic Accumulator represents the next step in the evolution of insurance products. In the example below — thanks to its innovative approach to accumulation — this client would have realized **over 120% more growth with Dynamic Accumulator than a traditional FIA using the same index performance..**

The above examples are hypothetical, non-guaranteed and not an indication of past or future performance. Assumes \$100,000 initial premium. Returns are based on actual S&P 500® performance on December 31 of years 2010-2020. Hypothetical policy issued Dec. 31, 2010. Caps are 4%, 5.25%, 7.5% and 10% for floors of 0%, -2.5%, -5% and -10% respectively. Caps and floors are for demonstration purposes only and may be different for new contracts issued. Assumes policy is held for the duration of the surrender charge period and no withdrawals or surrenders. Assumes -10% track is elected at issue and policyholder remains in -10% track for duration. All rates are subject to change at the sole discretion of F&G.

Get an annuity as dynamic as your life.
