

NAIFA'S GOVERNMENT RELATIONS PROGRAM:

THE CORNERSTONE OF THE INDUSTRY SINCE 1890

WHAT IT MEANS TO YOUR ADVISORS

NAIFA members make more money and have a much higher probability of succeeding in the business when they belong to their professional association that provides a supportive community.

WHAT IT MEANS TO YOUR COMPANY

The voice of the producer helps to further protect your company's products and prosperity.

WHAT IT MEANS TO THE AMERICAN ECONOMY

NAIFA members serve more than 90 million American households in providing products and services that promote financial security for all.

FEDERAL

We are the only producers' association whose focus spans the entire spectrum of the financial services industry. Our advocacy runs the full gamut, impacting laws and regulations critical to risk mitigation, retirement planning, employee benefits, investments, wealth management, and everything crucial to our industry.

NAIFA's access and influence extends through all three branches of the federal government: the Executive (SEC, DOL, HHS, OMB, IRS, and the office of the President), Legislative (the industry's largest association PAC, largest Day on the Hill, and NAIFA members who are personal contacts with all 535 members of Congress), and Judicial (success in federal lawsuits). NAIFA has advocated and brought passage of the SECURE Act and Senior Safe Act, tax-protection of the inside build-up of life insurance, defeat of "Rothification" of retirement plans, and a permanent repeal of the Cadillac Tax, among many other advocacy victories.

INTERSTATE

We are in the trenches, attending the meetings and conference calls of NAIC and NCOIL, helping draft model regulations and legislation used by insurance commissioners and state legislatures BEFORE the proposals are introduced. We are on the various subcommittees of each of those organizations, give testimony at those meetings, and submit well-researched comment letters and wording suggestions so that we have our fingerprints on the model rules and codes/legislation before they even come up for discussion.

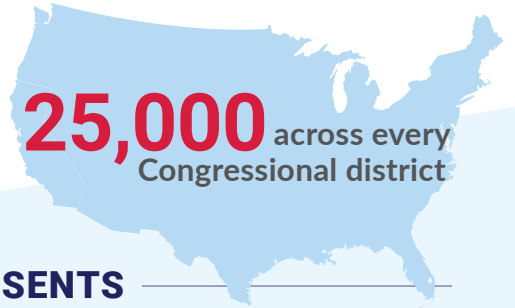

STATE

We are the only producers' association present at the state level across the country. Our 50 state PACs maximize our influence and support friendly candidates. Legislative Days and state conferences create awareness, engagement, and presence in every statehouse. We have forged relationships over decades with local and state officials, many of whom later move on to the U.S. Congress.

A strong NAIFA-ACLI partnership confronts the most pressing issues in states across the country. We have restructured our advocacy staff to maximize our impact on state issues that pose the greatest threats. NAIFA is influencing laws and regulations on all the top issues, including fiduciary proposals in MA, MD, and NJ; government-run retirement plans in WA and other states; and genetic testing in FL.

Advocacy

25,000 across every Congressional district

NAIFA DELIVERS

NAIFA REPRESENTS

NAIFA has members in every congressional district. NAIFA members maintain relationships with every member of Congress.

NAIFA SUPPORTS

NAIFA's political action committee, IFAPAC, advances the legislative interests of NAIFA members on both the state and federal levels, preserves a favorable governmental climate, and promotes the best interests of consumers by supporting the campaigns of carefully selected candidates for elected office.
