The National Association of Insurance and Financial Advisors is the preeminent membership association for the multigenerational community of financial professionals in the United States. NAIFA members subscribe to a strong Code of Ethics and represent a full spectrum of financial services practice specialties. They work with families and businesses to help Americans improve financial literacy and achieve financial security. NAIFA provides producers a national community for advocacy, education and networking along with awards, publications and leadership opportunities to allow NAIFA members to differentiate themselves in the marketplace. NAIFA has 53 state and territorial chapters and 35 large metropolitan local chapters. NAIFA members in every congressional district advocate on behalf of producers and consumers at the state, interstate and federal levels.

NAIFA MEMBERS

NAIFA members provide products, services, and guidance that increase financial literacy in our society, protect their clients against life’s inherent risks, help hard-working Americans prepare for retirement, and create financial security and prosperity so their clients can leave a legacy for future generations. They serve individuals, families, and businesses in communities across the United States, building long-term relationships and often living and working in the same communities as their clients. While NAIFA members’ clients span the entire range of incomes and assets, the majority are Main Street Americans. They are the teachers, police officers, small business owners, and others who form the backbone of our communities. Almost half of NAIFA members say the “typical annual household income” of their clients falls between $50,000 and $100,000; 34 percent say their typical client’s annual income falls between $100,000 and $150,000; and 4 percent say their typical client earns less than $50,000 annually.

NAIFA CHAPTERS

NAIFA runs on volunteer power. Each state chapter has its own board headed up by a volunteer chapter president. Members that become state chapter presidents have typically given years of service to NAIFA and served at the local chapter level prior to the state level. There are many honors state presidents receive--one favorite is being the flag bearer for the state flag during our annual meeting. NAIFA has 50 state chapters and 35 local chapters.
