HUD Extends Application Deadline for Healthy Homes and Weatherization Cooperation Demonstration NOFA, Makes Technical Corrections

Last week HUD's Office of Lead Hazard Control and Healthy Homes ([OLHCHH](#)) [announced](#) that it has extended the application deadline date for the [Healthy Homes and Weatherization Cooperation Demonstration NOFA](#) to **December 9, 2020**. HUD has also made some technical corrections to the NOFA, which can be found on page nine of the revised [document](#) or on [this page](#) at HUD's [Funding Opportunities](#) website.

The NOFA makes approximately \$5,000,000 available to support demonstrations in up to five communities under a joint coordination between OLHCHH and the Department of Energy's Weatherization Assistance program. The grants are intended to facilitate the leveraging of assets from both programs and support the exploration of different models of service delivery.
