Ms. Cammie Scott, National President
NAIFA
2901 Telestar Court
Falls Church, Virginia 22042

Dear Ms. Scott,

We are writing in response to the recent actions taken by the leadership of NAIFA-NYS and Park Strategies. Their unilateral action to betray NAIFA and the NAIFA-NYS members who they were supposed to represent, can only be seen as abandonment at best, or a coup at worst.

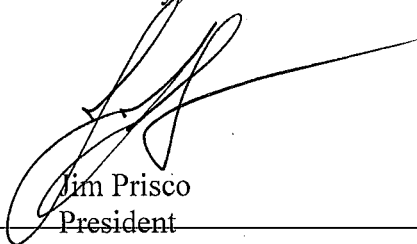

These actions not only deceived the members who elected them, and paid them, to represent our interests, but the entire NAIFA federation as a whole. Their surreptitious actions are offensive and despite any legitimacy of the Finseca association and its foundation, we will not support them, solely based on their condoning the bad faith actions of the NAIFA-NYS leadership.

We strongly support NAIFA's establishing an interim leadership team for NAIFA-NYS for the purpose of conducting a controlled analysis on the future viability of the chapter, composing a qualified NAIFA-NYS leadership team, and pursuing a NAIFA lead agenda.

Let it be known that LifeMark Securities continues its support of the NAIFA federation, the education of its members, protection of our business, and the advocacy of our clients. We will continue to demonstrate this support by paying the NAIFA dues on behalf of our representatives who are desirous of maintaining their membership in NAIFA.

We wish you all the best as you regroup and address the deception and disheartening actions taken by those who were privileged to run the NAIFA-NYS Chapter.

Sincerely,

Jim Prisco
President
